Preface

New Mexico Statutes 1978 Annotated

2022

This volume updates New Mexico Statutes Annotated, 1978 Compilation (NMSA 1978), through the legislation enacted at the Third Special Session of the 55th Legislature (2022 (3rd S.S.)). All permanent, general laws have been compiled. Other laws, such as applicability and severability clauses, have been noted in the annotations in the NMSA 1978 and published in the official Session Laws. Appropriations and bond authorizations, which are not compiled in the NMSA 1978, are also published in the official Session Laws.

The effect of amendments to the NMSA 1978 are given in brief form in a note following the amended section. The effective date of amendments and new laws compiled in the NMSA 1978 appears in a note following each section. For a listing of the placement of each section of the 2022 Session Laws, see the Tables of Disposition of Laws on *NMOneSource.com*.

Laws enacted without a specific effective date, or without an emergency clause, take effect pursuant to N.M. Const., Article IV, § 23 ninety (90) days after adjournment of the legislature. The effective date of the 2022 laws that took effect pursuant to Article IV, § 23 is May 18, 2022.

Legislation that was compiled, but had not taken effect at the time that the 2022 laws were printed, appears in italics to call attention to its postponed effectiveness. The effective date of these sections with postponed effective dates may be found in parentheses in the section headings. Sections that have been repealed by the legislature with an effective date after October, 2022 are published with the repeal dates in the heading at the beginning of the sections.

ANNOTATIONS

Commission's determinations deemed final, not ministerial. — The legislature would not have taken such great pains to provide for the selection of qualified persons to constitute the commission's membership were the commission to perform solely ministerial acts. The legislature not only provided for the selection of persons eminent in their field and gave them authority to grant and/or refuse and revoke licenses, but further provided in Section 60-1-9 NMSA 1978 (now Section 60-1A-11 NMSA 1978) that the commission's determinations should be final and conclusive and not subject to any appeal. *Ross v. State Racing Comm'n*, 1958-NMSC-117, 64 N.M. 478, 330 P.2d 701 (decided under former law).

Racing commission has broad and sweeping powers. — The legislature in its wisdom intended to confer broad discretionary powers of licensing upon

the commission as an expert body. *Ross v. State Racing Comm'n*, 1958-NMSC-117, 64 N.M. 478, 330 P.2d 701 (decided under former law).

Commission deemed to have acted arbitrarily. — Having requested no financial information and the statutory provisions requiring none, the commission acted arbitrarily in making the finding that there was no sufficient showing that the enterprise would be a financial success, upon which it based the denial of petitioners' license. The petitioners should have been afforded the opportunity to submit financial or other necessary information so that the commission could properly exercise its discretion in granting or refusing a license. *Ross v. State Racing Comm'n*, 1958-NMSC-117, 64 N.M. 478, 330 P.2d 701 (decided under former law).

Strict liability may be imposed by the state as a right to participate in horse races or to hold a license to do so. *Sanderson v. N.M. State Racing Comm'n*, 1969-NMSC-031, 80 N.M. 200, 453 P.2d 370 (decided under former law).

Authority of commission to prevent drug use. — Since the risk is so great that a race might be conducted unfairly when a horse has drugs in its body, the commission in its discretion can provide that the urine or other sample be totally free of drugs under the authority of this section. *Sanderson v. N.M. State Racing Comm'n*, 1969-NMSC-031, 80 N.M. 200, 453 P.2d 370 (decided under former law).

License deemed privilege and not vested property right subject to due process. — The state may prescribe strict liability under which it will grant a licensee to participate therein, the terms of compliance by rules and regulations promulgated by the commission and likewise the terms under which the license may be suspended or revoked. A license is a privilege and not a right within the meaning of the due process clause of the state and federal constitutions and in it licensees have no vested property rights. *Sanderson v. N.M. State Racing Comm'n*, 1969-NMSC-031, 80 N.M. 200, 453 P.2d 370 (decided under former law).

State racing commission has no common-law or inherent powers and can act only as to those matters which are within the scope of its delegated authority. 1979 Op. Att'y Gen. No. 79-15 (rendered under former law).

Commission not authorized to issue free passes. — The commission might require that licensed tracks charge no admission fee, or that they charge no admission fee for certain groups or at certain times or that they offer some other kind of promotional program, but it cannot be fairly inferred that the commission itself is authorized to issue free passes. 1979 Op. Att'y Gen. No. 79-15 (rendered under former law).

Commission may allow race meet to occur at two different locations. — The commission is not prohibited from allowing a race meet to occur at two different locations, and may approve a licensee's application for a race meet that begins at one of the licensee's facilities and

concludes at another of the licensee's facilities. 1987 Op. Att'y Gen. No. 87-78 (rendered under former law).

Commission may hire husband and wife to carry on the duties of the commission so long as no such employee is related to the commission within the degree of consanguinity prohibited by Section 10-1-10 NMSA 1978. 1951 Op. Att'y Gen. No. 51-5424 (rendered under former law).

Commission has no implied authority to acquire real estate and erect buildings for its own use, nor may it use surplus funds for maintenance of a state fair race track. 1954 Op. Att'y Gen. No. 54-5914 (rendered under former law).

Withholding taxes for "seasonal" employees. — The state racing commission is responsible for withholding tax and social security tax on fees paid to "seasonal" employees. 1957 Op. Att'y Gen. No. 57-230 (rendered under former law).

State racing commission has broad and sweeping powers to regulate horse racing and wagering thereon. 1963 Op. Att'y Gen. No. 63-115 (rendered under former law).

60-1A-5. Commission rules; all licenses; suspension, revocation or denial of licenses; penalties. (Repealed effective July 1, 2028.)

A. The commission shall adopt rules to implement the Horse Racing Act and to ensure that horse racing in New Mexico is conducted with fairness and that the participants and patrons are protected against illegal practices.

B. Every license issued by the commission shall require the licensee to comply with the rules adopted by the commission. A racetrack licensee shall post printed copies of the rules in conspicuous places on the racing grounds and shall maintain them during the period when live horse races are being conducted.

C. The commission may suspend, revoke or deny renewal of a license of a person who violates the provisions of the Horse Racing Act or rules adopted pursuant to that act. The commission shall provide a licensee facing suspension, revocation or denial of renewal of a license reasonable notice and an opportunity for a hearing. The suspension, revocation or denial of renewal of a license shall not relieve the licensee from prosecution for the violations or from the payment of fines and penalties assessed the licensee by the commission.

D. The commission may impose civil penalty fines upon a licensee for a violation of the provisions of the Horse Racing Act or rules adopted by the commission. H. The commission may schedule a date for a hearing on the application for a new racetrack license to determine the eligibility of the applicant pursuant to the Horse Racing Act or as needed for determining the eligibility for the renewal of a racetrack license. The applicant shall be notified of the hearing at least five days prior to the date of the hearing. The applicant has the right to present testimony in support of the application. Notice shall be mailed to the address of the applicant appearing upon the application for the racetrack license. D. A person who owns or holds, directly, indirectly or beneficially, ten percent or more of the total authorized, issued and outstanding shares of a corporation that is a racetrack licensee is required to hold a secondary license issued by the commission. If the commission finds that a person who owns or holds, directly, indirectly or beneficially, ten percent or more of the total authorized, issued and outstanding shares of a corporation that is a racetrack licensee is unqualified to be issued a secondary license, the commission shall give notice of its finding to the corporation and to the person owning or holding the interest. 60-1A-17. Interstate common pool wagering; authorized. (Repealed effective July 1, 2028.)

A. Subject to the federal Interstate Horseracing Act of 1978, the commission may permit a racetrack licensee to participate in interstate common pools. All provisions of the Horse Racing Act that govern pari-mutuel wagering apply to pari-mutuel wagering in interstate common pools except as otherwise provided in this section.

B. Daily pari-mutuel tax and daily capital outlay tax shall not be imposed upon amounts wagered in an interstate common pool other than upon amounts wagered within New Mexico.

C. Subject to prior approval of the commission, the following provisions apply when a racetrack licensee participates in interstate common pools on a horse race that originates outside of New Mexico:

(1) a racetrack licensee may combine its pari-mutuel pools at the host track and other locations. The types of wagering, takeout, distribution of winnings and rules of racing in effect for pari-mutuel pools at the host track shall govern wagers placed in New Mexico and merged into the interstate common pool. Breakage for interstate common pools shall be calculated in accordance with the rules governing the host track and shall be distributed in a manner agreed upon by the racetrack licensee in New Mexico and the host track;

(2) with the concurrence of the host track, an interstate common pool that excludes the host track may be formed with the racetrack licensee in New Mexico and other locations outside of the host state. When an interstate common pool is formed pursuant to this paragraph, the commission may approve types of wagering, takeout, distribution of winnings, rules of racing and calculation of breakage that are different from those that are in effect in New Mexico; provided that the rules are applied consistently to all persons in the interstate common pool;

(3) the racetrack licensee may deduct from retainage resulting from an interstate common pool a reasonable fee to be paid to the person conducting the horse race at the host track for the privilege of conducting pari-mutuel wagering on the race and participating in the interstate common pool and for payment of costs incurred to transmit the simulcast horse race; and

(4) provisions of New Mexico law or contracts governing the distribution of daily pari-mutuel tax and daily capital outlay tax and breeders' or other awards and purses from the takeout from wagers placed in New Mexico shall remain in effect for wagers placed in an interstate common pool; provided that if the commission approves an adjustment in the takeout rate, the distribution of the takeout within New Mexico shall be adjusted proportionately to reflect the adjustment in the takeout rate; and provided further that with the concurrence of the racetrack licensee and the organization representing a majority of the breeders, horsemen or other persons entitled to shares of the distribution and subject to approval of the commission, the respective shares to breeders' or other awards or purses may be modified.

D. Subject to prior approval of the commission, the following provisions apply when a racetrack licensee in New Mexico participates in interstate common pools as a host track:

(1) a racetrack licensee may permit one or more of its horse races to be used for pari-mutuel wagering at, and may export a horse race to, one or more licensed sites outside of New Mexico. The racetrack licensee may also permit pari-mutuel pools in other locations to be combined with the racetrack licensee's comparable pari-mutuel wagering pools or with wagering pools established in other jurisdictions. The commission may modify its rules and adopt separate rules for the interstate common pools and their calculation of breakage; and

(2) except as otherwise provided in this section, New Mexico law or contracts governing the distribution of shares of the takeout for daily pari-mutuel tax or daily capital outlay tax and breeders' or other awards and purses shall remain in effect for amounts wagered within New Mexico in interstate common pools; provided that with the concurrence of the racetrack licensee of the host track and the organization representing a majority of the breeders, horsemen or other persons entitled to shares of the distribution, and subject to approval of the commission, the respective shares to breeders' or other awards or purses may be modified.

E. When the laws and rules of the host state and guest states permit, an interstate common pool may be established on a regional or other basis between two or more guest states and not include a merger into the host state's pari-mutuel wagering pool, in which case, one of the guest state's tracks shall serve as if it were the host track for the purposes of calculating the pari-mutuel wagering pool. An interstate common pool may include members located outside of the United States. Except as otherwise set forth in commission rules, participation by a person in an interstate common pool with wagering facilities in one or more states or jurisdictions shall not cause the participating person to be deemed to be doing business in a jurisdiction other than the jurisdiction in which that person is physically located.

F. The commission may adopt rules necessary to implement this section.

Chapter 60, Article 2C NMSA 1978 may be cited as the "Fireworks Licensing and Safety Act".

History: Laws 1989, ch. 346, § 1; 1997, ch. 17, § 1.

The 1997 amendment, effective March 18, 1997, substituted "Chapter 60, Article 2C NMSA 1978" for "Sections 1 through 11 of this act".

ANNOTATIONS

Municipal or county regulation. — This article expressly removed from municipalities their general authority to regulate fireworks and replaced it with limited authority to regulate the use of aerial and ground audible devices. To the extent that municipalities have regulatory authority over specified devices, those devices are subject to double regulation as long as municipal regulations do not conflict with the requirements of this article. 1990 Op. Att'y Gen. No. 90-11.

This article denies all municipalities, including those with home rule charters, from regulating fireworks other than as provided by the statute. 1990 Op. Att'y Gen. No. 90-11.

A municipal ordinance that purports to prohibit all fireworks is contrary to the limited authority granted to municipalities under this article and, therefore, is void and without effect. 1990 Op. Att'y Gen. No. 90-11.

Counties have the same authority as municipalities to enact ordinances permitted by this article. 1990 Op. Att'y Gen. No. 90-11.

B. "aerial shell kit-reloadable tube" means a package or kit containing a cardboard, high-density polyethylene or equivalent launching tube and not more than twelve small aerial shells. Each aerial shell is limited to a maximum of sixty grams of total chemical composition, including lift charges, and the maximum diameter of each shell shall not exceed one and three-fourths inches;

C. "bosque" means a cottonwood corridor adjacent to a river;

D. "chaser" means a paper or cardboard tube venting out the fuse end of the tube that contains no more than twenty grams of chemical composition and travels along the ground, often producing a whistling effect or other noise; an explosive composition not to exceed fifty milligrams may be included to produce a report;

E. "chemical composition" includes all pyrotechnic and explosive composition contained in a fireworks device, but does not include inert materials such as clay used for plugs or organic matter such as rice hulls used for density control;

F. "cone fountain" means a cardboard or heavy paper cone containing no more than fifty grams of pyrotechnic composition that has the same effect as a cylindrical fountain. When more

than one cone is mounted on a common base, total pyrotechnic composition shall not exceed two hundred grams;

G. "crackling device" means a sphere or paper tube that contains no more than twenty grams of pyrotechnic composition that produces a flash of light and a mild, audible crackling effect upon ignition, which effect is not considered to be an explosion. Crackling devices are not subject to the fifty-milligram limit of firecrackers;

H. "cylindrical fountain" means a cylindrical tube containing not more than seventy-five grams of pyrotechnic composition that produces a shower of colored sparks and sometimes a whistling effect or smoke. The device may be provided with a spike for insertion into the ground or a wood or plastic base for placing on the ground or a wood or cardboard handle to be hand held. When more than one tube is mounted on a common base, total pyrotechnic composition shall not exceed two hundred grams;

I. "display distributor" means a person, firm or corporation selling display fireworks;

J. "display fireworks" means devices primarily intended for commercial displays that are designed to produce visible or audible effects by combustion, deflagration or detonation, including salutes containing more than one hundred thirty milligrams of explosive composition; aerial shells containing more than forty grams of chemical composition exclusive of lift charge; and other exhibition display items that exceed the limits for permissible fireworks;

K. "distributor" means a person, firm or corporation selling fireworks to wholesalers and retailers for resale;

L. "explosive composition" means a chemical compound or mixture, the primary purpose of which is to function by explosion, producing an audible effect in a fireworks device;

M. "firecracker" means a small, paper-wrapped or cardboard tube containing no more than fifty milligrams of explosive composition that produces noise and a flash of light; provided that firecrackers used in aerial devices may contain up to one hundred thirty milligrams of explosive composition per report;

N. "fireworks" means devices intended to produce a visible or audible effect by combustion, deflagration or detonation and are categorized as "permissible fireworks" or "display fireworks", but does not include novelties or theatrical pyrotechnics articles;

O. "fitter sparkler" means a narrow paper tube attached to a stick or wire and filled with no more than five grams of pyrotechnic composition that produces color and sparks upon ignition and the paper at one end of the tube is ignited to make the device function;

P. "ground spinner" means a small, rapidly spinning device containing no more than twenty grams of pyrotechnic composition venting out an orifice usually on the side of the tube that when ignited produces a shower of sparks and color. "Ground spinner" is similar in operation to a wheel, but is intended to be placed flat on the ground and ignited;

Q. "helicopter" or "aerial spinner" means a tube containing no more than twenty grams of chemical composition with a propeller or blade attached that spins rapidly as it rises into the air with a visible or audible effect sometimes produced at or near the height of flight;

R. "illuminating torch" means a cylindrical tube containing no more than one hundred grams of pyrotechnic composition that produces a colored flame upon ignition and may be spiked, based or hand held. When more than one tube is mounted on a common base, total pyrotechnic composition shall not exceed two hundred grams;

T. "mine" or "shell" means a heavy cardboard or paper tube usually attached to a wooden or plastic base and containing no more than sixty grams of total chemical composition, including lift charges, per tube that individually expels pellets of pressed pyrotechnic composition that burn with bright color in a star effect, or other devices propelled into the air, and that contains components producing reports containing a maximum one hundred thirty milligrams of explosive composition per report. A mine may contain more than one tube, but the tubes must fire in sequence upon ignition of one external fuse, must be a dense-packed collection of mine or shell tubes and the total chemical composition, including lift charges, shall not exceed two hundred grams;

U. "missile-type rocket" means a device similar to a stick-type rocket in size, composition and effect that uses fins rather than a stick for guidance and stability and that contains no more than twenty grams of chemical composition;

V. "multiple tube devices" means a device that contains more than one cardboard tube and the ignition of one external fuse that causes all of the tubes to function in sequence. The tubes are individually attached to a wood or plastic base or are dense-packed and are held together by glue, wire, string or other means that securely hold the tubes together during operation. A maximum total weight of five hundred grams of pyrotechnic composition shall be permitted; provided that the tubes are securely attached to a wood or plastic base and are separated from each other on the base by a distance of at least one-half inch. The connecting fuses on multiple tube devices shall be fused in sequence so that the tubes fire sequentially rather than all at once;

W. "novelties" means devices containing small amounts of pyrotechnic or explosive composition that produce limited visible or audible effects, including party poppers, snappers, toy smoke devices, snakes, glowworms, sparklers or toy caps, and devices intended to produce unique visual or audible effects that contain sixteen milligrams or less of explosive composition and limited amounts of other pyrotechnic composition, including cigarette loads, trick matches, explosive auto alarms and other trick noisemakers;

Chapter 60, Articles 3A, 5A, 6A, 6B, 6C, 6E, 7A, 7B and 8A NMSA 1978 may be cited as the "Liquor Control Act".

History: Laws 1981, ch. 39, § 1; 1984, ch. 85, § 9; 2015, ch. 3, § 27; 2015, ch. 102, § 1.

2015 Multiple Amendments. — Laws 2015, ch. 3, § 27 and Laws 2015, ch. 102, § 1 enacted different amendments to this section that can be reconciled. Pursuant to 12-1-8 NMSA 1978, Laws 2015, ch. 102, § 1, as the last act signed by the governor is set out above and incorporates both amendments. The amendments enacted by Laws 2015, ch. 3, § 27 and Laws 2015, ch. 102, § 1 are described below. To view the session laws in their entirety, see the XX session laws on *NMOneSource.com*.

The nature of the difference between the amendments is that Laws 2015, ch. 3, § 27 deleted references to Articles 4B and 4C while Laws 2015, ch. 102, § 1 only deleted the reference to Article 4C.

Laws 2015, ch. 102, § 1, effective July 1, 2015, moved "Chapter 60" to the beginning of the sentence; after "4B", deleted "4C"; and after "6C", added "6E".

Laws 2015, ch. 3, § 27, effective July 1, 2015, moved "Chapter 60" to the beginning of the sentence; after "Articles 3A", deleted "4B, 4C"; and after "6C", added "6E".

ANNOTATIONS

Veto of severability clause unconstitutional. — The governor's veto of Laws 1981, ch. 39, § 129, the

severability clause of the Liquor Control Act, was unconstitutional under N.M. Const., art. IV, § 22, because that act does not appropriate money and the governor's power of partial veto is limited to bills appropriating money. *Chronis v. State ex rel. Rodriguez*, 1983-NMSC-081, 100 N.M. 342, 670 P.2d 953.

Transfer of license despite municipal disapproval.

Under the Liquor Control Act, the director of the alcohol and gaming division of the New Mexico regulation and licensing department may approve a transfer of a license despite municipal disapproval. The director must so act if the governing body fails to submit evidence supporting its decision or if, on its face, the governing body's decision is not based on evidence pertaining to the specific prospective transferee or location. *Southland Corp. v. 60-3A-2. Liquor policy of state; investigation of applicants; responsibility of licensees.

A. It is the policy of the Liquor Control Act [60-3A-1 NMSA 1978] that the sale, service and public consumption of alcoholic beverages in the state shall be licensed, regulated and controlled so as to protect the public health, safety and morals of every community in the state; and it is the responsibility of the director to investigate the qualifications of all applicants for licenses under that act, to investigate the conditions existing in the community in which the premises for which any license is sought are located before the license is issued, to the end that licenses shall not be

issued to persons or for locations when the issuance is prohibited by law or contrary to the public health, safety or morals.

B. It is the intent of the Liquor Control Act that each person to whom a license is issued shall be fully liable and accountable for the use of the license, including but not limited to liability for all violations of the Liquor Control Act and for all taxes charged against the license.

ANNOTATIONS

Federal preemption. — New Mexico's regulatory scheme of airlines' alcoholic beverage services provided to passengers is impliedly preempted as it falls within the field of aviation safety that Congress intended federal law to occupy exclusively. However, the Twenty-first Amendment of the United States Constitution requires a balancing of New Mexico's core powers and the federal interests underlying the FAA. *US Airways, Inc. v. O'Donnell*, 627 F.3d 1318 (10th Cir. 2010).

New Mexico Liquor Control Act is exercise of police power of the state, for the welfare, health, peace, temperance and safety of its people. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

License not property right, but privilege in constitutional sense. — A liquor license is a privilege and not property within the meaning of the due process and contract clauses of the constitutions of this state and the nation, and in them licensees have no vested property rights. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

The licensee has no vested property right in a liquor license as it is a privilege and not property. *Yarbrough v. Montoya*, 1950-NMSC-006, 54 N.M. 91, 214 P.2d 769.

Sale of liquor not inherent privilege of United States or state citizenship. — Retail sale of intoxicating liquor is not reckoned among the inherent privileges of a citizen of the United States or the state, but is a business which is attended with dangers to the community so that it may be entirely prohibited or authorized under such conditions as will limit its evil propensities to the utmost degree. *Yarbrough v. Montoya*, 1950-NMSC-006, 54 N.M. 91, 214 P.2d 769.

As between state and licensee, liquor license is mere revocable privilege vesting no property rights in the licensee. *Nelson v. Naranjo*, 1964-NMSC-209, 74 N.M. 502, 395 P.2d 228.

Liability of lessors. — Lessors of a liquor license are fully liable and accountable for debts incurred by the lessee in the course of his use of the license. *Gavin Maloof & Co. v. Sw. Distrib. Co.*, 1987-NMSC-103, 106 N.M. 413, 744 P.2d 541.

In a case against an absent owner-lessor of a liquor license, arising out of the lessee's service of alcohol to an intoxicated patron who injured third parties (the plaintiffs), Section 41-11-1A NMSA 1978, enacted in 1983, under which the absent owner-lessor is liable for the acts of a lessee not in the employ of the licensee, was not applicable. At the time of the injury in 1982 the cause of action created by Subsection B of this section inured to the plaintiffs as a vested right, and the court could not apply Section 41-11-1A NMSA 1978 retroactively against the plaintiffs and divest them of that right. *Ashbaugh v. Williams*, 1987-NMSC-120, 106 N.M. 598, 747 P.2d 244.

Purpose of liquor control legislation is to regulate and restrain and not to promote, and any loosening

of that policy is the business of the legislature, not of the courts. *State ex rel. Maloney v. Sierra*, 1970-NMSC-144, 82 N.M. 125, 477 P.2d 301; 1979 Op. Att'y Gen. No. 79-03.

Finding beyond reasonable doubt that beer met definition not required. — Trial court committed no fundamental error when it failed on its own motion to instruct the jury they must find beyond a reasonable doubt the beer claimed to have been sold contained more than one-half of one percent of alcohol which is the statutory definition of alcoholic liquor as it relates to beer. *State v. Baize*, 1958-NMSC-064, 64 N.M. 168, 326 P.2d 367.

Nor instruction to find beyond reasonable doubt required. — The refusal of the court to instruct the jury they must find beyond a reasonable doubt that beer alleged to have been sold contained more than one-half of one percent alcohol was not error. *State v. Spahr*, 1958-NMSC-103, 64 N.M. 395, 328 P.2d 1093.

Meaning of "dispenser". — Dispenser is any person "selling, offering for sale or having in his possession with intent to sell, alcoholic liquors by the drink or in packages" and a dispenser "sells" by the drink, not just "serves," and the word "sell" is not limited to liquor in packages. *State ex rel. Maloney v. Sierra*, 1970-NMSC-144, 82 N.M. 125, 477 P.2d 301.

"Licensed premises". — Since this section limits the use of the license only to the "licensed premises," this section will not permit the licensing of two or more totally independent structures under a single liquor license where one of the structures is already licensed as a full service lounge and the licensee proposes to operate a restaurant which would provide full service liquor sales in another structure located several hundred yards away from the lounge. 1987 Op. Att'y Gen. No. 87-10.

Electoral history determines whether city and county separate "local option districts". — In order for a city to constitute a separate local option district, it is essential that the city have a population in excess of five thousand residents and that the city have voted in favor of the sale of alcoholic liquors within its distinct limits, and will depend on the electoral history of the governmental subdivisions with respect to the approval of the sale of alcoholic liquors within their respective geographical limits. 1971 Op. Att'y Gen. No. 71-116, overruled by 1982 Op. Att'y Gen. No. 82-15.

Veterans' clubs qualify for "club" license. — Legally constituted chapters of the American Legion and the Veterans of Foreign Wars do qualify for the issuance of a "club" license under this section. 1959-60 Op. Att'y Gen. No. 59-118.

Meaning of "beverage". — Fitness for beverage purposes is an essential attribute of intoxicating liquor, and, notwithstanding a liquor contains the requisite amount of alcohol, it is not an intoxicating liquor if it is unfit for beverage purposes. The word "beverage," as used in the statutes relating to intoxicating liquors, means a liquor that is capable of being drunk, and, in determining whether a liquor is capable of being used as a beverage, the test applied is not limited to the case of an average individual with average tastes. 1959-60 Op. Att'y Gen. No. 59-190.

Alcoholic concoction within scope of liquor laws if "beverage". — In order to permit salted (cooking) wines to be sold in food store outlets without the payment of excise tax, the question must first be, either judicially or administratively, determined: "is the concoction in question capable of being used as a beverage?" If the answer is in the affirmative, then because of its alcoholic content, it would definitely be within the scope of the law pertaining to the sale of alcoholic liquors. If the question is answered

in the negative, then no liquor tax would have to be paid on it and the product could be marketed in food stores without a license, 1959-60 Op. Att'y Gen. No. 59-190.

Meaning of "package". — In keeping with the usages expressed by and implied from the term "package," such refers to the individual bottles, cans or crocks, as the case may be. 1957-58 Op. Att'y Gen. No. 57-243.

ANNOTATIONS

Provisions governing hours of operation do not apply to Indian casino. — Where alcohol distributors sold alcohol to an Indian casino knowing that the casino planned to sell alcohol continuously in a twenty-four hour period, the provisions of the Liquor Control Act,

Section 60-3A-1 NMSA 1978 et seq., that alcohol may be served, did not create a duty of care to motorists who were injured in an accident caused by a drunk driver who was served alcohol which intoxicated at the casino because the act does not apply to Indian casinos. *Chavez v. Sec.

60-5A-1. Elections for local option.

Sec.

60-5A-2. Resubmission of local option question.

60-5A-1. Elections for local option.

Any municipality containing more than five thousand persons according to the latest United States census, whether the county in which that municipality is situated has adopted the local option provisions of the Liquor Control Act or any former act or not, or any county in the state may adopt local option in the county or municipality upon the following terms and conditions:

A. the qualified electors of a proposed local option district may petition the governing body by filing a petition in the appropriate office to hold an election for the purpose of determining whether the county or municipality shall adopt the local option provisions of the Liquor Control Act. If the number of the signatures of the electors on the petition equals or exceeds five percent of the number of qualified electors of the district, the governing body shall call an election within ninety days of the verification of the petition; provided that the date is not in conflict with the provisions of Section 1-24-1 NMSA 1978. The governing body shall refuse to recognize the petition if more than three months have elapsed between the date of the first signature and the filing of the petition. The election also may be initiated by a resolution adopted by the governing body of the proposed local option district without a petition having been submitted;

B. the election shall be called, conducted, counted and canvassed pursuant to the provisions of the Local Election Act [Chapter 1, Article 22 NMSA 1978];

C. except as otherwise provided in this section, contests, recounts and rechecks shall be permitted as provided for in the case of candidates. Applications for contests, recounts or rechecks may be filed by any person who voted in the election, and service shall be made upon the county clerk or municipal clerk as the case may be;

D. if a majority of all the votes cast at the election is cast in favor of the sale, service or public consumption of alcoholic beverages in the county or municipality, the chair of the governing body shall declare by order entered upon the records of the county or municipality that the county or municipality has adopted the local option provisions of the Liquor Control Act and shall notify the department of the results;

E. if an election is held under the provisions of the Liquor Control Act in a county that contains within its limits a municipality of more than five thousand persons according to the latest United States census, it is not necessary for the qualified electors in the municipality to file a separate petition asking for a separate or different vote on the question of adopting the local option provisions of the Liquor Control Act by the municipality. The election in the county shall be conducted so as to separate the votes in the municipality from those in the remaining parts of the county. If a majority of the voters in the county, including the voters in the municipality, votes against the sale, service or public consumption of alcoholic beverages in the county, the county shall not adopt the local option provisions of the Liquor Control Act; but if a majority of the votes in the municipality is in favor of the sale, service or public consumption of alcoholic beverages, the municipality shall have adopted the local option provisions of the Liquor Control Act. Nothing contained in this subsection shall prevent any municipality from having a separate election under the terms of this section;

F. a county or municipality composing a local option district under the provisions of the Liquor Control Act or a former act may vote to discontinue the sale, service or public consumption of alcoholic beverages in the local option district; the discontinuance shall become effective on the ninetieth day after the local option election is held; and

G. nothing in this section shall invalidate any local option election held pursuant to any former act prior to July 1, 1981.

Hearings within scope of director's administrative powers. — It is entirely within the administrative powers of the chief of the division of liquor control (now director) to proceed with hearing to determine whether liquor license had originally been issued without authority under the statute. *Petroleum Club Inn Co. v. Franklin*, 1963-NMSC-133, 72 N.M. 347, 383 P.2d 824.

Section constitutional. — This section, as now constituted, is clearly constitutional. The police power of the state to regulate and/or prohibit the possession, sale and dispensing of alcoholic beverages has been upheld against constitutional attack so many times that it is unnecessary to cite authority so holding. 1959-60 Op. Att'y Gen. No. 59-137.

Intent of quota. — The quota provisions of this section are intended to limit the number of liquor licenses allowed in the state. 1979 Op. Att'y Gen. No. 79-03.

Section inapplicable to transfer of existing licenses. — A liquor dispenser's license may not be transferred from one municipality to another even though limitations as to the number of licenses per population apply only to the issuance of new licenses and not to the transfer of existing licenses. A transfer from one municipality to another would be without restriction in this regard but would result in thwarting the legislative intent of limiting the number of licenses that can be issued to any one municipality. 1970 Op. Att'y Gen. No. 70-56.

Quota limitation enforced when licenses issued. — The director cannot legally issue a liquor license to a city without regard to the quota limitation imposed under this section. 1975 Op. Att'y Gen. No. 75-41.

"Major fraction thereof" could only mean more than one half. 1955-56 Op. Att'y Gen. No. 56-6384.

Each incorporated municipality is eligible for one license even though the population of the municipality is less than a major fraction of 2000. 1961-62 Op. Att'y Gen. No. 61-48.

60-6A-19. No property right in license; exception.

A. The holder of any license issued under the Liquor Control Act [60-3A-1 NMSA 1978] or any former act has no vested property right in the license, which is the property of the state; provided that retailer's licenses, dispenser's licenses and canopy licenses that were replaced by dispenser's licenses pursuant to Section 60-6B-16 NMSA 1978:

(1) shall be considered property subject to execution, attachment, a security transaction, liens, receivership and all other incidents of tangible personal property under the laws of this state, except as otherwise provided in the Liquor Control Act;

(2) may be assigned, transferred from person to person or leased, provided all requirements of the Liquor Control Act and department regulations are fulfilled; and

(3) shall be transferred as personal property upon attachment, execution, repossession by a secured party or lienor, foreclosure by a creditor, appointment of a receiver for the licensee, death of the licensee, filing of a petition of bankruptcy by or for the licensee, incapacity of the licensee or dissolution of the licensee. The director may by rule or regulation determine any application or notice requirement for a person who temporarily holds a license pursuant to this subsection.

B. Any license issued under the Liquor Control Act [60-3A-1 NMSA 1978] may be transferred to any location not otherwise contrary to law within the same local option district where the license is then located, provided all requirements of the Liquor Control Act and department regulations are fulfilled.

History: Laws 1981, ch. 39, § 36; 1991, ch. 257, § 1.

The 1991 amendment, effective June 14, 1991, designated the previously undesignated provisions as Subsection A and Paragraph (1) thereof; in Subsection A, substituted "provided that retailer's licenses,

dispenser's licenses and canopy licenses that were replaced by dispenser's licenses pursuant to Section 60-6B-16 NMSA 1978" for "provided that until June 30, 1991 licenses issued prior to the effective date of the Liquor Control Act" at the end of the introductory

paragraph and added Paragraphs (2) and (3); and added Subsection B.

If a permit or license is issued to a person for the operation of a brewery, distillery, rectifying plant or winery, and the permittee or licensee has commenced the operation of the brewery, distillery, rectifying plant or winery under the terms of the permit or license, the permit or license shall be construed to constitute a contract vesting in the licensee, for a period of fifty years from the date of the original issuance of the license or permit, a right to operate the business, which right shall not be impaired by any subsequent legislation or local option election. This section shall not be construed to permit the licensee or permittee to sell its products in this state contrary to the current laws of this state.

If necessary, such a hearing shall be held on each selected application by priority until a qualified applicant for each available license is approved. Further random selections for priority positions shall also be held pursuant to this section as necessary.

J. All applications submitted for a license shall expire upon the director's final approval of a qualified applicant for that available license.

K. The director shall notify the applicant by certified mail of the date, time and place of the hearing. The hearing shall be held in Santa Fe. The director may designate a hearing officer to

take evidence at the hearing. The director or the hearing officer shall have the power to administer oaths.

L. In determining whether a license shall be issued, the director shall take into consideration all requirements of the Liquor Control Act. In the issuance of a license, the director shall specifically consider the nature and number of prior violations of the Liquor Control Act by the applicant or of any citations issued within the prior five years against a license held by the applicant or in which the applicant had an ownership interest required to be disclosed under the Liquor Control Act. The director shall disapprove the issuance or give preliminary approval of the issuance of the license based upon a review of all documentation submitted and any investigation deemed necessary by the director.

M. Before a new license is issued for a location, the director shall cause a notice of the application for the license to be posted conspicuously, on a sign not smaller than thirty inches by forty inches, on the outside of the front wall or front entrance of the immediate premises for which the license is sought or, if no building or improvements exist on the premises, the notice shall be posted at the front entrance of the immediate premises for which the license is sought, on a billboard not smaller than five feet by five feet. The contents of the notice shall be in the form prescribed by the department, and such posting shall be over a continuous period of twenty days prior to preliminary approval of the license. The director shall prescribe the manner in which the posting may be accomplished by the licensee, the licensee's representative or the director's designee.

N. A license shall not be issued until the posting requirements of Subsection M of this section have been met.

O. All costs of publication and posting shall be paid by the applicant.

P. It is unlawful for a person to remove or deface a notice posted in accordance with this section. A person convicted of a violation of this subsection shall be punished by a fine of not more than three hundred dollars (\$300) or by imprisonment in the county jail for not more than one hundred twenty days or by both.

Q. A person aggrieved by a decision made by the director as to the approval or disapproval of the issuance of a license may appeal to the district court pursuant to the provisions of Section 39-3-1.1 NMSA 1978. If the disapproval is based upon local option district disapproval pursuant to Subsection H of Section 60-6B-4 NMSA 1978, the local option district shall be a necessary party to an appeal. The decision of the director shall continue in force, pending a reversal or modification by the district court, unless otherwise ordered by the court.

The 2007 amendment, effective June 15, 2007, added Paragraph (3) of Subsection A; eliminated the exception that corporations whose stock is listed on a national securities exchange do not have to provide the names and addresses of officers and directors and stockholders; eliminated from Paragraph (3) of Subsection A the requirement that a corporation state the name of its resident agent and the requirement that a power of attorney authorize the resident agent to conduct the corporation's business in New Mexico; adds Paragraphs (6) and (7) of Subsection A; excepted certain persons from the requirement to submit fingerprints; and added Paragraphs (1) through (6) of Subsection B.

The 2003 amendment, effective July 1, 2003, substituted "two hundred dollars (\$200)" for "one hundred fifty dollars (\$150)" in Paragraph A(1).

The 1999 amendment, effective July 1, 1999, in Subsection Q, substituted "pursuant to the provisions of Section 39-3-1.1 NMSA 1978" for "pursuant to the provisions of Section 12-8A-1 NMSA 1978."

1998 amendments. — Laws 1998, ch. 55, § 71, amending Subsection Q to provide for appeals pursuant to Section 12-8A-1 (compiled as Section 39-3-1.1 NMSA 1978), was approved March 9, 1998. However, Laws 1998, ch. 93, § 1, amending Subsection G by deleting "documentation of the actual purchase price paid for the license" following "shall contain" near the beginning of the second sentence and revising the last sentence to permit the director to grant extensions for a period of time determined by the director, was approved March 10, 1998. The section is set out as amended by Laws 1998, ch. 93, § 1. See 12-1-8 NMSA 1978.

The 1993 amendment, effective June 18, 1993, substituted "shall" for "must" in Subparagraph (c) of Paragraph (3) of Subsection A; deleted the former last sentence of Subsection B, which read: "Licenses may be issued by the department pending the results of any investigation based on the fingerprints submitted"; added present Subsections C, D, and G, redesignating former Subsections C through M accordingly and making related reference changes in Subsections I and O; rewrote the last sentence of Subsection M; deleted "retailer's or dispenser's" before "license" and "where alcoholic beverages are not then being sold" after "location" near the beginning of Subsection N; deleted "the hearing for the" after "prior to" near the end of Subsection N; and added the present second sentence of Subsection R.

ANNOTATIONS

Section applies to transfer of license. — Although this section and Section 60-6B-10 NMSA 1978 refer only to

a license "issued", the sections apply equally to the transfer of a license; therefore, the decision by the director of the alcohol and gaming division of the department of regulation and licensing granting an application for transfer of a liquor license was reviewable by way of the statutory appeal provided in Subsection M (now Q) of this section. *Regents of Univ. of N.M. v. Hughes*, 1992-NMSC-049, 114 N.M. 304, 838 P.2d 458.

Posting requirements must be satisfied before license issued. — This section clearly shows that there is no authority on the part of the chief of liquor control (now director of division of alcohol and gaming) to issue any license until the provisions in the statute with reference to posting are fulfilled. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

Posting conspicuous notice mandatory. — This section specifies how and where the notice of application shall be posted. It is precise and clear. This statute is mandatory. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

"Conspicuous" defined. — The word "conspicuous" means: "Obvious to the eye or mind; plainly visible, manifest, attracting or tending to attract attention, as by reason of size, brilliance, contrast or station." *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

Meaning of "such posting". — The language "such posting" in the last sentence of former Subsection C (now Subsection M) means that it must be conspicuous and it must be on the front entrance of the immediate premises. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

When notice not posted "conspicuously". — A notice was not posted conspicuously where it was posted back on unimproved property at a distance sufficient so that it could not be read by anyone at the edge of the highway and at the fence at the front of the premises but could be read only by those who took the trouble to climb over, or crawl through and go back to the post to read the notice thereon placed. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

Purpose of posting requirement. — The purpose behind the requirement that there be a posting of the liquor license application is to give notice to any interested person who may wish to protest it. *Yarbrough v. Montoya*, 1950-NMSC-006, 54 N.M. 91, 214 P.2d 769.

Protests acceptable in either oral or written form. — As no provision is made for a hearing of the protest of individuals, it seems that this section concerning posting of notice contemplates protests may be in writing or oral. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792; *Yarbrough v. Montoya*, 1950-NMSC-006, 54 N.M. 91, 214 P.2d 769.

Right of appeal from director's decision limited. — Since a right of appeal exists only with reference to the issuance or refusal to issue of liquor licenses, and appeal does not lie from a decision of the chief of the division of liquor control (now director of alcohol and gaming division) denying application for the change of location in authorized use of the existing license. *Taggader v. Montoya*, 1949-NMSC-068, 54 N.M. 18, 212 P.2d 1049.

Generally, court cannot modify or overrule director's orders. — As long as the chief of the division of liquor control (now director of alcohol and gaming division) acts within the provisions of the law, courts cannot modify or overrule his administrative orders, or otherwise question the expediency or wisdom shown in issuing or revoking of liquor licenses. *Yarbrough v. Montoya*, 1950-NMSC-006, 54 N.M. 91, 214 P.2d 769.

District court cannot usurp administrative functions. — The district court does not have the administrative function of determining whether or not a liquor permit should be granted. The Liquor Control Act gives the court authority only to determine whether, upon the facts

and law, the action of the official in cancelling the license was based upon an error of law or was unsupported by substantial evidence or clearly arbitrary or capricious; otherwise it would be a delegation of administrative authority to the district court in violation of the constitution. *Floech v. Bureau of Revenue*, 1940-NMSC-014, 44 N.M. 194, 100 P.2d 225; *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

District court cannot pass upon legislative policy. — It is not for the courts to pass upon the wisdom of a legislative policy which removes from the municipality or county a segment of home rule which has long been associated with the liquor traffic. *Sprunk v. Ward*, 1947-NMSC-060, 51 N.M. 403, 186 P.2d 382.

Court's authority under section is limited to determining whether under the facts and law, the action of the chief (now director of alcohol and gaming division) was based on error of law, was not supported by substantial evidence or was patently arbitrary or capricious. *Yarbrough v. Montoya*, 1950-NMSC-006, 54 N.M. 91, 214 P.2d 769.

License renewal pending approval. — Where the liquor chief (now director of alcohol and gaming division) had suspended a liquor license, but the district court had set this order aside, the dealer was entitled to a renewal license subject to revocation or termination in case the district court's judgment should be reversed, on appeal. *State v. Romero*, 1944-NMSC-054, 49 N.M. 127, 158 P.2d 850.

Aggrieved person needs direct interest to obtain relief. — A person aggrieved must be a person having a direct interest, pecuniary or otherwise, one different from the public as a whole. *Padilla v. Franklin*, 1962-NMSC-083, 70 N.M. 243, 372 P.2d 820.

Aggrieved person must differ from interests of public. — Individual and institutional appellants who did not set forth nor show such a direct or pecuniary interest in the matter in controversy as to make them "aggrieved persons" were not entitled to relief under this section, since their interests in the public health, safety and morals of a community were no different than the interests of the public as a whole. *Runyan v. Jaramillo*, 1977-NMSC-061, 90 N.M. 629, 567 P.2d 478.

Jurisdiction of appeal from decision of district court. — The court of appeals had original appellate jurisdiction over an order of the division; however, for judicial economy and because the court of appeals requested direction as to the application of case law, the supreme court could decide the merits of the case. *City of Santa Fe v. Woodard*, 1996-NMSC-058, 122 N.M. 449, 926 P.2d 302.

Standing necessary for appeal. — Present owner of a liquor license which he claimed was within the 10-mile limit which could prevent the issuance of a new license to opposing party, had a direct pecuniary interest as distinguished from the public as a whole, and was an aggrieved person who had standing to appeal the decision of the chief of division of liquor control (now director of alcohol and gaming division). *Runyan v. Jaramillo*, 1977-NMSC-061, 90 N.M. 629, 567 P.2d 478.

One appealing solely as remonstrant lacks standing. — One who appeals solely as a remonstrant challenging the jurisdiction of the chief of division (now director of alcohol and gaming division) in regard to the issuance of licenses to other applicants has no standing under this section. *Padilla v. Franklin*, 1962-NMSC-083, 70 N.M. 243, 372 P.2d 820.

Writ of mandamus available as remedy when no right to appeal. — The fact that a city has no right to an appeal does not mean that it cannot bring an action for a writ of mandamus. *City of Santa Rosa v. Jaramillo*, 1973-NMSC-119, 85 N.M. 747, 517 P.2d 69.

When issuance of writ of mandamus erroneous. — Where a letter from the division of liquor control (now director of alcohol and gaming division) clearly shows that the application had been considered and in fact that the

application cannot be processed because the quota of one license to each 2000 people has been more than filled in Rio Arriba county, there can be no doubt this amounted to a final decision on the division's part to refuse the application. A decision is a determination arrived at after consideration, an opinion formed, or a course of action decided upon. The applicant's remedy upon being advised of the decision was by appeal to the district court of Santa Fe county as expressly provided by this section. It follows that the district court erred in entering its judgment ordering the issuance of a peremptory writ of mandamus. *Armijo v. Armijo*, 1967-NMSC-102, 77 N.M. 742, 427 P.2d 258.

60-6B-3. Wholesaler's lien.

The transfer, assignment, sale or lease of any license shall not be approved until the director is satisfied that all wholesalers who are creditors of the licensee have been paid or that satisfactory arrangements have been made between the licensee and the wholesaler for the payment of such debts. Such debts shall constitute a lien on the license, and the lien shall be deemed to have arisen on the date when the debt was originally incurred.

History: 1978 Comp., § 60-6B-3, enacted by Laws 1991, ch. 257, § 2.

Repeals and reenactments. — Laws 1991, ch. 257, § 2 repeals former 60-6B-3 NMSA 1978, as amended by Laws 1984, ch. 58, § 2, relating to transfer of licenses, and enacts the above section, effective June 14, 1991. For provisions of former section, see 1987 Replacement Pamphlet.

General lien law not applicable. — General lien law does not apply to a claim made under this section. *D & M, Inc. v. United N.M. Bank*, 114 B.R. 274 (Bankr. D.N.M. 1990).

Notice of lien. — This section does not require that notice of the lien be recorded to effectuate the liquor wholesaler's lien. *In re What D'Ya Call It, Inc.*, 1986-NMSC-098, 105 N.M. 164, 730 P.2d 467.

This section does not require notice of the lien to be filed to perfect the liquor wholesaler's lien. Automatic perfection of the wholesaler's lien occurs on the date the debt is incurred. The statute allows a wholesale liquor distributor to forego the requirement of filing a financing statement each time a credit sale is made to a retail distributor. *D & M, Inc. v. United N.M. Priority of lien. — A lien pursuant to this section has a superpriority status over other lienholders, including the tax lien in favor of the state, unless the latter liens were perfected under Section 7-1-38 NMSA 1978 or under applicable general law prior to the date the licensee incurred debts owed to wholesaler creditors. *In re What D'Ya Call It, Inc.*, 1986-NMSC-098, 105 N.M. 164, 730 P.2d 467.

Liquor wholesalers have a superpriority lien over all lien holders, with the exception of the New Mexico taxation and revenue department, if the tax lien is perfected pursuant to Section 7-1-38 NMSA 1978. The tax lien is effective as of the date the notice is filed. *D & M, Inc. v. United N.M. Bank*, 114 B.R. 274 (Bankr. D.N.M. 1990).

Liquor wholesalers' superpriority liens created by this section were prior to a bank's perfected security interest even if there was a violation of Section 60-7A-9 NMSA 1978, governing credit extension by wholesalers. *D & M, Inc. v. United N.M. Bank*, 114 B.R. 274 (Bankr. D.N.M. 1990).

This section does not allow the wholesaler to claim priority for each subsequent sale as of the date of the first transaction. Instead, each separate credit sale creates a separate lien. All liens other than tax liens become subordinate to the wholesaler's liens regardless of the date of perfection. *D & M, Inc. v. United N.M. Bank*, 114 B.R. 274 (Bankr. D.N.M. 1990).

60-6B-4. Issuance or transfer of license; approval of appropriate governing body.

A. Prior to the approval of the issuance of a new license, and prior to the approval of a transfer permitted by Section 60-6B-3 or 60-6B-12 NMSA 1978, the director shall notify the governing body of the director's preliminary approval of the issuance or transfer of the license. Notice to the governing body shall be by certified mail.

B. A governing body that has received a notice of preliminary approval of the issuance or transfer of a license from the department may approve or disapprove the issuance or transfer of the license in accordance with the provisions of this section.

C. Within forty-five days after receipt of a notice of preliminary approval from the department, the governing body shall hold a public hearing on the question of whether the department should approve the proposed issuance or transfer.

D. The governing body shall give notice of the public hearing, as required by Subsection C of this section, and the notice shall:

(1) be published at least twice, with the initial notice published at least thirty days before the hearing, in a newspaper of general circulation within the territorial limits of the governing body;

(2) in addition to required print publication, be published on a local option district's web site, if the district has a web site;

(3) set forth:

(a) the date, time and place of the hearing;

(b) the name and address of the licensee;

(c) the action proposed to be taken by the department;

(d) the location of the licensee's premises; and

(e) such other information as may be required by the department; and

(4) be sent by certified mail to the applicant.

E. The governing body may designate a hearing officer to conduct the hearing. A record shall be made of the hearing.

F. The governing body may disapprove the issuance or transfer of the license if:

(1) the proposed location is within an area where the sale of alcoholic beverages is prohibited by the laws of New Mexico;

(2) the issuance or transfer would be in violation of a zoning or other ordinance of the governing body; or

(3) the issuance or transfer would be detrimental to the public health, safety or morals of the residents of the local option district.

G. Within thirty days after the public hearing, the governing body shall notify the department as to whether the governing body has approved or disapproved the proposed issuance or transfer of the license. If the governing body fails to either approve or disapprove the issuance or transfer of the license within thirty days after the public hearing, the director may give final approval to the issuance or transfer of the license.

H. If the governing body disapproves the issuance or transfer of the license, it shall notify the department within the time required by Subsection G of this section setting forth the reasons for the disapproval. A copy of the minutes of the public hearing shall be submitted to the department by the governing body with the notice of disapproval. If the governing body disapproves of the issuance or transfer of the license, the director shall disapprove the issuance or transfer of the license.

I. If the governing body approves the issuance or transfer of the license, it shall notify the department within the time required by Subsection G of this section of its approval. If the governing body approves of the issuance or transfer of the license, the director shall approve the issuance or transfer of the license.

History: Laws 1981, ch. 39, § 40; 2015, ch. 102, § 6.

ANNOTATIONS

Motion to intervene held timely. — Indian tribe political chapter's motion to intervene on appeal in a liquor license transfer case was timely filed, where the proposed transfer site was located within the geographical boundaries of the chapter, and the chapter wished to argue on behalf of the state's position on appeal. *Thriftway Mktg. Corp. v. State*, 1990-NMCA-115, 111 N.M. 763, 810 P.2d 349.

Formal preservation of error not required. — Because applicants at administrative hearings often are not represented by legal counsel, state statutes do not

require formal preservation of error before appeal may be taken from these decisions. *Dick v. City of Portales*, 1994-NMSC-092, 118 N.M. 541, 883 P.2d 127.

Same standard applicable to transfers and issuance of new licenses. — Once voters approve the sale of alcoholic beverages in a community and the proposed location meets zoning and ordinance requirements, denial of either the transfer of a license, or issuance of a new license, must be based on a finding of health, safety, or moral hazards at the location. *City of Santa Fe v. Woodard*, 1996-NMSC-058, 122 N.M. 449, 926 P.2d 302.

Transfer of license despite municipal disapproval. — Under the Liquor Control Act, Section 60-3A-1 NMSA 1978, the director of the alcohol and gaming division of the New Mexico regulation and licensing department may approve a transfer of a license despite municipal disapproval. The director must so act if the governing body fails to submit evidence supporting its decision or if, on its face, the governing body's decision is not based on evidence pertaining to the specific prospective transferee or location. *Southland Corp. v. Manzagol*, 1994-NMSC-099, 118 N.M. 423, 882 P.2d 14.

City's disapproval of new license not supported by evidence. — Since there was an absence of substantial evidence to support the conclusion of negative impact upon the health, safety, or morals of residents of the area, the city's disapproval of a restaurant license to sell beer and wine was properly disregarded by the director. *City of Santa Fe v. Woodard*, 1996-NMSC-058, 122 N.M. 449, 926 P.2d 302.

Day care and transfer of liquor license. — Where evidence was presented to the hearing officers showing that a day care was not an accredited institution and that its employees and owner were not licensed teachers, there was substantial evidence to support the conclusion that the day care was not a "school" for the purposes of a liquor license transfer. *Concerned Residents for Neighborhood Inc. v. Shollenbarger*, 1991-NMCA-105, 113 N.M. 667, 831 P.2d 603, *overruled on other grounds by Regents of Univ. of N.M. v. Hughes*, 1992-NMSC-049, 114 N.M. 304, 838 P.2d 458.

Discretion of director. — The word "may" as used in Subsection G invests the director with discretion as to whether to give final approval to the issuance or transfer of a license when a governing body of a county has failed to either approve or disapprove the issuance or transfer of the license within 30 days after a public hearing. *Thriftway Mktg. Corp. v. State*, 1992-NMCA-092, 114 N.M. 578, 844 P.2d 828.

Disapproval of transfer. — City council's decision to disapprove transfer of a liquor license as part of the administrative licensing process had to be supported by

substantial evidence using whole record review. *Dick v. City of Portales*, 1994-NMSC-092, 118 N.M. 541, 883 P.2d 127.

Disapproval of transfer based on moral considerations. — To support a disapproval of the transfer of ownership of a liquor license alone, any detriment to the morals of the residents of the local option district must relate to the qualifications of the transferee to hold the license. *Dick v. City of Portales*, 1994-NMSC-092, 118 N.M. 541, 883 P.2d 127.

In a proceeding regarding the transfer of a liquor license, testimony that a greater availability of alcohol would increase the possibility of accidents involving harm in the community was based upon speculation and was irrelevant; it was relevant, if at all, only to general safety concerns and was unsubstantiated with statistics based on facts relevant to the local community. Disapproval of a liquor license transfer must be based upon authentic facts related to a specific prospective licensee or location. *Town & Country Food Stores, Inc. v. Hughes*, 1994-NMSC-093, 118 N.M. 545, 883 P.2d 131.

The city commission failed to support its finding that the particular liquor license transfer would be detrimental to the safety of the residents and therefore its disapproval was invalid. *Town & Country Food Stores, Inc. v. Hughes*, 1994-NMSC-093, 118 N.M. 545, 883 P.2d 131.

Constitutionality of moral considerations. — The delegation to a municipality of the legislative authority to disapprove the transfer of a liquor license on moral as well as on safety and health grounds is within the traditional definition of the state's police power and thus constitutional. *Dick v. City of Portales*, 1993-NMCA-125, 116 N.M. 472, 863 P.2d 1093, *rev'd on other grounds*, 1994-NMSC-092, 118 N.M. 541, 883 P.2d 127.

No authority to restrict licensee's operation as condition for approval of waiver. — This section confers no express authority on local government to limit or restrict the operation of a licensee as a condition for approving the waiver of the distance requirement imposed by the predecessor of Section 60-6B-10 NMSA 1978, nor can such authority be inferred in view of the state's preemptive role in the regulation of liquor establishments. 1980 Op. Att'y Gen. No. 80-23.

Delegation of liquor law functions to local governments strictly construed. — Although there is no present question concerning the propriety of certain statutes delegating liquor law functions to local governments, such statutes must be strictly construed against any greater delegation of legislative power than clearly appears in the language used. 1980 Op. Att'y Gen. No. 80-23.

60-6B-5. Expiration and renewal of licenses.

A. All licenses provided for in the Liquor Control Act, except for nonresident licenses and common carrier registrations, shall be issued for a one-year period except for new licenses issued after the beginning of the license year. Nonresident licenses and common carrier registrations shall be issued for a three-year period.

B. The license year for dispenser, retailer and canopy licenses shall end on June 30 of each year. All dispenser, retailer and canopy licenses shall expire on June 30 unless renewed. The annual renewal application and renewal fee are due on April 1 of each year.

C. The license year for restaurant, club, wholesaler and manufacturer licenses shall end on October 31 of each year. All restaurant, club, wholesaler and manufacturer licenses shall expire on October 31 unless renewed. The annual renewal application and renewal fee are due on August 1 of each year.

D. All licenses not provided for in Subsections B and C of this section, except nonresident licenses and common carrier registrations, shall expire on February 28 of each year. The annual renewal application and renewal fee are due on December 1 of each year.

E. Nonresident licenses and common carrier registrations shall expire on June 30 every three years. The renewal application and renewal fee are due on April 1 of each third year.

F. A license shall not be issued or renewed if the applicant or licensee is delinquent in payment of any taxes administered by the taxation and revenue department.

G. The director shall also determine whether there exists any other reason why a license should not be renewed.

H. If the director determines that the license should not be renewed, the director shall enter an order requiring the licensee, after notice, to show cause why the license should be renewed, and the director shall conduct a hearing on the matter. If, after the hearing, the director finds that no reason exists why the license should not be renewed, the director shall renew the license.

I. Beginning on the effective date of this 2021 act, the director shall waive the next annual renewal fee for all licenses provided for in the Liquor Control Act.

History: Laws 1981, ch. 39, § 41; 1998, ch. 79, § 5; repealed and reenacted by Laws 2015, ch. 86, § 2; 2021, ch. 6, § 1.

Compiler's notes. — Laws 2021, ch. 6 contained an emergency clause and was approved on March 9, 2021. "The effective date of this 2021 act", referred to in Subsection I, was March 9, 2021.

Repeals and reenactments. — Laws 2015, ch. 86, § 2 repealed former 60-6B-5 NMSA 1978, and enacted a new section, effective June 19, 2015.

The 2021 amendment, effective March 9, 2021, required the director of the alcoholic beverage control division to waive the next annual renewal fee for all liquor licenses holders following the effective date of this act; and added Subsection I.

The 1998 amendment, effective May 20, 1998, inserted "except nonresident licenses and common carrier registrations", and deleted "and regulations" following "the rules" in the first sentence; inserted the second

sentence; and substituted "renewal period" for "year" at the end of the third sentence.

ANNOTATIONS

License not renewed as a matter of law. — Where the licensee timely applied for a license, met all requirements for renewal of the license, the license had not been suspended or revoked, no taxes were due, and there were no outstanding citations and where the state failed to renew the license before it expired on June 30, the license was not renewed by operation of law. *Santillo v. N.M. Dept. of Public Safety*, 2007-NMCA-159, 143 N.M. 84, 173 P.3d 6, cert. denied, 2007-NMCERT-011, 143 N.M. 155, 173 P.3d 762.

License of person convicted of felony. — The director of the department of alcoholic beverage control (now alcohol and gaming division) has the duty, authority and power to revoke or cancel a liquor license owned by a person who is convicted of a felony. 1987 Op. Att'y Gen. No. 87-02.

60-6B-6. Corporate licensees; limited partnership licensees; reporting.

A. A corporation that holds a license issued under the Liquor Control Act [60-3A-1 NMSA 1978] shall notify the director within thirty days after the occurrence of any change in the officers, directors or holders of more than ten percent of the voting stock of the corporation, giving the names and addresses of the new officers, directors or stockholders. A corporate licensee shall also notify the director immediately of a change of agent by filing a new power of attorney. The director shall by regulation define what corporate changes, including but not limited to transfer of stock, merger and consolidation, constitute transfers of ownership of corporate licenses and shall, upon making such a determination, order appropriate compliance with the Liquor Control Act, provided that a transfer of ownership of a corporate license shall not be deemed to occur where ultimate ownership of the corporation does not change.

B. A limited partnership that holds a license issued under the Liquor Control Act shall notify the director within thirty days after the occurrence of any change of general partners or of limited partners contributing ten percent or more of the total value of contributions made to the limited partnership or entitled to ten percent or more of the profits earned or other compensation by way of income paid by the limited partnership. The director shall by regulation define what limited partnership changes constitute transfers of ownership of limited partnership licenses and shall, upon making such determination, order appropriate compliance with the Liquor Control Act, provided that a transfer of ownership of a licensee that is a limited partnership shall not be deemed to occur where ultimate ownership of the limited partnership does not change.

C. A legal entity that is not a corporation or limited partnership and that holds a license issued under the Liquor Control Act shall notify the director within thirty days after the occurrence of any change in the trustees, partners, owners or members of more than a ten percent interest in the entity, giving the names and addresses of the new trustees, partners or owners. The director

shall by regulation define what entity changes constitute a transfer of ownership of such entity's license and shall, upon making such determination, order appropriate compliance with the Liquor Control Act, provided that a transfer of ownership of a licensee shall not be deemed to occur where there is no change in the ultimate ownership of the legal entity.

The 2007 amendment, effective June 15, 2007, provided in Subsections A, B and C that a transfer of ownership of a license shall not be deemed to occur where the ownership of the corporation, limited partnership or the ultimate ownership of the legal entity does not change.

60-6B-7. Cancellation of license for failure to engage in business.

A. Any license issued under the provisions of the Liquor Control Act [60-3A-1 NMSA 1978] shall be canceled if the licensee fails to commence operation of the licensed business within one hundred twenty days after the license is issued and to continuously operate during customary hours and days of operation for that type of business; provided, however, the director may extend that period for a length of time determined by the director.

B. If after the one-hundred-twenty-day period or additional extension period specified in Subsection A of this section the licensee ceases to operate the licensed business during customary hours and days for that type of business for more than ten days, he shall notify the director in writing within five days of the cessation.

C. The director may grant temporary suspensions in the operation of the licensed business upon receipt of the notice provided in Subsection B of this section. A temporary suspension shall be for a period determined appropriate by the director.

D. The license of any person failing to comply with any provision of this section shall be canceled after notice and hearing complying with the provisions of Section 60-6C-4 NMSA 1978.

Cross references. — For definition of "director," see 60-3A-3G NMSA 1978.

The 1998 amendment, effective May 20, 1998, in Subsection A, substituted "that" for "such" and "for a length of time determined by the director" for "when construction or major renovation of a proposed licensed premises is planned by the licensee" near the end; inserted "or additional extension period" near the beginning of Subsection B; and rewrote the last sentence in Subsection C.

ANNOTATIONS

Determination of facts required prior to cancellation. — Before cancelling a license pursuant to this section, the chief of division (now director of alcohol and gaming division) must determine the facts which would authorize the cancellation. *Crowe v. Jaramillo*, 1973-NMSC-119, 85 N.M. 747, 517 P.2d 69.

60-6B-9. Discontinuance of business or death of licensee; judicial sales.

A. If a retailer, dispenser, canopy licensee, restaurant licensee, club licensee or governmental licensee or its lessee discontinues business for any reason or the licensee dies, the stock of alcoholic beverages owned at the time of the discontinuation of business or the death of the licensee may be sold in whole or in part to any other retailer, dispenser, canopy licensee, restaurant licensee, club licensee or governmental licensee or its lessee or to a New Mexico wholesaler without the seller incurring criminal or civil liability under the provisions of the Liquor Control Act [60-3A-1 NMSA 1978].

60-6B-10. Locations near church or school; restrictions on licensing.

No license shall be issued by the director for the sale of alcoholic beverages at a licensed premises where alcoholic beverages were not sold prior to July 1, 1981 that is within three hundred feet of a church or school. A license may be granted for a proposed licensed premises if the owner or lessee has, prior to establishment of a church or school located within three hundred feet of the proposed licensed premises, applied for, been granted and maintained a valid building permit for the construction or renovation of the proposed licensed premises and has filed on a form prescribed by the director a notice of intention to apply for transfer of a license to the proposed licensed premises. A license may be granted for a proposed licensed premises if a person has obtained a waiver from a local option district governing body for the proposed licensed premises. A license may be granted for a proposed licensed premises if a person has obtained a restaurant A license or a restaurant B license pursuant to Section 60-6A-4 NMSA 1978. For the purposes of this section, all measurements taken in order to determine the location of licensed premises in relation to churches or schools shall be the straight line distance from the property line of the licensed premises to the property line of the church or school. This provision shall not apply to a church that has been designated as a historical site by the cultural properties review committee and that does not have a regular congregation.

History: Laws 1981, ch. 39, § 45; 1986, ch. 29, § 1; 1997, ch. 223, § 1; 2021, ch. 7, § 34.

Cross references. — For cultural properties review committee, see 18-6-4 NMSA 1978.

The 2021 amendment, effective July 1, 2021, provided that a license may be granted for a "proposed licensed premises" if a person has obtained a restaurant A license or a restaurant B license; and added "A license may be granted for a proposed licensed premises if a person has obtained a restaurant A license or a restaurant B license pursuant to Section 60-6A-4 NMSA 1978".

The 1997 amendment, effective June 20, 1998, deleted "before the effective date of the Liquor Control Act" at the end of the third sentence, deleted the former fourth and fifth sentences relating to a waiver being granted for licensed premises of at least fifteen stories in class A counties after the effective date of that act, and made minor stylistic changes.

ANNOTATIONS

The phrase "property line of the licensed premises" in Section 60-6B-10 NMSA 1978 refers to the outer boundary of the licensed premises themselves, that is, the premises actually used to sell, serve, or consume

alcohol. *City of Santa Fe v. Tomada*, 2014-NMCA-022, cert. granted, 2014-NMCERT-001.

Measurement to the boundary of the licensed premises. — Where the straight-line distance from the actual licensed premises to the north boundary of the school grounds was 377.53 feet and the straight-line distance from the boundary of the real property on which the licensed premises was located to the school grounds was 155.05 feet, the location of the licensed premises did not violate the distance prohibition of Section 60-6B-10 NMSA 1978. *City of Santa Fe v. Tomada*, 2014-NMCA-022, cert. granted, 2014-NMCERT-001.

Section applies to transfer of license. — Although Section 60-6B-2 NMSA 1978 and this section refer only to a license "issued", the sections apply equally to the transfer of a license; therefore, the decision by the director of the alcohol and gaming division of the regulation and licensing department granting an application for transfer of a liquor license was reviewable by way of the statutory appeal provided in Subsection M (now Q) of 60-6B-2 NMSA 1978. *Regents of Univ. of N.M. v. Hughes*, 1992-NMSC-049, 114 N.M. 304, 838 P.2d 458.

Functional test to be used. — Courts should apply a functional test to decide whether property located within

300 feet of a proposed licensed premises is or is not a school; however, this does not mean that only the building or other structure used for educational purposes falls within the definition of "school" and that adjacent property, even if used for a parking lot, may not be considered as meeting the functional test; any such adjacent land used for school purposes, which may include the parking of vehicles used by students in attending classes or otherwise participating in educational or instructional activities, may fall within the definition of "school". *Regents of Univ. of N.M. v. Hughes*, 1992-NMSC-049, 114 N.M. 304, 838 P.2d 458.

Standards for waiver must be defined and uniformly applied. — Any action taken by a home rule municipality to condition its consent to waive the distance requirement of this section must have uniform application to all persons requesting the waiver and must contain definable standards for the imposition of those conditions. 1980 Op. Att'y Gen. No. 80-23.

Waiver may not be conditioned on restriction of operations. — There is no express authority for a local government to limit or restrict the operation of a licensee as a condition for approving the waiver of the distance requirement imposed by this section, nor can such authority

be inferred in view of the state's preemptive role in the regulation of liquor establishments. 1980 Op. Att'y Gen. No. 80-23.

To determine proximity of proposed liquor establishment to an established church or school, the measurement should be made between the limits of the real property of the church or school within which the ordinary and usual activities incident to such institutions are conducted and that portion of the structure in which alcoholic beverages are actually to be sold. 1974 Op. Repeals. — Laws 2021, ch. 7, § 36 repealed 60-6B-11 NMSA 1978, as enacted by Laws 1981, ch. 39, § 46, relating to locations near military installations, restrictions on

licensing, effective July 1, 2021. For provisions of former section, see the 2020 NMSA 1978 on *NMOneSource.com*.

60-6B-12. Inter-local option district and inter-county transfers.

A. Dispenser's and retailer's licenses originally issued before July 1, 1981, except rural dispenser's and rural retailer's licenses that were replaced by dispenser's licenses pursuant to Section 60-6B-16 NMSA 1978, and except canopy licenses replaced by dispenser's licenses pursuant to Section 60-6B-16 NMSA 1978 before calendar year 2017 or after calendar year 2020, may be transferred to any location within the state, except class B counties having a population of between fifty-six thousand and fifty-seven thousand according to the 1980 federal decennial census, the municipalities located within those class B counties and any municipality or county that prohibits by election the transfer of a license from another local option district, without regard to the limitations on the maximum number of licenses provided in Section 60-6A-18 NMSA 1978, not otherwise contrary to law, subject to the approval of transferring locations of those liquor licenses by the governing body for that location; provided that the requirements of the Liquor Control Act [60-3A-1 NMSA 1978] and department regulations for the transfer of licenses are fulfilled; and provided further that:

(1) beginning in calendar year 1997, no more than ten dispenser's or retailer's licenses shall be transferred to any local option district in any calendar year; and

(2) the dispenser's or retailer's licenses transferred under this section shall count in the computation of the limitation of the maximum number of licenses that may be issued in the future in any local option district as provided in Section 60-6A-18 NMSA 1978 for the purpose of determining whether additional licenses may be issued in the local option district under the provisions of Subsection H of Section 60-6B-2 NMSA 1978.

B. Transfer of location of a liquor license pursuant to Subsection A of this section shall become effective upon approval of the local governing body, unless within one hundred twenty days after the effective date of the Liquor Control Act a petition requesting an election on the question of approval of statewide transfers of liquor licenses into that local option district is filed with the clerk of the local option district and the petition is signed by at least five percent of the number of registered voters of the district. The clerk of the district shall verify the petition signatures. If the petition is verified as containing the required number of signatures of registered voters, the governing body shall adopt a resolution calling an election on the question of approving or disapproving statewide transfers of liquor licenses into that district. Notice of such election shall be published as provided in the Local

Election Act [Chapter 1, Article 22 NMSA 1978], and the election shall be held within sixty days after the date the petition is verified or it may be held in conjunction with a regular election of the governing body if such election occurs within sixty days after the date of verification. If a majority of the registered voters of the district voting in such election votes to approve statewide transfers of liquor licenses into the local option district, each license proposing to be transferred shall be subject to the approval of the governing body. If the voters of the district voting in the election vote against the approval, then all statewide transfers of liquor licenses pursuant to Subsection A of this section shall be prohibited in that district, unless a petition is filed requesting the question be again submitted to the voters as provided in this subsection. The question of approving or disapproving statewide transfers of liquor licenses into the local option district shall not be submitted again within two years from the date of the last election on the question.

C. Any dispenser's license transferred pursuant to this section outside its local option district shall only entitle the licensee to sell, serve or permit the consumption of alcoholic beverages by the drink on the licensed premises. This subsection shall not apply to any license transferred out of a class B county having a population of between fifty-six thousand and fifty-seven thousand according to the 1980 federal decennial census.

D. Rural dispenser's, rural retailer's and rural club licenses issued under any former act may be transferred to any location, subject to the restrictions as to location contained in the Liquor Control Act, within the unincorporated area of the county in which they are currently located; provided that they shall not be transferred to any location within ten miles of another licensed premises; and provided further that all requirements of the Liquor Control Act and department regulations for the transfer of licenses are fulfilled.

History: Laws 1981, ch. 39, § 113; 1984, ch. 58, § 5; 1985, ch. 183, § 1; 1991, ch. 257, § 3; 1997, ch. 55, § 1; 2015, ch. 114, § 1; 2021, ch. 7, § 16.

The 2021 amendment, effective July 1, 2021, modified license provisions for certain inter-local option district transfers; in Subsection A, after "rural retailer's licenses", deleted "and canopy licenses", and after "Section 60-6B-16 NMSA 1978", added "and except canopy licenses replaced by dispenser's licenses pursuant to Section 60-6B-16 NMSA 1978 before calendar year 2017 or after calendar year 2020"; in Subsection B, after "shall be published as provided in", changed "Section 3-8-35 NMSA 1978" to "the Local Election Act"; and in Subsection C, added the last sentence.

The 2015 amendment, effective June 19, 2015, amended the Liquor Control Act by removing the restriction that the transfer of a dispenser's license does not lower the number of dispensers' and retailer's licenses below that number allowed by law in the local option district from which a license will be transferred and removed the requirement that the dispenser's or retailer's license that is transferred must be operated or leased by the person who transfers the license for at least one year from the date of the approval of the transfer; in the catchline, after "district", added "and inter-county"; in the introductory paragraph of Subsection A, deleted "All", after "transferring locations of", deleted "such" and added "those", after "liquor licenses", deleted "of" and added "by", after "governing body for that location", deleted "and", after "provided", deleted "all" and added "that", and after "provided further", added "that"; deleted Paragraph (1) of Subsection A and redesignated former Paragraphs (2) and (3) as

After a transfer of location as provided in this subsection, the license shall be operated by the person who transfers the location of the license for a period of at least one year from the date of approval of the transfer by the department.

C. Ownership of a dispenser's license issued pursuant to this section may be transferred in the same manner as provided for the transfer of ownership of dispenser's licenses issued under any former act to the Liquor Control Act [60-3A-1 NMSA 1978] subject to the requirements of Sections 60-6B-2 and 60-6B-4 NMSA 1978 and the limitations set forth in Subsection E of this section. After a transfer of ownership as provided in this subsection, the location of the license shall not be transferred for a period of at least one year from the date of approval of the transfer of ownership by the department.

D. A dispenser's license issued pursuant to this section may be leased in the same manner as provided for the lease of dispenser's licenses issued under any former act to the Liquor Control Act subject to approval of the department and the limitations set forth in Subsection E of this section.

E. If the location of a canopy license or a dispenser's license issued pursuant to this section is transferred prior to June 30, 1995 by a person who applies to the department to acquire ownership of the license after January 1, 1988 or if the location of a canopy license or a dispenser's license issued pursuant to this section is transferred prior to June 30, 1995 pursuant to a lease agreement entered into after January 1, 1988, the license shall only entitle the licensee or his lessee to sell, serve or permit the consumption of alcoholic beverages by the drink on the licensed premises. Sale of alcoholic beverages in unbroken packages for consumption off the licensed premises shall not be permitted after a transfer described in this subsection.

F. Any canopy license for which the transfer tax imposed by this section is not paid to the department by August 31, 1988 shall be subject to cancellation by the director as provided in Section 60-6B-5 NMSA 1978.

G. The department shall deposit all transfer taxes collected as provided in this section in the general fund.

60-6B-19. Retailers and dispensers; segregated sales; table wines excepted.

A. Except as provided in Subsection B of this section, the director shall by rule develop procedures for segregated alcohol sales by every retailer or dispenser who sells alcoholic beverages in unbroken packages for consumption and not for resale off the licensed premises and whose sales are less than sixty percent of their total sales, giving serious consideration to the potentially adverse impact of segregated sales on different sizes of the establishments of the retailer or dispenser. The rules shall include:

- (1) a provision to allow segregated sales of beer or cider that is packaged in a growler;
- (2) a procedure by which a retailer or dispenser may fill or refill a growler and allow the growler to be removed from the licensed premises after the growler is sealed with a tamper-proof seal and the customer's sales receipt is attached to the growler; and
- (3) a requirement that a retailer or dispenser shall sterilize a growler provided by a customer before the growler is refilled and sealed.

B. There shall not be segregated sales of table wine by retailers or dispensers who sell alcoholic beverages in the manner described in Subsection A of this section.

C. For purposes of this section, "table wine" means wine containing fourteen percent or less alcohol by volume when bottled or packaged by the manufacturer, but may also include:

- (1) wine that is sealed or capped by cork closure and aged two years or more;
- (2) wine that contains more than fourteen percent alcohol by volume produced solely as a result of the natural fermentation process and not produced with the addition of wine spirits, brandy or alcohol; or
- (3) vermouth and sherry.

deleted "in the regulation process", after "the establishment of the retailer or dispenser", added "The rules shall include", and added new Paragraphs (1) through (3).

The 2003 amendment, effective July 1, 2003, added "table wines excepted" to the section heading; in present Subsection A, added the subsection designation and inserted "Except as provided in Subsection B of this section" and added Subsections B and C.

60-6B-20. Licensed production facilities; alternating proprietorship.

With the approval of the alcohol and tobacco tax and trade bureau of the United States department of the treasury, and subject to the provisions of the Liquor Control Act, an alternating proprietorship may be established so that the manufacturing facilities and equipment of a person who holds:

Suspension and Revocation of Licenses

Sec.

60-6C-1. Grounds for suspension, revocation or administrative fine; reporting requirement.

60-6C-2. Hearings; location; open to public; hearing officer.

60-6C-3. Repealed.

60-6C-4. Administrative proceedings; complaints; investigation; order to show cause; service; hearings.

Sec.

60-6C-5. Administration of oaths; production of documents; witnesses.

60-6C-6. Appeal.

60-6C-7. Repealed.

60-6C-8. Restriction on license after revocation.

60-6C-9. Compromising liability.

60-6C-1. Grounds for suspension, revocation or administrative fine; reporting requirement.

A. The director may suspend or revoke the license or permit or fine the licensee in an amount not more than ten thousand dollars (\$10,000), or both, when the director finds that a licensee has:

(1) violated any provision of the Liquor Control Act [60-3A-1 NMSA 1978] or any rule or order promulgated pursuant to that act;

(2) been convicted of a felony pursuant to the provisions of the Criminal Code [30-1-1 NMSA 1978], the Liquor Control Act or federal law; or

(3) permitted the licensee's licensed premises to remain a public nuisance in the neighborhood where it is located after written notice from the director that investigation by the department has revealed that the establishment is a public nuisance in the neighborhood.

B. The director shall suspend or revoke the license or permit and may fine the licensee in an amount not to exceed ten thousand dollars (\$10,000), or both, when the director finds that any licensee or:

(1) the licensee's employee or agent knowingly has sold, served, delivered or given an alcoholic beverage to a minor in violation of Section 60-7B-1 NMSA 1978 or to an intoxicated person in violation of Section 60-7A-16 NMSA 1978, on two separate occasions within any twelve-month period; or

(2) the licensee's agent has made any material false statement or concealed any material facts in the licensee's application for the license or permit granted the licensee pursuant to the provisions of the Liquor Control Act.

C. A licensee aggrieved by a revocation, suspension or fine proposed to be imposed by the director pursuant to this section shall be entitled to the hearing procedures set forth in Chapter 60, Article 6C NMSA 1978 before the revocation, suspension or fine shall be effective.

D. A charge filed against a licensee by the department and the resulting disposition of the charge shall be reported to the department of public safety.

E. For purposes of this section, "licensee" includes any person issued an alcoholic beverage delivery permit.

History: Laws 1981, ch. 39, § 97; 1993, ch. 68, § 11; 1998 (1st S.S.), ch. 16, § 1; 2021, ch. 7, § 17.

Cross references. — For cancellation of license for nonuse, failure to engage in business, see 60-6B-7 NMSA 1978.

The 2021 amendment, effective July 1, 2021, defined "licensee" for purposes of this section, eliminated a requirement to report a charge against a licensee to local law enforcement, and made technical amendments; in Paragraph B(1), after "served", added "delivered"; in Subsection D, after "department of public safety", deleted "and local law enforcement agencies whose jurisdictions include the licensed establishment"; and added Subsection E.

The 1998 (1st S.S.) amendment, effective August 2, 1998, deleted former Subsection C, relating to penalties for selling, serving or delivering alcoholic beverages to an intoxicated person or a minor through a drive-up window, redesignated the subsequent subsections accordingly, and made a minor stylistic change in present Subsection C.

The 1993 amendment, effective July 1, 1993, inserted "or administrative fine" in the catchline; rewrote the introductory paragraph of Subsection A which read "A liquor control hearing officer may suspend or revoke the license or fine the licensee, or both when he finds that any licensee has"; rewrote Paragraph (2) of Subsection A which read "made any material false statement in his application for the license granted him under the provisions of the Liquor Control Act"; deleted "suffered or" at the beginning of Paragraph (3) of Subsection A; added current Subsections B to D; redesignated former Subsection B as Subsection E; substituted "department of public safety" for "state police" and "jurisdictions" for "jurisdiction" in Subsection E; and made a minor stylistic change.

ANNOTATIONS

Criminal conviction is not a condition precedent to the imposition of a fine. — The criminal conviction of a server under Section 60-7B-1 NMSA 1978 is not a condition precedent to the imposition of a civil fine on the licensee pursuant to Subsection A of Section 60-6C-1 NMSA 1978. *Town & Country Food Stores, Inc. v. N. M. Regulation & Licensing Dep't*, 2012-NMCA-046, 277 P.3d 490.

Where, in a sting operation, the licensee's employee sold beer to a minor; a hearing officer found that the licensee violated Section 60-7B-1 NMSA 1978 and imposed a fine on the licensee; and the district attorney dismissed charges filed against the employee after the employee completed a pre-prosecution program, the criminal conviction of the employee was not a condition precedent to the imposition of the fine under Subsection A of Section 60-6C-1 NMSA 1978. *Town & Country Food Stores, Inc. v. N. M. Regulation & Licensing Dep't*, 2012-NMCA-046, 277 P.3d 490.

Superintendent has inherent power to cancel and revoke licenses. — The chief of the division (now director of alcohol and gaming division), having power to grant liquor licenses under the provisions of the Liquor Control Act has likewise inherent power to cancel and revoke any license which he finds has been, for any reason, issued without authority or issued in conflict with the statutes

governing and limiting the issuance thereof. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

Presumption that valid license originally issued. — This section, in setting up grounds for revocation of a license, obviously implies that a prior valid license had been issued and the grounds of revocation enumerated in the statute relate to misconduct of one kind or another on the part of the licensee. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

Mistake of facts in issuing license ground for revocation. — A license issued under a mistake of facts necessary to authorize its issuance may be revoked; and the officer issuing it is not estopped by his conduct in issuing it to revoke or cancel it. Such a proceeding does not come under the statute authorizing a revocation of a license because of misconduct of the holder. *Baca v. Grisolano*, 1953-NMSC-028, 57 N.M. 176, 256 P.2d 792.

Sale of liquor on Sunday. — Making a sale of intoxicating liquor on Sunday was grounds for revocation of dispenser's license. *Kearns v. Aragon*, 1959-NMSC-102, 65 N.M. 119, 333 P.2d 607.

Revocation needs evidential support. — Action of chief of division (now director of alcohol and gaming division) in revoking a license on the ground that it was issued illegally must be supported by some evidence of probative value, or else the decision of the liquor authority must be set aside. *Baca v. Chaffin*, 1953-NMSC-006, 57 N.M. 17, 253 P.2d 309.

As sale of liquor during prohibited hours. — Where proprietor permits his employees to sell liquor during prohibited hours, he would be liable under the statute for the violation and his license would be subject to revocation. 1945-46 Op. Att'y Gen. No. 45-4680.

Failure to pay wholesaler not grounds for revocation. — No retailer, dispenser or club licensee subjects himself to a suspension or revocation of his license by failing to pay his bills to a licensed wholesaler within 30 days from the date of delivery. 1957-58 Op. Att'y Gen. No. 58-153.

Premises remaining public nuisance. — A hearing officer may revoke a liquor license after hearing where the licensee permits his premises to remain a public nuisance after written notice from the director. 1987 Op. Att'y Gen. No. 87-15.

60-6C-2. Hearings; location; open to public; hearing officer.

All hearings held pursuant to the provisions of the Liquor Control Act [60-3A-1 NMSA 1978] shall be conducted by the director or a hearing officer appointed by the director and shall be held in the county in which the licensed premises or the business of the person issued an alcoholic beverage delivery permit that is the subject matter of the hearing is located. All such hearings shall be open to the public.

History: Laws 1981, ch. 39, § 98; 1987, c. 255, § 1; 1993, ch. 68, § 12; 2021, ch. 7, § 18.

The 2021 amendment, effective July 1, 2021, allowed public hearings to be held at the business of the person issued an alcoholic beverage delivery permit; and after "licensed premises", added "or the business of the person issued an alcoholic beverage delivery permit".

The 1993 amendment, effective July 1, 1993, rewrote the first sentence.

1993. For provisions of former section see 1992 Replacement Pamphlet.

60-6C-4. Administrative proceedings; complaints; investigation; order to show cause; service; hearings.

A. Whenever a person lodges a signed, written complaint with the department alleging that a licensee has violated any of the provisions of the Liquor Control Act [60-3A-1 NMSA 1978], unless the complaint is deficient on its face, the director shall request that the department of public safety investigate the complaint.

B. The department of public safety shall investigate the complaint and make a written report to the director.

C. If the director believes from the report that probable cause exists for filing charges against the licensee for the revocation or suspension of the licensee's license or permit or for fining the licensee, or for both, the director or the director's designee shall file in the department a charge against the licensee in the name of the state, stating the nature of the grounds relied upon for the filing, the approximate date of the alleged violation and the names and addresses of the witnesses who are expected to give testimony or evidence against the licensee.

D. After charges have been filed, the director shall issue a signed order for the licensee to appear at a hearing to explain, on the basis of any ground set out in the charge, why the license or permit should not be revoked or suspended or why the licensee should not be fined, or both.

E. The director shall keep the original of the charge and the order to show cause on file in the director's office.

F. The director shall appoint a hearing officer no later than ten days prior to the date set for the hearing at which the licensee shall appear to explain why the licensee's license or permit should not be revoked or suspended or why the licensee should not be fined, or both.

G. The director shall have a copy of the charge and a copy of the order to show cause sent to the licensee or the licensee's resident agent at the agent's last known address by certified mail at least fourteen days before the date set for the hearing on the order to show cause.

H. At a hearing on an order to show cause, the director shall cause a record of hearing to be made, which shall record:

- (1) the style of the proceedings;
- (2) the nature of the proceedings, including a copy of the charge and a copy of the order to show cause;
- (3) the place, date and time of the hearing and all continuances or recesses of the hearing;
- (4) the appearance or nonappearance of the licensee;
- (5) if the licensee appears with an attorney, the name and address of the attorney;
- (6) a record of all evidence and testimony and a copy or record of all exhibits introduced in evidence;
- (7) the findings of fact and law as to whether the licensee has violated the Liquor Control Act as set out in the charge; and

(8) the decision of the director.

I. If the licensee fails to appear without good cause at the time and place designated in the order to show cause for the hearing, the director shall order the nonappearance of the licensee to be entered in the record of hearing and shall order the license or permit revoked or suspended or the licensee fined, or both, on all the grounds alleged in the charge and shall cause the record of hearing to show the particulars in detail. In such a case, there shall be no reopening, appeal or review of the proceedings unless pursued by a co-owner of a license who did not receive notice of the hearing.

J. If the licensee admits guilt on all grounds set out in the charge, the director shall order the revocation or suspension of the license or permit or the licensee fined, or both, and cause a record of hearing to be made showing the facts and particulars of the director's order of revocation or suspension of the license or permit or fine of the licensee, or both. In such a case, there shall be no review or appeal of the proceedings.

K. If the licensee appears at the hearing and does not testify or denies guilt of any of the grounds set out in the charge, the hearing shall proceed as follows:

(1) the director or the hearing officer shall administer oaths to all witnesses, the department shall cause all testimony and evidence in support of the grounds alleged in the charge to be presented in the presence of the licensee and the director shall allow the licensee or the licensee's attorney to cross-examine all witnesses;

(2) the licensee shall be allowed to present testimony and evidence the licensee may have in denial or in mitigation of the grounds set out in the charge;

(3) the department shall have the right to cross-examine the licensee or any witness testifying in the licensee's favor;

(4) the department shall present any evidence or testimony in rebuttal of that produced by the licensee;

(5) the director or the hearing officer shall make a finding on each ground alleged and a finding of the guilt or innocence of the licensee on each ground;

(6) if the licensee is found guilty on any ground alleged and proved, the director shall make an order of revocation or suspension of the license or permit or fine of the licensee, or both; and

(7) the rules of evidence shall not be required to be observed, but the order of suspension or revocation or fine, or both, shall be based upon substantial, competent and relevant evidence and testimony appearing in the record of hearing.

L. No admission of guilt, admission against interest or transcript of testimony made or given in a hearing pursuant to this section shall be received or used in criminal proceedings wherein the licensee is a defendant; provided, however, if the licensee commits perjury in a hearing, the evidence shall be admissible in a perjury trial if otherwise competent and relevant.

M. The director shall adopt reasonable rules setting forth uniform standards of penalties concerning fines and suspensions imposed by the director.

N. For purposes of this section, "licensee" includes a person issued an alcoholic beverage delivery permit.

The 2021 amendment, effective July 1, 2021, included "permits" within the provisions of the section, allowed license co-owners, who did not receive notice of a hearing, to appeal or reopen proceedings in cases where the licensee failed to appear at a hearing, defined "licensee" for purposes of this section, and made technical amendments; after "license", added "or permit" throughout; in Subsection I, after "review of the proceedings", added "unless pursued by a co-owner of a license who did not receive notice of the hearing"; and added Subsection N.

The 1993 amendment, effective July 1, 1993, rewrote this section to the extent that a detailed comparison is impracticable.

ANNOTATIONS

Offer of proof. — In administrative proceedings, where a party's proffered evidence is denied on the ground of relevance, the party has a right to make an offer of proof to show on appeal what the content of the evidence was as well as testimony in regard to the evidence that would bear on relevance. *ERICA, Inc. v. Purpose of proceeding. — The object of an administrative proceeding to revoke a liquor license is not intended as a punishment of the licensee. The purpose is to ensure so far as possible the decent and orderly conduct of a business affecting the public health, morals, safety and welfare. *Kearns v. Aragon*, 1959-NMSC-102, 65 N.M. 119, 333 P.2d 607.

Proceeding in nature of civil action. — A proceeding before the chief of division of liquor control (now director of alcohol and gaming division) to revoke a liquor

license is not a criminal proceeding; rather it is an administrative proceeding in the nature of a civil action. *Kearns v. Aragon*, 1959-NMSC-102, 65 N.M. 119, 333 P.2d 607; *Lake v. Garcia*, 1978-NMSC-035, 91 N.M. 608, 577 P.2d 1254.

Testimony of entrapped witnesses competent. — In proceedings before the chief of division of liquor control (now director of alcohol and gaming division), even assuming that the action of the state police officers constituted entrapment, this fact alone does not render witnesses' testimony unsubstantial, incompetent, irrelevant or incredible. The mere circumstance, standing alone, that the state's witnesses were engaged in a species of entrapment does not render their testimony unworthy of belief. *Kearns v. Aragon*, 1959-NMSC-102, 65 N.M. 119, 333 P.2d 607.

License cannot be cancelled by operation of law as to do so would relieve the chief of division (now director of alcohol and gaming division) of his duties to make a determination of facts authorizing the cancellation and to effect the cancellation pursuant thereto. *Crowe v. Determination of facts required prior to cancellation. — Before cancelling a license pursuant to this duty,

the chief of division (now director of alcohol and gaming division) must, of necessity, determine the facts which would authorize the cancellation. *Crowe v. State ex rel. McCulloch*, 1971-NMSC-017, 82 N.M. 296, 480 P.2d 691.

60-7A-8. Sales to wholesalers.

Unless he has a wholesaler's license, no New Mexico manufacturer shall sell or offer for sale any alcoholic beverages manufactured within this state to any person in New Mexico other than wholesalers licensed under the provisions of the Liquor Control Act [60-3A-1 NMSA 1978].

History: Laws 1981, ch. 39, § 59.

ANNOTATIONS

Effect of one wholesaler dominating market. — Where one wholesaler in New Mexico so dominates a substantial number of retail dealers that such retail dealers are compelled to purchase substantially all of their distilled spirits from such wholesaler, the practice restrains

and prevents transactions in such distilled spirits between other wholesalers in the state and distillers and distributors elsewhere. *Levers v. Anderson*, 153 F.2d 1008 (10th Cir.), cert. denied, 328 U.S. 866, 66 S. Ct. 1376, 90 L. Ed. 1636 (1946).

60-7A-9. Credit extension by wholesalers.

It is a violation of the Liquor Control Act [60-3A-1 NMSA 1978] for any wholesaler to extend credit or to agree to extend credit for the sale of alcoholic beverages to any retailer, dispenser, canopy licensee, restaurant licensee, club licensee or governmental licensee or its lessee for any period more than thirty calendar days from the date of the invoice required under the provisions of Section 60-8A-3 NMSA 1978. A violation of this section does not bar recovery by the wholesaler for the total indebtedness of the retailer, dispenser, canopy licensee, restaurant licensee, club licensee or governmental licensee or its lessee.

History: Laws 1981, ch. 39, § 71; 1985, ch. 39, § 1.

ANNOTATIONS

Failure to collect invoices. — Where the liquor wholesaler did not promptly bring an action to recover the amount due on invoices that had remained unpaid for more than thirty days, but continued to deliver more liquor to the retailer without receiving immediate payment, the wholesaler extended credit to the retailer in violation of this section. *N.M. Beverage Co. v. Blything*, 1985-NMSC-039, 102 N.M. 533, 697 P.2d 952.

Credit extended during initial 30 days. — Credit sales made within the initial 30-day period before the retailer falls behind in payments on his account are not declared violations of this section, and 60-8A-5 NMSA 1978 does not bar a wholesaler from bringing an action to collect debts arising from such credit sales. *Pucci Distrib. Co. v. Stephens*, 1987-NMSC-075, 106 N.M. 228, 741 P.2d 831.

Time period for credit sales. — Since 15 days is a reasonable amount of time for a wholesale liquor distributor to determine what bills are past due from purchasers, any credit sales of liquor made to debtor by the wholesale liquor distributors within the first 45 days from the date of the first unpaid invoice are in conformance with the requirements of this section and are collectable, while any credit sales made after this forty-five day period demonstrate an implicit agreement to extend credit and, thus, are in violation of this section and uncollectable. *Sholer v. Bank of Albuquerque (In re Gallegos)*, 68 B.R. 584 (Bankr. D.N.M. 1986) (decided under former Section 60-10-8 NMSA 1978).

Conduct violative of section. — Where, from a review of the invoices submitted, it is obvious that wholesale liquor distributors were extending credit long after

the debtor had been in arrears in excess of 30 days, such implied agreement to extend credit is conduct prohibited by this section. *Sholer v. Bank of Albuquerque (In re Gallegos)*, 68 B.R. 584 (Bankr. D.N.M. 1986) (decided under former Section 60-10-8 NMSA 1978).

To violate this section, a liquor wholesaler must continue to make credit sales to a liquor retailer knowing at the time that the retailer is more than 30 calendar days behind in its credit payments to the wholesaler. *Gavin Maloof & Co. v. Sw. Distrib. Co.*, 1987-NMSC-103, 106 N.M. 413, 744 P.2d 541.

Wholesaler may collect despite violation. — The purpose of the 1985 amendment was to eliminate the forfeiture and allow the wholesaler to collect its debt even though there may be a violation of this section. *D & M, Inc. v. United N.M. Bank*, 114 B.R. 274 (Bankr. D.N.M. 1990).

Liquor wholesalers' superpriority liens created by former Section 60-6B-3E NMSA 1978 were prior to a bank's perfected security interest even if there was a violation of this section. *D & M, Inc. v. United N.M. Bank*, 114 B.R. 274 (Bankr. D.N.M. 1990).

C.O.D. sales allowable. — When a credit sale is not paid for within 30 days, a liquor wholesaler may cut off credit and continue to do business with the delinquent retailer on a C.O.D. basis, while the wholesaler attempts to collect the past due accounts. *Gavin Maloof & Co. v. Sw. Distrib. Co.*, 1987-NMSC-103, 106 N.M. 413, 744 P.2d 541.

60-7A-10. Wholesalers prohibited from owning retailer's or dispenser's establishment.

A. Except as provided in Subsection B of this section, it is a violation of the Liquor Control Act [60-3A-1 NMSA 1978] for a wholesaler, directly or indirectly or through an affiliate, to own, either in whole or in part, a business operated under a retailer's or dispenser's license.

B. This section shall not prevent a wholesaler from owning a dispenser's license directly or indirectly or through an affiliate and operating a business itself or through an affiliate or a lessee under a dispenser's license if:

(1) the wholesaler directly or indirectly operates or controls an interest in an establishment or complex maintaining a minimum of one hundred sleeping rooms and having a resident of New Mexico as a proprietor or manager and where, in consideration of payment, meals and lodging are regularly furnished to the general public; and

(2) the sale of alcoholic beverages under the dispenser's license is restricted to their consumption on the licensed premises.

History: Laws 1981, ch. 39, § 74; 1991, ch. 5, § 1.

The 1991 amendment, effective June 14, 1991, designated the former section as Subsection A, adding the exception at the beginning thereof, and added Subsection B.

- F. directly, indirectly or through any subterfuge own, operate or control any interest in any wholesale liquor establishment or liquor manufacturing or wine bottling firm; provided, that this subsection shall not prevent a retailer from owning stock in any corporation which wholesales, manufactures or bottles alcoholic beverages when he owns the stock for investment purposes only.

It is a violation of the Liquor Control Act [Chapter 60, Articles 3A, 4B, 4C, 5A, 6A, 6B, 6C, 6E, 7A, 7B and 8A NMSA 1978] for a person, including a person licensed pursuant to the provisions of the Liquor Control Act, or an employee, agent or lessee of that person, if the person knows or has reason to know that the person is violating the provisions of this section, to:

(1) sell, serve or give alcoholic beverages to a minor or permit a minor to consume alcoholic beverages on the licensed premises;

(2) buy alcoholic beverages for or procure the sale or service of alcoholic beverages to a minor;

(3) deliver alcoholic beverages to a minor; or

(4) aid or assist a minor to buy, procure or be served with alcoholic beverages.

B. It is not a violation of the Liquor Control Act, as provided in Subsection A or C of this section, when:

(1) a parent, legal guardian or adult spouse of a minor serves alcoholic beverages to that minor on real property, other than licensed premises, under the control of the parent, legal guardian or adult spouse; or

(2) alcoholic beverages are used in the practice of religious beliefs.

C. It is a violation of the Liquor Control Act for a minor to buy, attempt to buy, receive, possess or permit the minor's self to be served with alcoholic beverages.

D. When a person other than a minor procures another person to sell, serve or deliver alcoholic beverages to a minor by actual or constructive misrepresentation of facts or concealment of facts calculated to cause the person selling, serving or delivering the alcoholic beverages to the minor to believe that the minor is legally entitled to be sold, served or delivered alcoholic beverages and actually deceives that person by that misrepresentation or concealment, then the procurer and not the person deceived shall have violated the provisions of the Liquor Control Act.

E. As used in the Liquor Control Act, "minor" means a person under twenty-one years of age.

F. In addition to the penalties provided in Section 60-6C-1 NMSA 1978, a violation of the provisions of Subsection A of this section is:

(1) a fourth degree felony for an offender, other than a server certified pursuant to Section 60-6E-7 NMSA 1978, who shall be sentenced pursuant to Section 31-18-15 NMSA 1978;

(2) a misdemeanor for a first violation if the offender is a server, certified pursuant to Section 60-6E-7 NMSA 1978, who shall be sentenced pursuant to the provisions of Section 31-19-1 NMSA 1978; or

G. A violation of the provisions of Subsection C of this section is a misdemeanor and the offender shall be punished as follows:

- (3) for a third or subsequent violation, the offender shall:
 - (a) be fined an amount not more than one thousand dollars (\$1,000);
 - (b) be ordered by the sentencing court to perform sixty hours of community service related to reducing the incidence of driving while under the influence of intoxicating liquor; and
 - (c) have the offender's driver's license suspended for a period of two years or until the offender reaches twenty-one years of age, whichever period of time is greater.

H. A violation of the provisions of Subsection D of this section is a fourth degree felony and the offender shall be sentenced pursuant to the provisions of Section 31-18-15 NMSA 1978.

ANNOTATIONS

Application of section. — This section applies not only to illegal credit sales by retailers to consumers, but

60-8A-6. Primary American source of supply.

For the purpose of tax revenue control, no holder of a nonresident license or resident broker license may solicit, accept or fill an order for distilled spirits or wine from a holder of any type of wholesaler's license unless the nonresident licensee or resident broker is the primary American source of supply for the brand of distilled spirits or wine that is ordered. As used in this section, "primary American source of supply" means the distiller, the producer, the owner of the commodity at the time it becomes a marketable product, the bottler or the exclusive agent of any of those. To be the "primary American source of supply," the nonresident licensee or resident broker must be the first source, that is, the manufacturer or the source closest to the manufacturer, in the channel of commerce from whom the product can be secured by American wholesalers.

History: Laws 1981, ch. 39, § 122.

60-8A-7. Franchises; definitions.

As used in Sections 60-8A-7 through 60-8A-11 NMSA 1978:

A. "franchise" means a contract or agreement, either expressed or implied, whether written or oral, between a supplier and wholesaler, wherein:

(1) a commercial relationship of definite duration or continuing indefinite duration is involved; and

(2) the wholesaler is granted the right to buy and to offer, sell and distribute within this state or any designated area thereof such of the supplier's brand of packaged alcoholic beverages as may be agreed upon;

B. "good cause":

(1) includes failure by the wholesaler to substantially comply with the essential and reasonable provisions of a contract, agreement or understanding with a supplier;

(2) includes use of bad faith on the part of the wholesaler in carrying out the terms of the franchise; and

(3) does not include failure or refusal on the part of the wholesaler to engage in any trade practice, conduct or activity that may result in a violation of any federal law or regulation or any law or regulation of this state;

C. "supplier" means a person, partnership, corporation or other form of business enterprise engaged in business as a manufacturer, importer, broker, agent or its successors or assigns that distributes any or all of its brands of alcoholic beverages through licensed wholesalers in this state. "Supplier" does not include successors or assigns for spirituous liquors or wines;

D. "termination" includes any substantial alteration or modification of the provisions of the franchise; and

E. "good faith" means honesty in fact in the conduct or transaction concerned and the observance of reasonable commercial standards of fair dealing in the trade as evidenced by all surrounding circumstances.

History: Laws 1981, ch. 39, § 54; 1987, ch. 263, § 1; 2003, ch. 100, § 1.

The 2003 amendment, effective July 1, 2003, in Subsection C, substituted "agent or its successors or assigns

60-8A-8. Franchises; violations.

A. The purpose of the provisions of Sections 60-8A-7 through 60-8A-11 NMSA 1978 is to provide an equal bargaining position between the parties and to protect the health, safety and welfare of the citizens by ensuring that there is an orderly and fair distribution of alcoholic beverages in the state.

B. It is a violation of Sections 60-8A-7 through 60-8A-11 NMSA 1978 for the supplier, directly or through any officer, agent or employee, to fail to act in good faith in performing or complying with any terms, provisions or conditions of the franchise, or in terminating, canceling or not renewing a franchise with a wholesaler, unless such termination, cancellation or failure to renew is done in good faith and for good cause. Good cause shall not include supplier mergers or acquisitions or consolidation of brands with one wholesaler.

C. If more than one franchise for the same brand or brands of alcoholic beverages is originally granted to different wholesalers in this state, it is a violation of Sections 60-8A-7 through 60-8A-11 NMSA 1978 for any supplier to discriminate in any of the terms, provisions and conditions of the franchise between the wholesalers. It is not the purpose of this section to allow suppliers to unilaterally and without good cause or in violation of the contract change the terms of an existing franchise or exclusive distribution agreement by authorizing the transfer of brands to another wholesaler in violation of this act [60-8A-7 to 60-8A-11 NMSA 1978].

History: Laws 1981, ch. 39, § 55; 1993, ch. 57, § 1.

The 1993 amendment, effective June 18, 1993, added present Subsection A and redesignated former

Subsections A and B as present Subsections B and C; substituted "60-8A-7 through 60-8A-11 NMSA 1978" for "54 through 58 of the Liquor Control Act" in Subsections B

and C; added the second sentences in Subsections B and C; and inserted "originally" near the beginning of the first sentence in Subsection C.

ANNOTATIONS

Evidence warranting appointment of second distributor. — The court's findings of fact support conclusion that supplier acted in good faith and for good cause in appointing a second distributor in New Mexico and that distributor's cause of action for violation of the franchise statutes fails where distributor consistently failed to meet sales expectations, followed a market philosophy contrary to that of supplier, failed to take sufficient steps as promised to improve its performance, and, in supplier's business judgment, failed to adequately represent supplier's product in New Mexico in light of supplier's repeated notifications of its substandard performance and attempts to anticipate improvements. *State Distribs., Inc. v. Glenmore Distilleries Co.*, 738 F.2d 405 (10th Cir. 1984)(decided prior

to 1987 amendment of Section 60-8A-7 NMSA 1978, defining "good faith").

Section not given retroactive effect. — This section was not to be applied retroactively to reach an agreement made before the act became effective, even where the termination of such agreement occurred afterwards. *Southwest Distrib. Co. v. Olympia Brewing Co.*, 1977-NMSC-050, 90 N.M. 502, 565 P.2d 1019.

Choice of law. — Kentucky law and not the New Mexico Alcoholic Beverage Franchise Act applied to distributorship contracts, where the contracts bore a reasonable relation to the state of Kentucky and the choice of law provision therein did not violate some fundamental principle of justice. *United Wholesale Liquor Co. v. Brown-Forman Distillers Corp.*, 1989-NMSC-030, 108 N.M. 467, 775 P.2d 233.

60-8A-9. Franchises; recovery of damages; injunction; remedies independent.

A. Any wholesaler may bring an action against a supplier for violation of Sections 60-8A-7 through 60-8A-11 NMSA 1978 in any court of competent jurisdiction, and may recover damages, together with the costs of the action, including reasonable attorneys' fees.

B. Any wholesaler may bring an action against a supplier in any court of competent jurisdiction for injunctive relief against termination, cancellation or failure to renew a franchise in violation of the provisions of Sections 60-8A-7 through 60-8A-11 NMSA 1978.

C. The remedies provided in this section are independent of and supplemental to any other remedy available to the wholesaler in law or equity.

D. It is the intent of the legislature that the Liquor Control Act [60-3A-1 NMSA 1978] control contractual relations between suppliers and wholesalers in the state. Any contract provision which has the effect of circumventing the provisions of Sections 60-8A-7 through 60-8A-11 NMSA 1978, whether a "choice of law" provision, or other provision, shall be deemed null and void and not applicable to franchises between suppliers and wholesalers in the state.

E. In any action brought by a wholesaler against a supplier under the provisions of Sections 60-8A-7 through 60-8A-11 NMSA 1978, if it is determined that the supplier terminated a franchise without good cause or not in good faith, such supplier shall be responsible to any wholesaler so aggrieved in damages in an amount not less than three times the annual gross profits derived by such wholesaler from the sale of any and all brands under such franchise.

History: Laws 1981, ch. 39, § 56; 1993, ch. 57, § 2.

The 1993 amendment, effective June 18, 1993, substituted "60-8A-7 through 60-8A-11 NMSA 1978" for "54

through 58 of the Liquor Control Act" in Subsections A and B and added Subsections D and E.

60-8A-10. Franchises; actions; defense.

In any action brought by a wholesaler against a supplier for termination, cancellation or failure to renew a franchise in violation of Sections 60-8A-7 through 60-8A-11 NMSA 1978, it is a complete defense for the supplier to prove that the termination, cancellation or failure to renew was done in good faith and for good cause. It shall not be a defense to any action brought by a wholesaler against a supplier under the provisions of Sections 60-8A-7 through 60-8A-11 NMSA 1978 for the supplier to claim that the laws of another state control over those provisions or in any way make the cited provisions not applicable.

History: Laws 1981, ch. 39, § 57; 1993, ch. 57, § 3.

The 1993 amendment, effective June 18, 1993, substituted "60-8A-7 through 60-8A-11 NMSA 1978" for "54

through 58 of the Liquor Control Act" and added the second sentence.

ANNOTATIONS

Evidence warranting appointment of second distributor. — The court's findings of fact support conclusion that supplier acted in good faith and for good cause in appointing a second distributor in New Mexico and that distributor's cause of action for violation of the franchise statutes fails where distributor consistently failed to meet sales expectations, followed a market philosophy contrary

60-8A-11. Franchises; time limit for bringing of action.

Any action brought pursuant to Sections 54 through 58 [60-8A-7 to 60-8A-11 NMSA 1978] of the Liquor Control Act shall be forever barred unless commenced within one year after the cause of action has accrued.

B. Such schedule shall be filed by the owner of the brand who is the holder of a nonresident license issued by the department.

60-8A-19 NMSA 1978, was constitutional. *U.S. Brewers Ass'n v. Rodriguez*, 465 U.S. 1093, 104 S. Ct. 1581, 80 L. Ed. 2d 115 (1984).

60-8A-13. Selling to wholesalers at prices different than shown in schedule.

A brand of spirituous liquors shall not be sold to wholesalers except at the price and discounts shown on the schedule unless prior written permission of the director is granted for reasons not inconsistent with the purposes of Sections 60-8A-12 through 60-8A-19 NMSA 1978.

60-8A-14. Form of schedule.

The schedule of prices and discounts shall be in writing, duly verified and filed in the number of copies, form and at such time as required by the director. It shall contain, with respect to each item, the exact brand or trade name, capacity of package, nature of contents and age and proof where stated on the label; the number of bottles contained in each case; the bottle and case price to wholesalers, which shall be individual for each item; the discounts for quantity, if any; and the discounts for time of payment, if any.

History: Laws 1981, ch. 39, § 64.

60-8A-15. Filing of affirmation.

The owner of a brand of spirituous liquors shall file as part of the schedule a verified affirmation that the price to New Mexico wholesalers is no greater than the lowest price at which the item of spirituous liquors is sold by the brand owner or any related person to any wholesaler anywhere in any other state of the United States or in the District of Columbia, or to any state or state agency which owns and operates retail liquor stores. As used in this section, "related person" means any person:

- A. in any business in which the brand owner has an interest, direct or indirect, by stock or other security ownership, as lender or lienor or by interlocking director or officer;
- B. in the exclusive, principal or substantial business of selling a brand of spirituous liquors purchased from the brand owner; or
- C. who has an exclusive franchise or contract to sell the brand of spirituous liquors.

History: Laws 1981, ch. 39, § 65; 1985, ch. 5, § 3.

ANNOTATIONS

Constitutionality. — This section is neither arbitrary nor discriminatory and does not violate due process or equal protection and is, therefore, constitutional. *United States Brewers Ass'n v. Director of N.M. Dep't of ABC*, 1983-NMSC-059, 100 N.M. 216, 668 P.2d 1093, appeal dismissed, 465 U.S. 1093, 104 S. Ct. 1581, 80 L. Ed. 2d 115 (1984).

This section violates the Commerce Clause of the United States Constitution even though it regulates all brand owners of intoxicating liquors evenhandedly, arguably promotes the state's legitimate interest in assuring the lowest possible price, for its residents, and allows brand owners to change out-of-state prices for a product once the price and discount schedule mandated by Section 60-8A-12 NMSA 1978 is filed; because its practical effect is to control prices in other states. *Brown-Forman Corp. v. N.M. Dep't of ABC*, 672 F. Supp. 1383 (D.N.M. 1987).

60-8A-16. Failure to file; schedule deemed invalid.

If an affirmation with respect to any item of spirituous liquors is not filed within the prescribed time, any schedule for which the affirmation is required shall be deemed invalid with respect to that item of spirituous liquors, and the item shall not be sold to or purchased by any wholesaler during the period covered by the schedule.

History: Laws 1981, ch. 39, § 66; 1985, ch. 5, § 4.

60-8A-17. Determination of lowest price.

In determining the lowest price for which any item of spirituous liquors was sold in any other state or in the District of Columbia, or to any state or state agency which owns and operates retail liquor stores, appropriate reductions shall be made to reflect all discounts in excess of those to be in effect under the schedule, and all rebates, free goods, allowances and other inducements of any kind whatsoever offered or given to any such wholesaler, state or state agency or retailer, as the case may be, purchasing the item in the other state or in the District of Columbia. Nothing contained in Sections 60-8A-12 through 60-8A-19 NMSA 1978 shall prevent differentials in price which make only due allowance for differences in state taxes and fees and in the actual cost of delivery. As used in this section, "state taxes and fees" means the excise taxes imposed or the fees required by any state or the District of Columbia upon, or based upon, the liter of spirituous liquors.

Licensing boards not contravention of state constitution. — Former act to create boards for the licensing of contractors, and vest them with administrative powers, did not contravene N.M. Const., art. VI, § 13, vesting original jurisdiction of all matters and causes in the district courts. *Fischer v. Rakagis*, 1955-NMSC-057, 59 N.M. 463, 286 P.2d 312.

Purpose of the act is to provide a comprehensive method for the licensing and control of contractors in order to protect the public from either irresponsible or incompetent contractors. *In re Romero*, 535 F.2d 618 (10th Cir. 1976).

60-13-1.1. Purpose of the act.

The purpose of the Construction Industries Licensing Act [60-13-1 NMSA 1978] is to promote the general welfare of the people of New Mexico by providing for the protection of life and property by adopting and enforcing codes and standards for construction, alteration, installation, connection, demolition and repair work. To effect this purpose, it is the intent of the legislature that:

A. examination, licensing and certification of the occupations and trades within the jurisdiction of the Construction Industries Licensing Act be such as to ensure or encourage the highest quality of performance and to require compliance with approved codes and standards and be, to the maximum extent possible, uniform in application, procedure and enforcement;

B. there be eliminated the wasteful and inefficient administrative practices of dual licensing, duplication of inspection, nonuniform classification and examination of closely related trades or occupational activities and jurisdictional conflicts; and

C. contractors be required to furnish and maintain evidence of responsibility.

ANNOTATIONS

Statutory policy. — The policy of the CILA is best served by imposing proportional liability on general contractors who hire unlicensed independent contractors to do dangerous work requiring a license for foreseeable injuries those independent contractors suffer due to their lack of qualifications. A general contractor who negligently hires an unqualified independent contractor to perform dangerous work may be liable for injuries to that same unqualified independent contractor. *Tafoya v. Rael*, 2008-NMSC-057, 145 N.M. 4, 193 P.3d 551.

Purpose of this act is to protect the public from incompetent and irresponsible builders, and in view of the severity of the sanctions and the forfeitures which could be involved, courts are reluctant to construe the act more broadly than necessary for achievement of its purpose; its provisions should not be transformed into an "unwarranted shield for the avoidance of a just obligation." *Olivas v. Sibco, Inc.*, 1975-NMSC-027, 87 N.M. 488, 535 P.2d 1339.

Administrative probable cause and administrative warrant requirements. — Administrative probable

cause exists based on either specific evidence of an existing violation or a showing that reasonable legislative or administrative standards for conducting an inspection are satisfied with respect to a particular establishment. The warrant application must inform the judicial officer of the substance of the complaint so that it can determine whether the alleged conditions, if true, constitute a violation. *N.M. Construction Indus. Div. v. Cohen*, 2019-NMCA-071.

Administrative search warrant was required.

— Where the New Mexico construction industries and manufactured housing division (division) received a written complaint regarding unsafe conditions on respondent's rental property and a written complaint regarding multiple additions that had occurred on the property without the proper permits or inspections, and where the division's inspectors attempted to inspect the property to look for code violations but were denied access by respondent, the district court erred in ordering the division to inspect the property, because although the district court's order found that the division had statutory authority to conduct an inspection, the order lacked a determination of whether probable cause supported an administrative search warrant and no exception to the warrant requirement applied. *N.M. Construction Indus. Div. v. Cohen*, 2019-NMCA-071.

The 2013 amendment, effective June 14, 2013, added definitions; in Subsection B, after "trade bureau", deleted "means" and added "jurisdiction" and "trade bureau jurisdiction" mean"; and added Subsections S through U.

Laws 2013, ch. 142, § 1, and Laws 2013, ch. 153, § 1, both effective June 14, 2013, enacted identical amendments to this section. The section was set out as amended by Laws 2013, ch. 153, § 1. See 12-1-8 NMSA 1978.

The 2003 amendment, effective June 20, 2003, deleted "but not limited to" following "occupancy by persons

or property, including" near the beginning of Subsection L; substituted "a nationally recognized standard adopted by the commission and" for "Uniform Building Code standards" following "built to" near the end of Subsection Q; in Subsection R, substituted "adopted by the commission that" for "which" following "provisions or standards" near the beginning, substituted "and that are published" for "which are approved" following "life and health;" near the middle, and deleted "and which standards are in general use in the United States or in a clearly defined region of the United States. The term 'code' includes the Uniform Building Code, the National Electrical Code, the Uniform Plumbing and Mechanical Code, the LP Gas Code and any other codes adopted by the commission" at the end.

(8) any mining company, gas company or oil company that installs, alters or repairs its facilities, including plumbing fixtures or gas piping, where the work is an integral part of the installing or operating of a system owned or operated by the mining company, gas company or oil company; provided the construction of a building by a mining company, a gas company or an oil company is required to be done in conformity with all other provisions of the Construction Industries Licensing Act and with orders, rules, regulations, standards and codes adopted pursuant to that act;

(11) a person who acts on his own account to build or improve a single-family residence for his personal use, including the building or improvement of a free standing storage building located on that residential property; provided that the construction or improvement is required to be done in conformity with all other provisions of the Construction Industries Licensing Act and with the orders, rules, regulations, standards and codes adopted pursuant to that act; and provided further that he does not engage in commercial construction;

(12) a person who, by himself or with the aid of others who are paid wages and receive no other form of compensation, builds or makes installations, repairs or alterations in or to a building or other improvement on a farm or ranch owned, occupied or operated by him, or makes installations of electrical wiring that are not to be connected to electrical energy supplied from a power source outside the premises of the farm or ranch owned, occupied or operated by him; provided that the state codes and any local codes adopted pursuant to Subsection F of Section 60-13-44 NMSA 1978 shall not require any permits or inspections for such construction on a farm or ranch except for electrical wiring to be connected to a power source outside the premises;

(13) an individual who works only for wages;

(14) an individual who works on one undertaking or project at a time that, in the aggregate or singly, does not exceed seven thousand two hundred dollars (\$7,200) compensation a year, the work being casual, minor or inconsequential, such as handyman repairs; provided that this exemption shall not apply to any undertaking or project pertaining to the installation, connection or repair of electrical wiring, plumbing or gas fitting as defined in Section 60-13-32 NMSA 1978 and provided:

(a) the work is not part of a larger or major operation undertaken by the same individual or different contractor;

(b) the individual does not advertise or maintain a sign, card or other device which would indicate to the public that he is qualified to engage in the business of contracting; and

(c) the individual files annually with the division, on a form prescribed by the division, a declaration substantially to the effect that he is not a contractor within the meaning of the Construction Industries Licensing Act [60-13-1 NMSA 1978], that the work he performs is casual, minor or inconsequential and will not include more than one undertaking or project at one time and that the total amount of such contracts, in the aggregate or singly, will not exceed seven thousand two hundred dollars (\$7,200) compensation a year;

(15) any person, firm or corporation that installs fuel containers, appliances, furnaces and other appurtenant apparatus as an incident to its primary business of distributing liquefied petroleum fuel;

(18) a person who performs work consisting of short-term depreciable improvements to commercial property to provide needed repairs and maintenance for items not covered by building codes adopted by the construction industry commission if the total amount paid the person for the

work on a single undertaking, including materials, services and wages of those who work for him, does not exceed the sum of five thousand dollars (\$5,000).

History: 1953 Comp., § 67-35-3, enacted by Laws 1978, ch. 66, § 1; 1979, ch. 46, § 1; 1979, ch. 49, § 1; 1986, ch. 107, § 1; 1987, ch. 283, § 1; 1989, ch. 6, § 4; 1997, ch. 181, § 2; 1997, ch. 235, § 1; 1999, ch. 130, § 1.

Repeals and reenactments. — Laws 1978, ch. 66, § 1, repealed former 67-35-3, 1953 Comp. (former 60-13-3 NMSA 1978), as amended by Laws 1977, ch. 377, § 1, relating to definition of "contractor," and enacted a new 67-35-3, 1953 Comp.

The 1999 amendment, effective June 18, 1999, added Paragraph D(18); deleted "but not limited to" preceding "constructing" in Subsection A, preceding "plumbing fixtures" in Paragraph D(8), and preceding "handyman repairs" in Paragraph D(14); and made minor stylistic changes throughout the section.

The 1997 amendments. — Laws 1997, ch. 181, § 2, amending this section effective July 1, 1997 by adding a new Paragraph D(17) relating to persons performing needed repairs or maintenance to commercial property when the total amount paid for a single undertaking does not exceed \$5,000, was approved April 10, 1997. However, Laws 1997, ch. 235, § 1, amending this section by adding new Paragraph D(17) relating to weatherization projects not exceeding \$2,000, but not giving effect to the changes made by the first 1997 amendment, was approved April 11, 1997. This section was set out as amended by Laws 1997, ch. 235, § 1. See 12-1-8 NMSA 1978.

ANNOTATIONS

Contractor must have a license. — An individual who qualifies as a contractor under the definition of "contractor" in the Construction Industries Licensing Act is required to have a contractor's license when performing the specific acts described in the Construction Industries Licensing Act, regardless of whether the individual can be classified as an employee of a licensed contractor under the common law control test. *Reule Sun Corp. v. Valles*, 2010-NMSC-004, 147 N.M. 512, 226 P.3d 611; *rev'g* 2008-NMCA-115, 144 N.M. 736, 191 P.3d 1197, *overruling* *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649 and *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523.

Common law control test does not apply. — The common law control test for determining whether an individual is an employee does not apply to determine whether an individual is required to have a license under the Construction Industries Licensing Act. An unlicensed contractor's classification as an employee of a licensed contractor under the common law control test does not exempt the unlicensed contractor from the licensing requirements of the Construction Industries Licensing Act. *Reule Sun Corp. v. Valles*, 2010-NMSC-004, 147 N.M. 512, 226 P.3d 611, *rev'g* 2008-NMCA-115, 144 N.M. 736, 191 P.3d 1197, *overruling* *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649 and *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523.

Former Contractors' License Law of 1939 was not unconstitutional as a denial of due process since the legislature could enact laws in the exercise of its police powers, provided only that the exercise was not so unreasonable as to amount to confiscation of property or a denial of the right to engage in a particular trade, occupation or profession. *Kaiser v. Thomson*, 1951-NMSC-037, 55 N.M. 270, 232 P.2d 142.

Filing requirement does not bar eligibility for exemption. — The filing requirement in this section is directory, not mandatory, and as such does not constitute a bar to the plaintiff's eligibility for the intended exemption. *Stokes v. Tatman*, 1990-NMSC-113, 111 N.M. 188, 803 P.2d 673.

"Contractor" status requires control of installation.

— The ordering and delivering of materials or the mere arranging for their installation does not bring suppliers of materials into the realm of the definition of "contractor" under subsection A where they are not, and their contracts do not place them, in control of the installation. *Verchinski v. Klein*, 1987-NMSC-003, 105 N.M. 336, 732 P.2d 863.

"Contractor" status requires control of employees.

— Where an employee leasing contractor that provided construction workers to the general contractor and the general contractor supervised and controlled the workers on the construction site, the employee leasing contractor did not act in the capacity of a contractor. *Eastland Fin. Servs. v. Mendoza*, 2002-NMCA-035, 132 N.M. 24, 43 P.3d 375.

Contractor when promise to mine and move copper ore. — A party who contracts to "perform certain mining work on copper siliceous ores" and to "pay for all labor, work, mining expenses, material, explosives and moving commercial copper ores to specified stockpile location" is a contractor within the terms of 67-16-2, 1953 Comp. (now repealed). *Salter v. Kindom Uranium Corp.*, 1960-NMSC-040, 67 N.M. 34, 351 P.2d 375.

Contractor when no hourly wage, time slips, or employee tax forms. — Defendant was not an employee of the person for whom he had contracted to construct a trailer park, and was therefore required to obtain a contractor's license, where he never received an hourly wage, did not submit time slips or employee tax forms, and the evidence was uncontroverted that the work performed fell within the requirements of Subsection A. *Mascarenas v. Jaramilla*, 1991-NMSC-014, 111 N.M. 410, 806 P.2d 59.

Contracts for "incidental" work exempted under former law. — Failure to reemploy the word "incidental" in the 1945 amendment did not leave the former Contractors' License Act applicable to contracts for work which was only "incidental" to the occupations or pursuits named as being exempted from the act. *B. & R. Drilling Co. v. Gardner*, 1951-NMSC-004, 55 N.M. 118, 227 P.2d 627.

Test as to independent contractor or employee.

— The principal test to determine whether one is an independent contractor or an employee is whether the employer has any control over the manner in which the details of the work are to be accomplished. Mere suggestions by the employer or the "directing control essential to coordinate the several parts of a larger undertaking" does not affect the relationship. It is the right to control, not the exercise of it, that furnishes the test. *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523, *overruled on other grounds by* *Sundance Mech. & Util. Corp. v. Atlas*, 1990-NMSC-031, 109 N.M. 683, 789 P.2d 1250.

Independent contractor for assessment work.

— Where plaintiff, an expert miner, who was working his adjoining claims was hired to watch defendant's claim and to do defendant's assessment work to consist of 70 feet of tunnel for an agreed price per foot, the details of the work to be left entirely to plaintiff, plaintiff was acting as an independent contractor in the assessment work. *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523, *overruled on other grounds by* *Sundance Mech. & Util. Corp. v. Atlas*, 1990-NMSC-031, 109 N.M. 683, 789 P.2d 1250.

Removal of structures included. — Although the removal of structures is not specifically included within the items named, the section provides that contracting includes the altering of buildings, and altering has some meaning other than constructing, repairing, installing or demolishing; otherwise, all of the words would not have been used in the section. *Fleming v. Phelps-Dodge Corp.*, 1972-NMCA-060, 83 N.M. 715, 496 P.2d 1111.

Neither the asserted contract for removal of a structure from plaintiff's land nor the removal process itself involves building or improving the structures (Subsection D(11)), or building, installations, repairs or alterations on a farm or ranch owned, occupied or operated by plaintiff (Subsection D(12)). Therefore, these exclusions do not exclude the asserted contract of removal from the meaning of "constructing." *Fleming v. Phelps-Dodge Corp.*, 1972-NMCA-060, 83 N.M. 715, 496 P.2d 1111.

No license required for contract to drill well. — A contract for drilling a well to supply water for agricultural purposes fell within the exceptions to which the former Contractors' License Act of 1939 did not apply. *B. & R. Drilling Co. v. Gardner*, 1951-NMSC-004, 55 N.M. 118, 227 P.2d 627.

No license requirement for cleaning activity. — Where construction work had been completed without objection and the only dispute centered around the amount of offset defendant should be allowed as costs for cleaning up the work site, the cleanup activity involved did not require a contractor's license according to the definitions of this section. *Olivas v. Sibco, Inc.*, 1975-NMSC-027, 87 N.M. 488, 535 P.2d 1339.

License required in partnership's name. — Contractors' License Law, 67-16-2, 1953 Comp. (now repealed), and the rules and regulations issued pursuant thereto, compelled partnerships to be licensed to hold a license in the partnership name. *Crumpacker v. Adams*, 1967-NMSC-060, 77 N.M. 633, 426 P.2d 781.

Necessary to establish that license required. — Defendant, seeking to invoke 67-16-14, 1953 Comp. (now repealed), prohibiting an unlicensed contractor from maintaining an action, must establish that plaintiff was in fact required to be licensed. *Crumpacker v. Adams*, 1967-NMSC-060, 77 N.M. 633, 426 P.2d 781.

Effect of knowledge of other party's lack of license. — Formerly the fact that defendants in an action to establish and foreclose mechanic's lien knew at the time they entered into contract with plaintiff that latter was not duly licensed did not estop them from asserting plaintiff's noncompliance with former licensing statute. *Kaiser v. Thomson*, 1951-NMSC-037, 55 N.M. 270, 232 P.2d 142.

Standing to attack constitutionality under former law. — Duly licensed contractors operating unmolested under the former act creating the license board (now abolished) were not in position to question constitutionality of the act where no proceeding was pending, contemplated or threatened by the board to revoke their licenses and no other action was contemplated by the board which would affect them adversely. *Brockman v. Contractors Licensing Bd.*, 1944-NMSC-038, 48 N.M. 304, 150 P.2d 125.

Highway contractors are included within definition of term "contractor" as used in the former Contractors' License Law. 1961-62 Op. Att'y Gen. No. 61-69.

Hourly worker not necessarily exempt. — The fact that a person undertakes to do work for another at an hourly rate does not necessarily by that fact alone exempt him from the definition of "contractor" under former law. 1955-56 Op. Att'y Gen. No. 55-6332.

Construction for own use on own land not included. — Under former version of this section (67-16-2, 1953 Comp.), a person constructing billboards for his own use on his own land did not need to be licensed as a contractor, as such person did not "undertake" to construct, alter, repair, add to or improve anything within

the meaning of that section. "Undertakes" as used in the statutory definition of "contractor," necessarily meant "undertakes with another," and did not include work done by a person alone for his own uses. 1966 Op. Att'y Gen. No. 66-24.

Bowling alley, related fixtures subject to regulation. — Bowling alleys and fixtures related thereto, as in the installation of a bar, are fabricated into a building under a performance contract and for a lump sum and are not considered to be personality; therefore, the operation in question is subject to regulation under the former act. 1957-58 Op. Att'y Gen. No. 58-155.

Mere moving of completed structure is not included under laws applied to contractors' licensing. 1953-54 Op. Att'y Gen. No. 53-5653.

When completion and moving of house included. — In the event a house had been wholly constructed elsewhere and moved to the site, the person so moving and setting the house upon the site was not within the provisions of the Contractors' Licensing Law (now repealed). In the event the prefabrication took place in sections and the house or structure was completed on the site, then the persons completing it, if all the other provisions of the law were applicable were under the former law pertaining to the contractors' licensing board (now abolished). 1953-54 Op. Att'y Gen. No. 53-5653.

Sale of prefabricated structure not included. — In view of the rule requiring strict interpretation of licensing statutes, a person who sells prefabricated structures is in no way included in the terms and provisions of the former Contractors' Licensing Law, whether he sells the structure delivered on the building site or whether the structure is sold F.O.B. manufacturer's plant. 1953-54 Op. Att'y Gen. No. 53-5653.

Installation of turbine water well pump. — A person who installs a turbine water well pump need not obtain a contractor's license. 1988 Op. Att'y Gen. No. 88-28.

Prospect and contract miners not subject to act. — Generally speaking, the term "project" is not specifically applicable to prospect or development mining operations, but more recognizable as used in commercial or domestic realty terminology; accordingly, under former law, prospect and contract miners were not subject to this act. 1957-58 Op. Att'y Gen. No. 57-105.

Agency or political subdivision of state not covered under former law. — Under former 67-16-3, 1953 Comp. of the Contractors' License Law, an agency or political subdivision of the state was not required to have a contractor's license for any classification as set forth in the rules and regulations of that law. That section confined the necessity for securing licenses to "any person, firm, co-partnership, corporation, association or other organization, or any combination thereof." Neither the state, its agencies or political subdivisions were mentioned in this list of business entities. Furthermore, the state could not be included in any of such business entities because the state was a body politic and not an association, society or corporation. Thus, the contractors' license board (now abolished) had no authority to license a water or soil conservation district in New Mexico. 1966 Op. Att'y Gen. No. 66-48.

60-13-3.1. Employer and employee relationship; independent contractor; improper reporting; penalty; license sanctions.

A. Except as provided in Subsection D of this section, for purposes of the employer and employee relationship within those construction industries subject to the Construction Industries

Licensing Act, a contractor who is an employer shall consider a person providing labor or services to the contractor for compensation to be an employee of the contractor and not an independent contractor unless the following standards indicative of an independent contractor are met:

(1) the person providing labor or services is free from direction and control over the means and manner of providing the labor or services, subject only to the right of the person for whom the labor or services are provided to specify the desired results;

(2) the person providing labor or services is responsible for obtaining business registrations or licenses required by state law or local ordinance for the person to provide the labor or services;

(3) the person providing labor or services furnishes the tools or equipment necessary to provide the labor or services;

(4) the person providing labor or services has the authority to hire and fire employees to perform the labor or services;

(5) payment for labor or services is made upon completion of the performance of specific portions of a project or is made on the basis of a periodic retainer; and

(6) the person providing labor or services represents to the public that the labor or services are to be provided by an independently established business. A person is engaged in an independently established business when four or more of the following circumstances exist:

(a) labor or services are primarily performed at a location separate from the person's residence or in a specific portion of the residence that is set aside for performing labor or services;

(b) commercial advertising or business cards are purchased by the person, or the person is a member of a trade or professional association;

(c) telephone or email listings used for the labor or services are different from the person's personal listings;

(d) labor or services are performed only pursuant to a written contract;

(e) labor or services are performed for two or more persons within a period of one year; or

(f) the person assumes financial responsibility for errors and omissions in labor or services as evidenced by insurance, performance bonds and warranties relating to the labor or services being provided.

B. The labor department shall administer and enforce the provisions of Subsection A of this section, including coordination with the construction industries division of the regulation and licensing department.

C. A contractor who intentionally and willfully reports to a state agency or other client that an employee is an independent contractor or who, for the purposes of a program administered by a state agency, intentionally and willfully treats or otherwise lists an employee as an independent contractor when the employee's status does not meet the standards indicative of an independent contractor as identified in Subsection A of this section is guilty of a misdemeanor and shall be punished by a fine of not more than five thousand dollars (\$5,000) or by imprisonment for a definite term not to exceed six months or both. For the purposes of this subsection, "state agency" means an administration, board, commission, department or division of this state.

D. Conviction of a contractor for violating Subsection C of this section shall be grounds for the construction industries commission to take action to suspend, revoke or refuse to renew a license issued to that contractor by the construction industries division of the regulation and licensing department.

E. Subsections A, B and C of this section shall not be construed to affect or apply to a common law or statutory action providing for recovery in torts and shall not be construed to affect or change the common law interpretation of independent contractor status as it relates to tort liability.

ANNOTATIONS

Conversion of individual units in apartment building to condominium would not require new building codes be applied to the same buildings, if the apartment building met all applicable building codes when constructed. In that case, the sale of the building as residential condominium units would not require the construction industries commission (now construction industries division) to enforce the most current building code which may incorporate more stringent requirements. 1978 Op. Att'y Gen. No. 78-18.

Such regulations shall give due regard to standards prescribed by the federal insurance administration pursuant to Regulation 1910, Subsection 7(d), 79 Stat. 670, Section 1361, 82 Stat. 587 and 82 Stat. 575, all as amended, and shall give due regard to physical, climatic and other conditions peculiar to New Mexico.

B. Upon the adoption of the code, the commission shall make rules and regulations pertaining to the issuance of a permit prior to any construction, installation, alteration, repair or addition to or within any building or structure proposed for the use of manufacturing or distillation of alcohol fuel. The commission shall also set a reasonable fee for the issuance of a permit.

C. No permit shall be required of any person who, by himself or with the aid of others who are paid wages and receive no other form of compensation, builds or makes installation, repairs or alterations on a farm or ranch owned, occupied or operated by him to any building or structure for the use of manufacturing or distillation of alcohol fuel.

C. The requirements of Subsection B of this section shall not apply to a restroom in a place of public accommodation that:

- (1) is not available or accessible for public use; or

No certificate of occupancy shall be issued for new construction of a place of public accommodation unless fully compliant with the provisions of this section.

E. This section shall not be construed to create a private right of action for failure to comply with the provisions of this section or rules adopted in accordance with this section.

F. As used in this section:

(1) "authority having jurisdiction" means the state or a municipality, county or other political subdivision that has a full-service building department employing a full-time certified building official and has permitting, inspection and enforcement authority over the general construction, electrical and mechanical-plumbing trades within its jurisdiction;

No bid on a contract shall be submitted unless the contractor has a valid license issued by the division to bid and perform the type of work to be undertaken; provided this subsection shall not prohibit a licensed contractor from bidding or contracting work involving the use of two or more trades, crafts or classifications if the performance of the work in the trades, crafts or classifications other than the one in which he is licensed is incidental or supplemental to the performance of the work in the trades, crafts or classifications for which he is licensed; and further provided that work coming under the jurisdiction of the mechanical bureau or the electrical bureau of the division must be performed by a contractor licensed to perform that work.

C. Any contractor may bid on a New Mexico highway project involving the expenditure of federal funds prior to making application to the division for a license. The contractor, if he has not previously been issued a license, shall upon becoming the apparent successful bidder apply to the division for a license. The director shall issue a license to the contractor in accordance with the provisions of the Construction Industries Licensing Act [60-13-1 NMSA 1978].

History: 1953 Comp., § 67-35-15, enacted by Laws 1967, ch. 199, § 15; 1969, ch. 224, § 5; 1977, ch. 245, § 174; 1983, ch. 105, § 5; 1989, ch. 6, § 11.

ANNOTATIONS

Contractor must have a license. — An individual who qualifies as a contractor under the definition of "contractor" in the Construction Industries Licensing Act is required to have a contractor's license when performing the specific acts described in the Construction Industries Licensing Act, regardless of whether the individual can be classified as an employee of a licensed contractor under the common law control test. *Reule Sun Corp. v. Valles*, 2010-NMSC-004, 147 N.M. 512, 226 P.3d 611, *rev'g* 2008-NMCA-115, 144 N.M. 736, 191 P.3d 1197, *overruling* *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649 and *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523.

Common law control test does not apply. — The common law control test for determining whether an individual is an employee does not apply to determine whether an individual is required to have a license under the Construction Industries Licensing Act. An unlicensed contractor's classification as an employee of a licensed contractor under the common law control test does not exempt the unlicensed contractor from the licensing requirements of the Construction Industries Licensing Act. *Reule Sun Corp. v. Valles*, 2010-NMSC-004, 147 N.M. 512, 226 P.3d 611, *rev'g* 2008-NMCA-115, 144 N.M. 736, 191 P.3d 1197, *overruling* *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649 and *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523.

Construction work performed by an employee contractor. — Where a licensed general contractor employed an unlicensed individual to stucco defendants' home; the general contractor did not pay the individual a salary, but on a contract-to-contract basis; the general contractor did not withhold taxes from the individual's compensation; the individual had tax identification numbers and paid the individual's own taxes; and the individual performed the work under the complete direction and control of the general contractor, the individual was a contractor under the Construction Industries Licensing Act and was required to possess a contractor's license to perform the work. *Reule Sun Corp. v. Valles*, 2010-NMSC-004, 147 N.M. 512, 226 P.3d 611, *rev'g* 2008-NMCA-115, 144 N.M. 736, 191 P.3d 1197, *overruling* *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649 and *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523.

Purpose. — The purpose of the former Contractors' License Law was to require licensing of those engaged in the contracting business to protect the public from unqualified contractors. *Cancienne, Inc. v. Southwest Cmty. Inns, Inc.*, 1969-NMSC-110, 80 N.M. 512, 458 P.2d 587.

Licensed contractors only. — Reading the Procurement Code, Section 13-1-28 NMSA 1978 et seq., and the Construction Industries Licensing Act, Chapter 60, Article 13 NMSA 1978, together, it is clear that the legislature intended (1) that public contracts should be awarded only to licensed contractors and (2) that purchasing authorities should be relieved from the necessity of making an independent investigation into the qualifications and fiscal responsibility of a contractor who is not licensed at the time of bidding. Thus, the doctrine of substantial compliance does not apply to the requirement of Section 60-13-12B NMSA 1978 that a contractor have a valid license when submitting a bid on a public contract. *BC&L Pavement Servs., Inc. v. Higgins*, 2002-NMCA-087, 132 N.M. 490, 51 P.3d 533.

Transfer of license between contractor and subcontractor prohibited. — This article requires both a contractor and subcontractor to be licensed and prohibits transferring a license or certificate of qualification to

another. *State v. Jenkins*, 1989-NMCA-044, 108 N.M. 669, 777 P.2d 908.

Having an electrical contractor's license did not exempt party from requirements of the former Contractors' License Law. An action is barred under 67-16-14, 1953 Comp. (now repealed), because of the lack of a contractor's license. *Chavas v. Esper*, 1966-NMSC-169, 76 N.M. 666, 417 P.2d 802.

License required in partnership name. — Former Contractors' License Law (67-16-1, 1953 Comp. et seq.) (now repealed), and the rules and regulations issued pursuant thereto, compel partnerships required to be licensed to hold a license in the partnership name. *Crumppacker v. Adams*, 1967-NMSC-060, 77 N.M. 633, 426 P.2d 781.

The admission of a person as a partner with a licensed contractor required the issuance of a new contractor's license to the partnership under former law. *Nickels v. Walker*, 1964-NMSC-177, 74 N.M. 545, 395 P.2d 679.

Type of work to be covered by license. — No person shall engage in business of a contractor unless the construction industries commission (division) has issued him a license which covers the type of work to be undertaken. *Peck v. Ives*, 1972-NMSC-053, 84 N.M. 62, 499 P.2d 684.

Work done within ambit of party's license. — Defendant's contention that plaintiff's action was barred by 67-16-6 and 67-16-17 1953 Comp. (now repealed), for failure of plaintiff to have contractor's license to perform the work he did was without merit, as plaintiff had a contractor's license which authorized him to do excavating, trenching, welding, water supply, sewage, including disposal and gas lines and the work done involved the cutting and threading of steel braces and welding said braces to steel plates, which fell within that part of plaintiff's contractor's license which authorized plaintiff to contract welding work. *Dunsan Contractors v. Koury*, 1966-NMSC-138, 76 N.M. 723, 418 P.2d 66.

Contractor when promise to mine and move copper ore. — A party who contracts to "perform certain mining work on copper siliceous ores" and to "pay for all labor, work, mining expenses, material, explosives and moving commercial copper ores to specified stockpile location" is a contractor within the terms of 67-16-3, 1953 Comp. (now repealed). *Salter v. Kindom Uranium Corp.*, 1960-NMSC-040, 67 N.M. 34, 351 P.2d 375.

Employee, not independent contractor, when performance controlled. — Where plaintiff was hired by defendant for drilling purposes, and where defendant retained at all times right of control of performance of the work as well as right to direct manner in which the work would be done, the plaintiff was an employee, not an independent contractor and was not barred from recovery under 67-16-3 and 67-16-14, 1953 Comp. (now repealed), for failure to obtain a contractor's license. *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649.

Agent not personally liable for principal. — This act does not alter the general rule that an agent is not liable on a contract the agent enters into on behalf of a disclosed principal, even if the principal does not possess a contractor's license and the agent does. *Kreischer v. Armijo*, 1994-NMCA-118, 118 N.M. 671, 884 P.2d 827.

License required maintenance of contract breach action. — Where the work performed was fabricating materials or supplies or using the same in the performance of contracting work and electrical installation, a contractor's license was required under former Contractors' License Law and therefore plaintiff could not maintain an action for breach of contract. *Cancienne, Inc. v. Southwest Cmty. Inns, Inc.*, 1969-NMSC-110, 80 N.M. 512, 458 P.2d 587.

Establishment of necessity for license required before action barred. — Defendant, seeking to prohibit an unlicensed contractor from maintaining an action, was

required to establish that plaintiff was required by 67-16-2, 1953 Comp. (now repealed), to be licensed. *Crumppacker v. Adams*, 1967-NMSC-060, 77 N.M. 633, 426 P.2d 781.

No quantum meruit recovery where license required. — One who has shown himself to be required to have contractor's license cannot recover under quantum meruit in absence of such license. *Campbell v. Smith*, 1961-NMSC-059, 68 N.M. 373, 362 P.2d 523, *overruled on other grounds by Sundance Mech. & Util. Corp. v. Atlas*, 1990-NMSC-031, 109 N.M. 683, 789 P.2d 1250.

Allegation of contractor's license treated as tried with parties' consent. — Where appellants made no objection to evidence of contractor's license and raised neither the jurisdiction nor the limitation question at trial, and requested no findings on either question, requirement of allegation of contractor's license was matter of public policy and did not, otherwise, bear any relation to the cause of action; and appellant cannot object to appellate court treating issue tried with consent of the parties as though it had been raised by pleadings. *Daughtrey v. Carpenter*, 1970-NMSC-151, 82 N.M. 173, 477 P.2d 807.

Evidence as to license. — Evidence of certain receipts and decals issued by licensing authority to plaintiff, along with plaintiff's own testimony that he was licensed, constitutes acceptable evidence, especially when it is joined with testimony from an official of the New Mexico construction industries commission (division), the agency which now licenses contractors, that plaintiff had been licensed at all pertinent times. *Kennedy v. Lynch*, 1973-NMSC-085, 85 N.M. 479, 513 P.2d 1261.

"Best evidence rule" not applicable to proof of license. — It is plaintiff's licensed status which must be proved and not contents of particular document; therefore, "best evidence rule" or Rule 1002, N.M.R. Evid. (now see Rule 11-1002), does not apply. *Kennedy v. Lynch*, 1973-NMSC-085, 85 N.M. 479, 513 P.2d 1261.

Same person shall not be designated as supervisor in more than one electrical contractor's license. 1961-62 Op. Att'y Gen. No. 62-77.

Use of unlicensed persons for plumbing and irrigating systems. — Under former law, the New Mexico school for the deaf could employ unlicensed persons for making installation of plumbing in the buildings of a dairy farm located in an unpopulated area; also, an irrigating system could be installed without regard to the licensing requirements of 67-22-2, 1953 Comp., and connections could be made to water tanks, troughs, etc., by licensed plumbers. 1959-60 Op. Att'y Gen. No. 59-61.

Municipality's licensing and regulating rights taken away. — Right of a municipality to both license and regulate resident and nonresident contractors has been taken away by the comprehensive nature of the Construction Industries Licensing Act except in certain minor respects. 1969 Op. Att'y Gen. No. 69-72.

Prior contractors', etc., licenses supplanted. — The Construction Industries Licensing Act provides for issuance of a contractor's license which supplants all prior contractors', plumbers' and electricians' licenses. 1969 Op. Att'y Gen. No. 69-72.

Requirements of electrical contractor's license under former law. — When a business, regardless of the nature of its organization (partnership, corporation, etc.) is formed with the intention of entering into the electrical contracting business, it should obtain an electrical contractor's license by written application stating the name of the business designated as holder and the qualified person named as supervisor. The supervisor must be the master electrician. 1961-62 Op. Att'y Gen. No. 62-77.

Persons, etc., contracting on percentage basis covered by former law. — The contractors' license board (now abolished) could license persons, firms, partnerships and corporations that were contractors on a percentage basis and, otherwise were within the coverage of 67-16-2, 1953 Comp. (now repealed). Agents and employees of contractors needed no license, even though they were employed on a percentage basis. 1961-62 Op. Att'y Gen. No. 62-04.

Salesmen taking orders for remodeling on behalf of licensed building concerns were not required to be licensed by the contractors' license board (now abolished). 1961-62 Op. Att'y Gen. No. 62-04.

Special license not required for general contractor. — A general contractor for construction of homes and other buildings, but who was not specially licensed as a painter or decorator contractor, was not required by 67-16-17, 1953 Comp. (now repealed), to subcontract the painting and decorating, as his license as a general contractor enabled him to do the painting or hire help to do it for him. 1959-60 Op. Att'y Gen. No. 59-67.

60-13-13. Application for contractor's license.

A. Applications for a contractor's license or a certificate of qualification shall be submitted to the division on forms prescribed and furnished by the division and shall contain the information and be accompanied by the attachments required by regulation of the commission.

B. Except as provided in Section 4 [60-13-14.1 NMSA 1978] of this 2021 act, the application shall be accompanied by the prescribed fee.

Repeals. — Laws 1989, ch. 6, § 67 repeals 60-13-13.1 NMSA 1978, as enacted by Laws 1979, ch. 107, § 1,

relating to supplemental licenses and fees for general building contractors, effective July 1, 1989.

60-13-13.2. Licensees; identical or similar names.

The division shall not accept an application, shall not issue a license and shall require a change in the name of a proposed license if the proposed name is identical to or in the opinion of the director so similar that it may cause confusion with a name on a pending application or an existing license. Any person aggrieved by the decision of the director may appeal the decision to the commission.

History: 1978 Comp., § 60-13-13.2, enacted by Laws 1983, ch. 105, § 6; 1989, ch. 6, § 13.

60-13-14. Division; license issuance; reports.

A. No license shall be issued by the division to any applicant unless the director is satisfied that the applicant is or has in his employ a qualifying party who is qualified for the classification for which application is made and the applicant has satisfied the requirements of Subsection B of this section.

B. An applicant for a license shall:

- (1) demonstrate proof of responsibility as provided in the Construction Industries Licensing Act [this article];
- (2) comply with the provisions of Subsection D of this section if he has engaged illegally in the contracting business in New Mexico within one year prior to making application;
- (3) demonstrate familiarity with the rules and regulations promulgated by the commission and division concerning the classification for which application is made;

- (5) if a person other than the persons described in Paragraph (4) of this subsection, provide a current physical location address and mailing address of the applicant's place of business;
- (6) submit proof of registration with the taxation and revenue department and submit a current identification tax number;
- (7) comply with any additional procedures, rules and regulations which are established by the commission relating to issuance of licenses; and
- (8) have had four years, within the ten years immediately prior to application, of practical or related trade experience dealing specifically with the type of construction or its equivalent for which the applicant is applying for a license, except that the commission may by regulation provide for:

(a) reducing this requirement for a particular industry or craft where it is deemed excessive but the requirement shall not be less than two years; and

(b) a waiver of the work experience requirement of this paragraph when the qualifying party has been certified in New Mexico with the same license classification within the ten years immediately prior to application.

C. The division, with the consent of the commission, may enter into a reciprocal licensing agreement with any state having equivalent licensing requirements.

D. The director may issue a license to an applicant who at any time within one year prior to making application has acted as a contractor in New Mexico without a license as required by the Construction Industries Licensing Act [60-13-1 NMSA 1978] if:

(1) the applicant in addition to all other requirements for licensure pays an additional fee as follows:

(a) in an amount up to ten percent of the contract price or the value of the nonlicensed contracted work in the discretion of the commission; or

(b) if the applicant has bid or offered a price on a construction project and was not the successful bidder or offeror, the fee shall be at least one percent but not more than five percent of the total bid amount; and

(2) the director is satisfied that no incident of such contracting without a license:

(a) caused monetary damage to any person; or

(b) resulted in an unresolved consumer complaint being filed against the applicant with the division.

E. An unlicensed contractor who has performed unlicensed work may settle the claims against him without becoming licensed if the claims arise from his first offense and he pays an administrative fee calculated pursuant to Paragraph (1) of Subsection D of this section. In addition to the administrative fee, an additional ten percent of the amount of the administrative fee shall be assessed as a service fee.

F. If the total fee to be paid by the contractor pursuant to the provisions of Subsection D or E of this section is twenty-five dollars (\$25.00) or less, the fee may be waived.

G. The director shall report every incident of nonlicensed contracting work to the taxation and revenue department to assure that the contractor complies with tax requirements and pays all taxes due.

The 1997 amendment, effective July 1, 1997, rewrote Paragraphs B(4) and B(5); in Paragraph B(8) inserted "except that" and made stylistic changes, including insertion of the subparagraph designations; in Paragraph D(1), substituted "as follows" for "in an amount equal to five percent of the value of such nonlicensed contracting work" and added Subparagraphs (a) and (b); added Subsections E and F; and redesignated former Subsection E as Subsection G.

ANNOTATIONS

When foreign corporation considered to be "maintaining an office". — The hiring of an agent by a foreign corporation for the sole purpose of receiving and

forwarding a summons and complaint to the home office of the corporation located in another state does not fall within any of the generally accepted definitions pertaining to maintaining of an office. An occasional or isolated act of this type by an agent of a foreign corporation is obviously not a part of the continuous, usual and ordinary business of the corporation which, in this case, would be building or construction. A foreign corporation must do something in addition to merely designating a statutory agent for service in order to meet the requirement of "maintaining an office." 1961-62 Op. Att'y Gen. No. 62-90 (rendered under prior law).

Otherwise qualified alien may be issued license. 1959-60 Op. Att'y Gen. No. 60-162.

60-13-14.1. Expedited licensure; military service members, spouses and dependents; veterans; waiver of fees.

A. The division shall, as soon as practicable but no later than thirty days after a military service member or a veteran files an application, and provides a background check if required, for a license or certificate issued pursuant to the Construction Industries Licensing Act accompanied by any required fees:

(1) process the application; and

(2) issue a license prima facie to a qualified applicant who submits satisfactory evidence that the applicant holds a license or certificate that is current and in good standing, issued by another jurisdiction, including a branch of the armed forces of the United States, and has met minimal licensing or certification requirements that are substantially equivalent to the licensing or certification requirements for the license or certificate that the applicant applies for pursuant to the Construction Industries Licensing Act.

B. A license or certificate issued pursuant to this section is not a provisional license and shall confer the same rights, privileges and responsibilities as a license issued pursuant to the Construction Industries Licensing Act.

C. A license issued pursuant to this section shall not be renewed unless the license holder satisfies the requirements for the issuance and the renewal of a license pursuant to the Construction Industries Licensing Act. Upon the issuance of a license pursuant to this section, the division shall notify the license holder of the requirements for renewing the license in writing.

D. Notwithstanding the provisions of Subsection A of this section, a military service member or a veteran who is issued a license pursuant to this section shall not be charged a licensing or certificate fee for the first three years a license or certificate issued pursuant to this section is valid.

E. Upon the conclusion of the state fiscal year, the division shall prepare a report on the number and type of licenses or certificates that were issued during the fiscal year under this section. The report shall be provided to the director of the office of military base planning and support not later than ninety days after the end of the fiscal year.

F. As used in this section:

(1) "military service member" means a person who is:

(a) serving in the armed forces of the United States as an active duty member or in an active reserve component of the armed forces of the United States, including the national guard;

(b) the spouse of a person who is serving in the armed forces of the United States as an active duty member or in an active reserve component of the armed forces of the United States, including the national guard; or a surviving spouse of a member who at the time of death was serving on active duty; or

(c) the child of a person who is serving in the armed forces of the United States as an active duty member or in an active reserve component of the armed forces of the United States, including the national guard; provided that child is also a dependent of that person for federal income tax purposes; and

(2) "veteran" means a person who has received an honorable discharge or separation from military service in the armed forces of the United States or in an active reserve component of the armed forces of the United States, including the national guard.

History: Laws 2021, ch. 92, § 4.

Effective dates. — Laws 2021, ch. 92 contained no effective date provision, but, pursuant to N.M. Const., art.

IV, § 23, was effective June 18, 2021, 90 days after adjournment of the legislature.

60-13-15. License issuance; commission review.

A. The commission shall review at its regular meetings all licenses issued by the division. The commission shall report to the superintendent of regulation and licensing and the attorney general any license issued to an applicant who fails to meet the requirements established by law and commission regulations for license issuance.

B. The signing of a license by the director for issuance by the division to an applicant who fails to meet the requirements established by law or committee regulations for issuance of licenses is a misdemeanor, and the director, if convicted by a court of law, shall be relieved of his duties and shall be subject to civil damages as provided in Section 30-23-7 NMSA 1978. Failure by the committee or any member of the committee to report the illegal issuance of a license is a petty misdemeanor and upon conviction shall result in termination of the appointment of the committee member so convicted.

History: 1953 Comp., § 67-35-17.1, enacted by Laws 1977, ch. 245, § 177; 1983, ch. 105, § 8; 1989, ch. 6, § 15.

60-13-16. Division; qualifying party; examination; certificate.

A. Except as otherwise provided in this section, no certificate of qualification shall be issued to an individual desiring to be a qualifying party until he has passed with a satisfactory score an examination approved and adopted by the division.

B. The examination shall consist of a test based on general business knowledge, rules and regulations of the division and the provisions of the Construction Industries Licensing Act [60-13-1 NMSA 1978]. In addition, applicants for a GB, MM or EE classification or for any other classification that the commission determines to be appropriate shall take a test based on technical knowledge and familiarity with the prescribed codes and minimum standards of the particular classification for which certification is requested. The division shall provide examinations in both English and Spanish.

C. In lieu of the examination to determine knowledge of business and construction industries law provided in Subsection B of this section, an applicant may satisfy the business and law knowledge requirement by receiving a certificate of completion of a business and law course of study offered by an accredited education institute approved by the commission. The course and any preparation and instruction materials shall be available in both English and Spanish and shall be made available to the division, the commission or the designated agent of the division, upon request, for review.

D. If a contractor's license is subject to suspension by the commission and if the suspension is based on the requirement that the licensee employ a qualifying party and the employment of the qualifying party is terminated without fault of the licensee, a member of that trade who is experienced in the classification for which the certificate of qualification was issued and has been employed for five or more years by the licensed contractor shall be issued without examination a temporary certificate of qualification in the classification for which the contractor is licensed. The temporary qualifying party is required to pass the regular examination as set forth in Subsection B of this section within ninety days of issuance of a temporary certificate of qualification.

E. The certificate of qualification is not transferable.

F. A qualifying party whose certificate is revoked by the commission shall not reapply for a certificate for one year.

B. Contractor's licenses shall expire two years after the issuance date or as determined by the division, but in no instance less than one year, and shall be renewable upon application to the division and payment of the prescribed renewal fee; provided that nothing in this subsection shall prohibit the division from establishing a staggered system of license expiration and a procedure for proration of fees for licenses issued for less than the two-year period or other period provided by the division pursuant to this subsection.

C. Licenses shall expire upon the date established by regulation of the commission, such regulation to provide for a staggered system of license expiration and for proration of fees for licenses issued for less than a full year. D. Licensees and journeyman certificate holders may be required to complete and submit proof of continuing education as a prerequisite for renewal of a license. When required by rule adopted by the division, an applicant for a license renewal must submit with the application for license renewal proof of eight hours of instruction in code change and eight hours of instruction in other industry-related and division-approved subjects. The sixteen hours of continuing education must have been completed within the three years prior to the date of the license renewal application.

E. The director shall, at least thirty days prior to the expiration date of a license, notify the licensee of the approaching expiration. Notice shall be given by mail addressed to the licensee's last address on file with the division. F. Failure of a licensee to make application for the renewal of the licensee's license, to furnish such other information required by the commission and, if required, to pay the prescribed renewal fee by the last working day prior to the expiration of the license shall cause the license to be suspended by operation of law.

G. Unless the license is renewed within a three-month period, it shall be canceled. The suspended license may be renewed only after payment of a fee equal to one dollar (\$1.00) for each day, up to thirty days, that has elapsed since the expiration date of the license and thereafter for a fee equal to twice the amount of the renewal fee.

ANNOTATIONS

"Conversion." — Section 60-13-23F NMSA 1978 creates a technical trust within the meaning of 11 U.S.C. § 523(a)(4), and that for purposes of the New Mexico statute, "conversion," like "diversion," means the failure by the contractor who is entrusted with funds to be used for a specific project to use the funds for their intended purpose. *Crossingham Trust v. Baines (In re Baines)*, 337 B.R. 392 (Bankr. D.N.M. 2006).

Notice of contemplated action sufficient. — The notice of contemplated action in this case was sufficient to provide the licensee with notice, even though it did not state that the qualifying party certificate was in jeopardy; the licensee knew the general nature of the proceedings against him and that is all that notice pleading requires. Further, the licensee waived the lack of notice issue by appearing at the administrative hearing and defending on the merits. *Oden v. State, Regulation & Licensing Dep't*, 1996-NMSC-022, 121 N.M. 670, 916 P.2d 1337.

Contractor's fiduciary capacity imposed by law binding on him. — Fiduciary capacity of contractor who was advanced money pursuant to construction contracts was imposed by law, rather than implied by law, and existed independent of any express understanding he had with the owner governing the same obligation. Since obtaining state license by contractor is prerequisite to entering construction industry in New Mexico, obligation and duties imposed under this section were binding upon contractor prior to any dealings he had with the owner, and a bankruptcy court's finding that the contractor was acting in a fiduciary capacity within the meaning of federal bankruptcy law, is not clearly erroneous. *In re Romero*, 535 F.2d 618 (10th Cir. 1976).

This section imposes fiduciary duty upon contractors who have been advanced money pursuant to construction contracts. *In re Romero*, 535 F.2d 618 (10th Cir. 1976).

60-13-23.1. Administrative penalty.

A. Notwithstanding any provisions of the Uniform Licensing Act [61-1-1 NMSA 1978] or the Construction Industries Licensing Act [60-13-1 NMSA 1978] to the contrary, the commission may, in addition to or instead of revocation or suspension of a license issued by the division for any cause specified in the Construction Industries Licensing Act, assess the licensee an administrative penalty in the following amounts:

(1) where the dollar value of the contract or work performed is five thousand dollars (\$5,000) or less, the penalty shall be not less than three hundred dollars (\$300) or more than five hundred dollars (\$500); or

(2) where the dollar value of the contract or work performed is more than five thousand dollars (\$5,000), the penalty shall be in an amount equal to not more than ten percent of the dollar amount of the contract or work performed but not less than five hundred dollars (\$500).

B. If a person subject to the penalties under Subsection A of this section previously has had his contractor's license suspended or revoked or has been assessed an administrative penalty

pursuant to Subsection A of this section, that person shall be assessed twice the amount specified in Paragraph (1) or (2) of Subsection A of this section, as applicable.

C. Failure to pay an administrative penalty upon the date set by the commission shall subject the offender to an additional penalty of one hundred dollars (\$100) for each day the offender fails to comply with the order. The attorney general shall institute an action in the district court to recover the appropriate penalties.

60-13-24. Certificates of qualification; statewide inspector's certificates; causes for revocation or suspension.

Any certificate of qualification or statewide inspector's certificate shall be revoked or suspended by the commission for the following causes:

- A. misrepresentation of a material fact by the individual in obtaining the certificate;
- B. violation, willfully or by reason of incompetence, of any provision of the Construction Industries Licensing Act or any code, minimum standard, rule or regulation adopted pursuant to that act; or
- C. aiding, abetting, combining or conspiring with a person to evade or violate the provisions of the Construction Industries Licensing Act or any code, minimum standard, rule or regulation adopted pursuant to that act.

The 2013 amendment, effective June 14, 2013, provided qualifications for statewide inspector's certificates; in the title, after "qualification", added "statewide inspector's certificates"; and in the introductory sentence, after "qualification", added "or statewide inspector's certificate". Laws 2013, ch. 142, § 3, and Laws 2013, ch. 153, § 3, both effective June 14, 2013, enacted identical amendments to this section. The section was set out as amended by Laws 2013, ch. 153, § 3. See 12-1-8 NMSA 1978.

60-13-25. Qualifying party; termination of relationship.

In the event the employment or business relationship between the qualifying party and the licensee is terminated, the licensee and the qualifying party shall notify the division within thirty days of that termination in relationship, and the license shall be suspended for one hundred twenty days from the date of the termination of employment or business relationship and then canceled unless another individual who is a properly certified qualifying party is approved as the qualifying party for the licensee.

60-13-27. Complaints against licensees and certificate holders; investigations by division; informal resolution; notice of revocation action.

A. The division on its own motion or upon the verified complaint in writing of any person shall investigate the actions of any licensee or certificate holder. The director may assign one or more inspectors certified pursuant to Section 60-13-41 NMSA 1978, investigators or other personnel to investigate that licensee or certificate holder or any activity within the jurisdiction of the Construction Industries Licensing Act [60-13-1 NMSA 1978]. The director may authorize an inspector or investigator to enter any code jurisdiction to make investigations. The investigation shall be for the purpose of determining if there has been a code violation or other breach of Section 60-13-23, 60-13-24 or 60-13-36 NMSA 1978 on the part of a licensee or certificate holder constituting probable grounds for revocation or suspension of his license or certificate.

B. The person assigned by the director shall make an immediate investigation, securing all pertinent facts and statements, including a statement from the contractor, if he is available, and names and addresses of witnesses. Within one hundred eighty days of receipt of the complaint by the division, he shall make a full and complete written report to the director.

C. Complaints may be resolved informally at the request of the complainant, the contractor or the commission. For informal resolution of a complaint, all parties must agree to the informal hearing and agree that the decision of the informal hearing officer is final. The procedures for informal hearings and resolution of complaints shall be established by the commission.

D. All revocation and suspension proceedings conducted by the commission and judicial review of the commission's decision shall be governed by the provisions of the Uniform Licensing Act [61-1-1 NMSA 1978]. Prior to any revocation action by the commission, notice of the pending action shall be given to the bonding company which has in effect for the licensee any bond issued pursuant to the proof of responsibility provisions of the Construction Industries Licensing Act.

ANNOTATIONS

from the licensee before proceeding with the revocation hearing; the statute is properly read as requiring only that the inspector make a reasonable effort to gather all pertinent information during the investigation. *Oden v. State, Regulation & Licensing Dep't*, 1996-NMSC-022, 121 N.M. 670, 916 P.2d 1337.

A. The commission shall make all suspensions for a definite period not exceeding ninety consecutive days. Suspension of a license for any cause specified in the Construction Industries Licensing Act [60-13-1 NMSA 1978] shall not preclude revocation of that license for cause by the commission.

B. A contractor whose license has been suspended or revoked shall complete work in progress as directed by the commission.

C. At the end of the suspension period, the commission shall review the license to determine if the license should be reinstated or revoked.

B. Following the revocation of a contractor's license or a qualifying party's certificate pursuant to the Construction Industries Licensing Act, no license or certificate may be issued to that contractor or qualifying party by the division if the director finds that the contractor or qualifying party has, during the period of revocation, engaged in activity that constitutes a violation of any provision of the Construction Industries Licensing Act.

Subcontractor is not an employee of the general contractor. — Where a masonry contractor used various methods to bill a general contractor, including per hour, per load, per square foot and per item methods; the masonry contractor used its own tools and equipment, had its own employees, invoiced the general contractor under a business name, was responsible for its own registration and licensing, and was paid when each assignment was completed; the general contractor did not direct or control the details of the masonry contractor's work, did not withhold employee related state and federal taxes from the masonry contractor's invoices; and did not include the masonry contractor and its employees under the general contractor's workers' compensation coverage, the masonry contractor was not an employee of the general contractor. *Romero v. Parker*, 2009-NMCA-047, 146 N.M. 116, 207 P.3d 350.

Construction acts cannot be separated to evade the licensing requirement. — Where an unlicensed subcontractor performed work for a general contractor on several individual job assignments; some of the assignments did not require a license, the subcontractor cannot evade the licensing requirement of this section by separating construction acts into individual job assignments. *Romero v. Parker*, 2009-NMCA-047, 146 N.M. 116, 207 P.3d 350.

Work by employee. — Where a licensed general contractor employed an unlicensed individual and his crew to perform work, issued a detailed work order, observed and oversaw the performance of the work by the individual and his crew, and furnished the individual and his crew with insurance and most of the major equipment and material to perform the work; the individual worked exclusively for the contractor on a full time basis; the individual

and his crew were required to wear the contractor's uniforms and display the contractor's signs, and the contractor was responsible for defects in the individuals' work, the individual was an employee of the contractor, not a subcontractor, and the contractor could sue for payment on a construction contract for work performed by the individual. *Reule Sun Corporation v. Valles*, 2008-NMCA-115, 144 N.M. 736, 191 P.3d 1197, *rev'd*, 2010-NMSC-004, 147 N.M. 512, 226 P.3d 611.

False conflict doctrine applied. — Where the plaintiff performed construction work on a project in Arizona for the defendant; both parties were New Mexico citizens; Arizona law required the plaintiff to have an Arizona contractor's license to perform the work on the project; the plaintiff did not have the required Arizona contractor's license; the defendant had the required Arizona contractor's license; and under both New Mexico and Arizona law unlicensed contractors are barred from recovering for their work under any cause of action, the plaintiff was an independent contractor of the defendant notwithstanding the fact that the parties' contract purported to create an employer-employee relationship between the parties, and the plaintiff did not substantially comply with contractor licensing requirements, the trial court properly applied the false conflict doctrine and dismissed the plaintiff's action for breach of contract and unjust enrichment. *Fowler Brothers, Inc. v. Bounds*, 2008-NMCA-091, 144 N.M. 510, 188 P.3d 1261.

Contrary to public policy. — Contracts entered into by unlicensed contractors are contrary to public policy and unenforceable. *Gamboa v. Urena*, 2004-NMCA-053, 135 N.M. 515, 90 P.3d 534, *cert. denied*, 2004-NMCERT-005, 135 N.M. 565, 92 P.3d 10.

No due process or equal protection contravention. — Section does not contravene due process clause or deny equal protection of law as guaranteed by the New Mexico constitution. *Fischer v. Rakagis*, 1955-NMSC-057, 59 N.M. 463, 286 P.2d 312.

Act does not violate N.M. Const., art. IV, § 18 as attempt to amend the Mechanic's Lien Law by reference. *Fischer v. Rakagis*, 1955-NMSC-057, 59 N.M. 463, 286 P.2d 312.

Courts reluctant to construe act broadly. — Purpose of the act is to protect public from incompetent and irresponsible builders and in view of the severity of sanctions and forfeitures which could be involved, the court is reluctant to construe the statute more broadly than necessary for achievement of its purpose. *Peck v. Ives*, 1972-NMSC-053, 84 N.M. 62, 499 P.2d 684; *Olivas v. Sibco, Inc.*, 1975-NMSC-027, 87 N.M. 488, 535 P.2d 1339.

Section overrides policy disfavoring unjust enrichment. — The legislature chose to harshly penalize unlicensed contractors by denying them access to the courts to collect compensation for work performed, and its policy must override the judicial principle that disfavors unjust enrichment. *Triple B Corp. v. Brown Root, Inc.*, 1987-NMSC-058, 106 N.M. 99, 739 P.2d 968.

Legislative intent to bar suit by unlicensed contractor. — Intent of legislature under this section was to prohibit bringing of suit by unlicensed contractors acting illegally, and not to bar remedy of lawful contractors because of a technical error in their pleadings. *Daughtrey v. Carpenter*, 1970-NMSC-151, 82 N.M. 173, 477 P.2d 807.

The provisions of this section should not be transformed into an "unwarranted shield for the avoidance of a just obligation." *Olivas v. Sibco, Inc.*, 1975-NMSC-027, 87 N.M. 488, 535 P.2d 1339.

Not applicable to joint venturer. — This section did not apply to a party engaged in a joint venture agreement who undertook to perform repair and construction work on property of which he was a joint owner. *Lightsey v. Marshall*, 1999-NMCA-147, 128 N.M. 353, 992 P.2d 904, *cert. denied*, 128 N.M. 148, 990 P.2d 822.

No foreclosure of lien or judgment on contract where no license. — Failure of contractor to have license at the time contract was entered into prevented foreclosure of mechanic's lien or any judgment based on the contract for work done, even though a license was secured before work was completed or his cause of action arose. *Crawford v. Holcomb*, 1953-NMSC-102, 57 N.M. 691, 262 P.2d 782, *overruled on other grounds by State ex rel. Gary v. Fireman's Fund Indem. Co.*, 1960-NMSC-100, 67 N.M. 360, 355 P.2d 291.

No recovery based on contract entered into by unlicensed contractor. — To recover damages for breach of contract, where the plaintiff must rely on an alleged contract entered into by him in violation of statutes which prohibit contracting as unlicensed contractor and provide a criminal penalty for the violation, his action may not be maintained. *Fleming v. Phelps-Dodge Corp.*, 1972-NMCA-060, 83 N.M. 715, 496 P.2d 1111.

Unlicensed contractor should not be able to recover for the fabrication of his clients' cabinets and countertops in light of the fact that, under his view of the agreement, he did not charge anything for installation, because under his legal theory, contractor is in effect asking the court to excuse the construction work he performed without a license and exempt him from the requirements of the Construction Industries Licensing Act. *Gamboa v. Urena*, 2004-NMCA-053, 135 N.M. 515, 90 P.3d 534, *cert. denied*, 2004-NMCERT-005, 135 N.M. 565, 92 P.3d 10.

When recovery prohibited. — The statute only prohibits an unlicensed contractor from bringing or maintaining an action "for the collection of compensation" for construction work, and therefore, recovery by cross-plaintiff was prohibited only if its action on note and mortgage was one for collection of compensation for a construction contract. *Institute for Essential Hous., Inc. v. Keith*, 1966-NMSC-067, 76 N.M. 492, 416 P.2d 157.

To establish that plaintiff is precluded from recovery by this section requires proof that cabinets were "fabricated" into the structure within the meaning of 60-13-3C(1) NMSA 1978 (now see 60-13-3D(1) NMSA 1978). *American Builders Supply Corp. v. Enchanted Builders, Inc.*, 1972-NMSC-012, 83 N.M. 503, 494 P.2d 165.

Recipient of work can recover payments made on a contract to an unlicensed contractor. *Mascarenas v. Jaramillo*, 1991-NMSC-014, 111 N.M. 410, 806 P.2d 59.

No license requirement for cleanup activity. — When construction work had been completed without objection and the only dispute centered around the amount of offset defendant should be allowed as costs for cleaning up the work site, the cleanup activity involved did not require a contractor's license according to the definitions of 60-13-3 NMSA 1978 and was therefore not governed by this section. *Olivas v. Sibco, Inc.*, 1975-NMSC-027, 87 N.M. 488, 535 P.2d 1339.

Substantial compliance with licensing requirement. — The doctrine of substantial compliance developed in California, which has a licensing act similar to that of New Mexico, is applicable in New Mexico. The three elements of substantial compliance are: (1) appellant held a valid license at the time of contracting; (2) appellant readily secured a renewal of his license; and (3) the responsibility and competence of plaintiff's managing officer were officially confirmed throughout period of performance of contract. *Peck v. Ives*, 1972-NMSC-053, 84 N.M. 62, 499 P.2d 684.

Since appellant has violated provisions of the act as to aggregate dollar amount of contract for which he is financially responsible at any one time, and thus taken himself out of the duly licensed category, he has "substantially complied" with the licensing requirements to such a degree that he is not barred from bringing suit. *Peck v. Ives*, 1972-NMSC-053, 84 N.M. 62, 499 P.2d 684.

A contractor was in substantial compliance with the act, despite an inadvertent lapse in his license prior to entering into and performing a construction contract; the cancellation of his license occurred for reasons beyond his control and not for reasons of incompetence or discipline, the contractor readily secured a renewal of his license, and the contractor exhibited fiscal responsibility and competence by complying immediately upon becoming aware of the default. *Koehler v. Donnelly*, 1992-NMSC-058, 114 N.M. 363, 838 P.2d 980.

No substantial compliance. — Subcontractor did not "substantially comply" with licensing requirements to the degree necessary to avoid being barred under this section from bringing suit where he was not licensed at the time he entered into the contract, his efforts to secure a new license when his performance under the subcontract was near completion did not constitute the securing of a "renewal" of his license, and his efforts to secure a license did not confirm his responsibility and competence throughout the period of performance. *Roth v. Thompson*, 1992-NMSC-011, 113 N.M. 331, 825 P.2d 1241.

Party mining copper ore considered contractor. — A party who contracts to "perform certain mining work on copper siliceous ores" and to "pay for all labor, work, mining expenses, material, explosives and moving commercial copper ores to specified stockpile location" is contractor within the terms of this section. *Salter v. Kindom Uranium Corp.*, 1960-NMSC-040, 67 N.M. 34, 351 P.2d 375.

Employee not independent contractor where performance controlled. — Since plaintiff was hired by defendant for drilling purposes, and since defendant retained at all times the right of control of performance of work as well as the right to direct manner in which the work would be done, the plaintiff was an employee, not an independent contractor, and was not barred from recovery under this act for failure to obtain contractor's license. *Latta v. Harvey*, 1960-NMSC-046, 67 N.M. 72, 352 P.2d 649.

Effect of knowledge contractor not licensed. — Under former law, fact that defendants in action to establish and foreclose mechanic's lien knew at the time they entered into contract with plaintiff that latter was not duly licensed did not estop them from asserting plaintiff's noncompliance with the statute. *Kaiser v. Thomson*, 1951-NMSC-037, 55 N.M. 270, 232 P.2d 142.

Allegation required that contractor duly licensed. — Former law required allegation that contractor was duly licensed at time cause of action arose. *Kaiser v. Thomson*, 1951-NMSC-037, 55 N.M. 270, 232 P.2d 142.

Raising issue of noncompliance with licensing requirements. — If a complaint on its face shows that compliance with requirement that a contractor be licensed is essential to cause of action, the issue of noncompliance may be raised and dealt with as a matter of law. *American Builders Supply Corp. v. Enchanted Bldrs., Inc.*, 1972-NMSC-012, 83 N.M. 503, 494 P.2d 165.

Failure to allege license is affirmative defense. — The defense of failure to allege license under the statute is affirmative in nature, and should be pleaded. *American Builders Supply Corp. v. Enchanted Bldrs., Inc.*, 1972-NMSC-012, 83 N.M. 503, 494 P.2d 165.

Failure to allege license is equivalent to failure to state claim. — Since failure to allege license under the act is fatal to complaint, it may be asserted at any time that complaint fails to state claim on which relief can be granted. *American Builders Supply Corp. v. Enchanted Bldrs., Inc.*, 1972-NMSC-012, 83 N.M. 503, 494 P.2d 165.

Evidence of license treated as tried by parties' consent. — Where appellants made no objection to evidence of contractor's license and raised neither jurisdiction nor limitation question at trial, and requested no findings on either question, the requirement of allegation of a contractor's license was a matter of public policy and did not, otherwise, bear any relation to the cause of action; and appellant cannot object to appellate court treating issue tried with consent of the parties as though it had been raised by the pleadings. *Daughtrey v. Carpenter*, 1970-NMSC-151, 82 N.M. 173, 477 P.2d 807.

Default judgment on crossclaim. — Subcontractor's failure to state a claim upon which relief could be granted by alleging in his crossclaim that he was duly licensed as a contractor did not deprive the district court of jurisdiction to enter a default judgment on the crossclaim. *Sundance Mech. & Util. Corp. v. Atlas*, 1990-NMSC-031, 109 N.M. 683, 789 P.2d 1250.

60-13-31. Trade bureaus created.

There are created under the division the "electrical bureau," the "mechanical bureau," the "general construction bureau" and the "liquefied petroleum gas bureau."

History: 1953 Comp., § 67-35-34, enacted by Laws 1967, ch. 199, § 34; 1973, ch. 259, § 12; 1977, ch. 245, § 193; 1983, ch. 105, § 14.

60-13-32. Trade bureaus; definitions.

As used in the Construction Industries Licensing Act:

A. "electrical wiring" means all wiring, conductors, fixtures, devices, conduits, appliances or other equipment, including generating equipment such as solar electricity generating equipment of not over ten kilowatt capacity, used in connection with the general distribution or use of electrical energy;

B. "plumbing" means the installing, altering and repairing of all plumbing fixtures, fixture traps and soil, waste, supply and vent pipes, with their devices, appurtenances and connections, through which water, waste, sewage, oil and air are carried, when done within the property lines of

the building or structure to be served by the plumbing or to the point of connection with the utility system. This subsection shall not be construed as prohibiting the installation by a "fixed works" licensee of service lines from the utility system to a point five feet outside the building or structure to be served by the plumbing;

C. "fixtures" includes closet bowls, lavatories, bathtubs, showers, kitchen sinks, laundry trays, hot water tanks, softeners, urinals, bidets, service sinks, shower pans, drink fountains, water compressors, water coolers, septic tanks or similar systems of sewage disposal and such other similar fixtures used in plumbing as designated by the mechanical bureau;

D. "gas fitting" means the installing, altering and repairing of consumers' gas piping and the installation of appliances utilizing natural gas as fuel and their appurtenances in or upon premises of the consumers;

E. "softener" or "water conditioner" means any appliance, apparatus, fixture and equipment that is designed to soften, filter or change the mineral content of water, whether permanent or portable; and

F. "certificate of competence" means evidence of competence issued by the division to a journeyman electrician, journeyman plumber, journeyman gas fitter, journeyman pipe fitter or journeyman welder working on pipelines, collection lines or compressor stations.

History: 1953 Comp., § 67-35-35, enacted by Laws 1967, ch. 199, § 35; 1969, ch. 224, § 9; 1977, ch. 245, § 194; 1984, ch. 55, § 1; 1989, ch. 6, § 29; 2013, ch. 86, § 2.

The 2013 amendment, effective June 14, 2013, clarified the definition of "electrical wiring"; and in Subsection A, after "generating equipment", added "such as solar electricity generating equipment".

60-13-33. Trade bureaus; general duties and powers.

The trade bureaus shall:

A. cooperate in administering examinations for the licensing and certification of the occupations or trades assigned to their jurisdictions pursuant to the Construction Industries Licensing Act [60-13-1 NMSA 1978], and provide those examinations and any related materials in both English and Spanish;

B. perform inspections of all occupations, trades and activities within their jurisdictions;

C. be responsible for all administrative duties and other duties necessary and incidental thereto required in the Construction Industries Licensing Act, including those activities and duties assigned to them by the director; and

D. recommend rules and regulations and submit them to the division for approval by the commission and promulgation by the division.

History: 1953 Comp., § 67-35-36, enacted by Laws 1967, ch. 199, § 36; 1977, ch. 245, § 195; 1977, ch. 377, § 5; 1978, ch. 73, § 2; 1985, ch. 70, § 3; 1989, ch. 6, § 30.

60-13-38. Certificates of competence; examination; journeymen.

A. A person shall not engage in the occupation or trade of journeyman unless he holds a certificate of competence issued by the division for the occupation or trade in which he desires to engage.

B. The categories for certificates of competence are: journeyman electrician, journeyman plumber, journeyman gas fitter, journeyman pipe fitter, journeyman sheet metal worker, journeyman boiler operator, residential wireman and journeyman welder working on pipelines, collection lines or compressor stations.

C. An applicant for a certificate of competence shall be required to take an examination approved and adopted by the division as to his knowledge of the orders and rules governing the occupation or trade for which a certificate is sought, and as to his technical knowledge and ability pertaining to his particular trade. The examination may be oral, written or demonstrative or any combination thereof, as required by rules of the commission.

D. The division shall issue a certificate of competence to any journeyman welder working on pipelines, collection lines or compressor stations who shows evidence of having satisfactorily completed an examination administered by an independent testing organization or public utility employing engineers registered with the state, such examination meeting the minimum pipeline safety standards set by the public regulation commission.

E. Applications for certificates of competence shall be in the form and shall contain such information and attachments as the division prescribes.

F. The division shall establish a reasonable fee for any examination or issuance of certificate of competence.

G. A person is not eligible to take an examination for a certificate of competence unless he has had two years' experience in the occupation or trade for which a certificate of competence is sought, or the equivalent thereof as determined by the commission, or has successfully completed a course in the trade approved by the vocational education division of the state department of public education.

H. Employment of an apprentice working under the direct supervision of a certified journeyman is not prohibited by the Construction Industries Licensing Act [60-13-1 NMSA 1978].

I. A person is eligible to take an examination for a journeyman electrician certificate of competence after at least:

- (1) four years of accredited training in the electrical trade;
- (2) four years of apprenticeship in the electrical trade;
- (3) four years of practical experience in the electrical trade, of which two years are in the commercial trade, industrial trade or the equivalent as determined by the commission; or
- (4) successfully completing an electrical trade program approved by the vocational education division of the state department of public education and two years of practical experience in the commercial electrical trade.

J. Continuing education requirements for a journeyman electrician shall include at least sixteen hours of continuing education in every three-year period between national electrical code updates, of which eight hours are code change instructions and eight hours are other industry-related instruction. All continuing education curricula and instructors shall be approved by the commission based on recommendations by the electrical bureau.

K. A certificate of competence shall not be renewed until a complete application for renewal has been received by the division. Proof of completion of the continuing education requirements shall be submitted to the division with the application for renewal of certificate of competence. An application for renewal that is not accompanied by proof of completion of the continuing education requirements is incomplete and shall not be processed. The continuing education requirements in this subsection shall only apply to a journeyman electrician with the designation "EE-98J" or "JE98". This does not apply to EE98.

L. A person is eligible to take an examination for a residential wireman's certificate of competence after at least:

- (1) two years of accredited training or apprenticeship in the electrical trade;
- (2) two years of practical experience in wiring residential dwellings; or
- (3) successfully completing a course in the trade approved by the vocational education division of the state department of public education and one year of practical experience in wiring residential dwellings.

M. The provisions of Subsections I and L of this section do not apply to a person who was enrolled as a full-time student before June 20, 2003 in an electrical trade program approved by the vocational education division of the state department of public education.

History: 1953 Comp., § 67-35-41, enacted by Laws 1967, ch. 199, § 41; 1971, ch. 212, § 1; 1977, ch. 245, § 200; 1983, ch. 105, § 16; 1984, ch. 55, § 2; 1985, ch. 70, § 4; 1989, ch. 6, § 32; 2003, ch. 366, § 1.

The 2003 amendment, effective June 20, 2003, substituted "A person shall not engage" for "No individual shall engage" at the beginning of Subsection A; substituted "categories for" for "division shall issue" at the beginning of Subsection B; rewrote Subsection C and added Subsection D and redesignated the following subsections accordingly; in present Subsection D, substituted "public regulation commission" for "state corporation commission" at the end of the subsection; and added Subsections I through M.

ANNOTATIONS

State employees must obtain certificate. — The Personnel Act does not exempt state employees in journeyman occupations from obtaining a certificate of competency. 1981 Op. Att'y Gen. No. 81-11.

All persons employed in journeyman trades or occupations, including those employed by a state agency, are required by law to obtain a certificate of competency in accordance with the provisions of the Construction Industries Licensing Act. 1981 Op. Att'y Gen. No. 81-11.

Effect under former law of master electrician's disassociating from business. — When the master electrician disassociated himself from the business, the business had 60 days in which to qualify a new supervisor. The license remained with its owner, the new business, assuming that the master electrician was not a partner. The master electrician then, ipso facto, had no electrical contractor's license. Therefore, he had to apply for and obtain a new one before engaging in the electrical contracting business again. 1961-62 Op. Att'y Gen. No. 62-77.

60-13-39. Certificates and examination.

A. Certificates of competence issued by the division are not transferable and shall expire on the date established by the division, not more than three years from the month of issuance.

B. Application shall be made before the expiration date for renewal of a current certificate of competence and shall be accompanied by the fee prescribed for the initial issuance of the certificate.

C. Applications for a renewal of a certificate of competence shall be filed with the division prior to the last working day before the certificate expires. An expired certificate shall be renewable

within a six-month period without examination and only upon paying a fee in twice the amount of the renewal fee. If the certificate has not been renewed within the six-month period, it shall be canceled.

60-13-41. Inspectors; designated inspection agencies.

A. State inspectors shall be employed by the director.

B. Qualifications for inspectors shall be prescribed by the commission, and applicants shall submit to an appropriate background check as prescribed by the commission. Inspectors shall meet the minimum continuing education requirements as prescribed by the nationally recognized code organization for each trade bureau jurisdiction and provide proof of such credits to the division upon application for or renewal of certification.

C. The division shall certify and issue a statewide inspector's certificate to any person who meets the requirements established by the nationally recognized code organization for certification. The certificate shall list all trade bureaus for which the inspector is certified to inspect and shall be valid for a term of three years.

D. An inspector shall be employed by a county, municipality or other political subdivision in order to inspect work under permits issued in the trade bureau for which the inspector is certified; provided that the county, municipality or other political subdivision has a certified building official in its employ and has adopted the current minimum code standards as established by the commission.

E. Except as provided in Subsection F of this section, the state or its agent shall conduct all inspections if a county, municipality or other political subdivision does not have a certified building official in its employ.

F. A county, municipality or other political subdivision may enter into a memorandum of understanding to share a certified building official and inspectors operating under that certified building official with another county, municipality or other political subdivision; provided that the certified building official is employed in the same county, in an adjacent county, within one hundred miles of the county, municipality or other political subdivision or as approved by the division.

G. A person currently acting in the capacity of a certified building official may continue to act in that capacity and shall have five years from the effective date of this 2013 act to become a certified building official as prescribed by the Construction Industries Licensing Act. When a certified building official leaves the employ of a county, municipality or other political subdivision, the plan review, permitting and inspections overseen by that certified building official shall transfer to the state unless the county, municipality or other political subdivision, within sixty days or a longer period as approved by the division, replaces that certified building official or enters into a memorandum of understanding pursuant to Subsection F of this section.

H. The division may appoint inspection agencies to inspect the construction, installation, alteration or repair of manufactured commercial units, modular homes and premanufactured homes, including those manufacturers whose business premises are without the state, to ensure that

the New Mexico standards of construction and installation are adhered to and that the quality of construction meets all New Mexico codes and standards. If the inspection agency has no place of business within the state, it shall file a written statement with the secretary of state setting forth its name and business address and designating the secretary of state as its agent for the service of process.

I. The division shall, with the approval of the commission, establish qualifications for inspectors certified to inspect in more than one bureau's jurisdiction.

J. The director shall assign an investigator to investigate the merits of every complaint brought against an inspector and report to the commission within ten days.

The 2013 amendment, effective June 14, 2013, provided qualifications of inspectors; provided for statewide inspector's certificates; provided for local inspection agencies; in Subsection B, in the first sentence, after "Qualifications", deleted "and job descriptions", after "Qualifications for inspectors", deleted "for the state, municipalities and all other political subdivisions", and after "shall be prescribed by the commission", added the remainder of the sentence and added the second sentence; added Subsections C through G; deleted former Subsection D, which provided for reciprocal agreements with other jurisdictions; and added Subsection J.

Laws 2013, ch. 142, § 4, and Laws 2013, ch. 153, § 4, both effective June 14, 2013, enacted identical amendments to

this section. The section was set out as amended by Laws 2013, ch. 153, § 4. See 12-1-8 NMSA 1978.

The 2011 amendment, effective June 17, 2011, made no change.

The 2001 amendment, effective June 15, 2001, deleted "The commission shall also promulgate rules and regulations establishing a recertification incentive plan which provides for salary increases for state inspectors based on education and training and additional qualifications," from the end of Subsection B.

ANNOTATIONS

Authority to create categories of certification of inspectors. — The construction industries division of the regulation and licensing department has the authority to create different categories of certification with different certification standards based on an inspector's status as a state or local inspector. 2011 Op. 60-13-42. Authority of inspectors; limitation.

A. A state certified inspector may, during reasonable hours, enter any building or go upon any premises in the discharge of the inspector's official duties for the purpose of making an inspection of work performed or for the purpose of testing any installation authorized within the jurisdiction of the inspector's trade certification. The inspector may cut or disconnect, or have cut or disconnected in cases of emergency, an installation or device when necessary for safety to life or property or where the installation may interfere with the work of a fire department.

B. The inspector may disconnect or order the discontinuance of service to any installation, device, appliance or equipment found to be dangerous to life or property because it is defective or is incorrectly installed, until the installation, device, appliance or equipment is made safe and is approved by the inspector.

C. The inspector may order the correction of any defects or any incorrect installation that prompted the disconnection and discontinuance of service.

D. In all cases where disconnection is made, a notice shall be attached by the inspector to the installation, device, appliance or equipment disconnected, which notice shall state that the same has been disconnected by or on order of the inspector and the reason for the disconnection. It is unlawful for a person to remove the notice or to use the installation, device, appliance or equipment without authorization of an inspector.

E. The division shall by regulation adopt official inspection stickers or medallions for the purpose of identifying those modular homes and premanufactured homes that have been inspected and found to comply with all requirements of the state codes and standards. State inspection and acceptance for use of modular homes and premanufactured homes shall exclusively apply to the use and occupancy of such dwellings in the state and in any of its political subdivisions, subject to the requirements of local planning and zoning ordinances and ordinances requiring permits and inspections for foundations, electrical and mechanical hookups or other safety or sanitary requirements.

History: 1953 Comp., § 67-35-50, enacted by Laws 1967, ch. 199, § 50; 1972, ch. 11, § 3; 1973, ch. 259, § 15; 1975, ch. 331, § 20; 1977, ch. 245, § 204; 1989, ch. 6, § 36; 2011, ch. 129, § 2.

The 2011 amendment, effective June 17, 2011, eliminated the restriction that limited inspections by municipal inspectors only in localities where they were authorized to make inspections.

60-13-44. Trade bureaus; standards; conflicts.

A. The electrical bureau shall recommend to the commission minimum standards for the installation or use of electrical wiring. The recommendations shall substantially embody the applicable provisions of an electrical code for safety to life and property promulgated by a nationally recognized association and developed through an open, balanced consensus process.

B. The mechanical bureau shall recommend to the commission minimum standards for the installation of all fixtures, consumers' gas pipe, appliances and materials installed in the course of a mechanical installation. The recommendations shall be in substantial conformity with codes and standards that are developed through an open, balanced consensus process. Manufacturers may choose the independent certification organization they wish to certify their products if the certification organization is accredited by the American national standards institute or other accreditation organization selected by the commission.

C. The general construction bureau shall recommend to the commission minimum standards for the construction, alteration or repair of buildings, except for those activities within the jurisdiction of the electrical bureau or the mechanical bureau. The recommendations shall substantially embody the applicable provisions of a nationally recognized building code that is developed through an open, balanced consensus process and shall give due regard to physical, climatic and other conditions peculiar to New Mexico. The standards shall include the authority to permit or deny occupancy of existing and new buildings or structures and authority to accept or deny the use of materials manufactured within or without the state. The general construction bureau may set minimum fees or charges for conducting tests to verify claims or specifications of manufacturers.

D. The general construction bureau shall recommend to the commission additional specifications for any public building constructed in the state through expenditure of state, county or municipal funds, bonds and other revenues, which specifications shall embody standards making the building accessible to persons who have a physical disability, and the specifications shall conform substantially with those contained in a nationally recognized standard for making public facilities accessible to persons with a physical disability that is developed through an open, balanced consensus process. All orders and rules recommended by the general construction bureau and adopted by the commission under the provisions of this section shall be printed and distributed to all licensed contractors, architects and engineers and to the governor's commission on disability. The orders and rules shall take effect on a date fixed by the commission, which shall not be less than thirty days after their adoption by the commission, and shall have the force of law.

E. The general construction bureau shall have the right of review of all specifications of public buildings and the responsibility to ensure compliance with the adopted standards.

F. All political subdivisions of the state are subject to the provisions of codes adopted and approved under the Construction Industries Licensing Act. Such codes constitute a minimum requirement for the codes of political subdivisions.

G. The trade bureaus within their respective jurisdictions shall recommend to the commission standards that are developed through an open, balanced consensus process for the installation or use of electrical wiring, the installation of all fixtures, consumers' gas pipe, appliances and materials installed in the course of mechanical installation and the construction, alteration or repair of all buildings intended for use by persons with a physical disability or persons requiring special facilities to accommodate the aged. The recommendations shall give due regard to physical, climatic and other conditions peculiar to New Mexico.

H. The trade bureaus within their respective jurisdictions shall recommend to the commission standards for the construction, alteration, repair, use or occupancy of manufactured commercial units, modular homes and premanufactured homes. The recommendations shall substantially embody the applicable provisions or standards for the safety to life, health, welfare and property approved by the nationally recognized standards association and developed through an open, balanced consensus process and shall give due regard to physical, climatic and other conditions peculiar to New Mexico. Wherever existing state codes or standards conflict with the codes and standards adopted by the commission under the provisions of this subsection, the provisions of the applicable New Mexico building codes adopted pursuant to the Construction Industries Licensing Act and the LPG and CNG Act [70-5-2 NMSA 1978] in effect at the applicable time shall exclusively apply and control, except for codes and standards for mobile housing units.

I. Modular homes and premanufactured homes in existence at the time of the effective date of the Construction Industries Licensing Act shall have their use or occupancy continued if such use or occupancy was legal on the effective date of that act, provided such continued use or occupancy is not dangerous to life. Any change in the use or occupancy or any major alteration or repair of a modular home or premanufactured home shall comply with all codes and standards adopted under the Construction Industries Licensing Act.

J. The commission shall review all recommendations made under the provisions of this section and shall by rule adopt standards and codes that substantially comply with the requirements of this section that apply to the recommendations of the trade bureaus.

Compiler's notes. — The "effective date of the Construction Industries Licensing Act", referred to in the first sentence in Subsection I, is July 1, 1967.

The 2007 amendment, effective June 15, 2007, made non-substantive language changes.

The 2005 amendment, effective June 17, 2005, changed the reference in Subsection D from committee on concerns of the handicapped to the commission on disability; and provided in Subsection H that applicable New Mexico building codes adopted pursuant to the Construction Industries Licensing Act and the LPG and CNG Act in effect at the applicable time control over conflicting codes and standards.

The 2003 amendment, effective June 20, 2003, rewrote this section.

The 2000 amendment, effective May 17, 2000, added the last sentence in Subsection B, deleted "and regulations" from the phrase "rules and regulations" throughout Subsection D, changed the "New Mexico Uniform Plumbing Code" and the "New Mexico Natural Gas Code" to read the "New Mexico Plumbing Code" and the "Natural Gas Code of New Mexico" in Subsection H, and substituted "rule" for "regulation" in Subsection J.

ANNOTATIONS

Enforcement of state building code. — The construction industries division of the regulation and

licensing department has the authority to refuse to provide inspection services or certify local inspectors in municipalities that fail to adopt a building code that provides for minimum requirements of the state Uniform Building Code. The construction industries division has the authority to issue a stop work or similar order on a construction project authorized by a local jurisdiction that has adopted a building code that, while the code meets minimum standards set by the CID, differs from the building code adopted by CID. 2011 Op. Att'y Gen. No. 11-06.

Construction Industries Licensing Act authorizes adoption of a statewide code. 1968 Op. Att'y Gen. No. 68-119.

Political subdivisions, not state, included under section. — This section only extends provisions of the codes adopted pursuant to the Construction Industries Licensing Act to political subdivisions of the state; it does not include the state itself. 1970 Op. Att'y Gen. No. 70-38.

Powers of general construction board. — This section empowers general construction board to do anything necessary to ensure that public buildings conform to adopted codes. Requiring building permits and performing inspections are powers necessary to ensure this conformity. Insofar as Attorney General's Opinion No. 70-38 is inconsistent with this opinion, it is amended accordingly. 1974 Op. Att'y Gen. No. 74-10.

Electrical contractor formerly under jurisdiction of electrical board. — Trade which is within jurisdiction of the former electrical board is that of electrical contractor, that is, a person engaged in the installation of electrical wiring. 1969 Op. Att'y Gen. No. 69-51.

60-13-45. Trade bureaus; permits.

A. The trade bureaus within their respective jurisdictions may require a permit to be secured and conspicuously posted prior to any construction, installation, alteration, repair or addition to or within any building, structure or premises.

B. No permit shall be required for the performance of any of the following classes of work:

(1) minor repairs, replacement of lamps, the connection of portable electrical equipment to suitable receptacles which are permanently installed, minor repairs or replacement of or to faucets, taps or jets or connection of portable equipment to suitable connections or inlets which have been permanently installed;

(2) installation of temporary wiring for testing electrical equipment or apparatus or installation of temporary fixtures or devices for testing fixtures, equipment, apparatus or appliances;

(3) installation, alteration or repair of electrical equipment for the operation of signals or the transmission of intelligence by wire; and

(4) installation or work which is done after regular business hours or during a holiday when immediate action is imperative to safeguard life, health or property, provided the person making the installation or performing the work applies for a permit covering the installation or work not later than the next business day.

C. If a permit has been issued for construction of a new residential building, that residential building shall not be occupied until a certificate of occupancy has been issued certifying compliance with all codes and standards.

D. The commission shall make rules and regulations pertaining to the issuance of permits and the setting of reasonable fees to be paid by the applicant for a permit. The regulations shall provide a procedure for the issuance of permits outside the corporate limits of a municipality where inspection is made by a state inspector or a municipal inspector serving as a part-time state inspector and for inspections within a municipality where the inspection is done exclusively by a full-time state inspector. Each trade bureau by regulation may require a reasonable bond or surety in the penal sum of five hundred dollars (\$500) or more, but not to exceed fifteen hundred dollars (\$1,500), with such bureau named as obligee and conditioned for the payment of inspection fees provided in the Construction Industries Licensing Act [60-13-1 NMSA 1978]. Nothing in this section shall preclude municipalities from making inspections in accordance with the Construction Industries Licensing Act or rules and regulations pursuant to that act or from establishing a schedule of fees to be paid by an applicant for a permit.

E. In the event that the division assumes inspections of a municipal or county jurisdiction, the permit fees shall be paid directly to the division.

Recovery by plumber obtaining permit while work in progress. — Plaintiff, a licensed plumber who obtained permit while work was in progress, contrary to former version of statute which required that permit be obtained before job began, could recover for labor performed and materials furnished where defendant was not injured by delay and where former 67-22-11, 1953 Comp., was silent on effect of failure to apply for permit. *Measday v. Failure to adopt temporary or permanent CID program requirements. — The construction industries division of the regulation and licensing department does not have the authority to refuse inspection services to a local jurisdiction because the local jurisdiction failed

to adopt temporary or permanent CID program requirements for the approval of construction permits or inspection of construction projects, 2011 Op. Att'y Gen. No. 11-06.

"Permit" as used in this section refers to a "building permit" or "installation permit." 1969 Op. Att'y Gen. No. 69-72.

Municipalities and trade boards not given coextensive authority. — It is unreasonable to interpret this section as giving municipalities and trade boards coextensive authority to require permits and inspections within municipalities. That interpretation would produce the possibility that citizens of a municipality might have to obtain two permits and submit to double inspections for their construction work, which would be contrary to purposes of the Construction Industries Licensing Act, one of which is to eliminate duplication of inspections. 1974 Op. Att'y Gen. No. 74-13.

Construction Industries Licensing Act covers practically entire field of construction industry and leaves municipalities only the right to make inspections or rules and regulations pursuant thereto, and to establish a schedule of fees to be paid by applicant for a permit. 1969 Op. Att'y Gen. No. 69-72.

Right of municipality to both license and regulate resident and nonresident contractors has been taken away by

the comprehensive nature of the Construction Industries Licensing Act except in certain minor respects. 1969 Op. Att'y Gen. No. 69-72.

Municipality's power to tax contractors. — Legislature intended all occupations should be taxed under former Section 3-38-3 NMSA 1978, and the mere fact they are not included in suggested classifications which a municipality could choose to use does not prevent taxation of resident or nonresident contractors with a minimum tax of \$5.00 and a maximum of \$25.00 for an occupation license, unless municipality has issued a license to a contractor under any other law. 1969 Op. Att'y Gen. No. 69-72.

Municipality's power to enact rules, make inspections. — All municipalities have power to enact rules and regulations and make inspections pursuant to the Construction Industries Licensing Act, and charge for building or installation permits, but can add no requirements whatsoever thereto, except possibly as to character and quality of installations, and even this admits of some doubt, if the work passes state inspection. 1969 Op. 60-13-46. Trade bureaus; annual permits.

A. In lieu of an individual permit for each installation, alteration or repair, an annual permit shall be issued, upon application, to any person, commercial or industrial plant or enterprise, governmental agency or political subdivision of the state that regularly employs one or more certified journeymen for installation, alteration, maintenance or repair on premises owned or occupied by the applicant for the permit.

B. The application for an annual permit shall be in writing to the appropriate trade bureau in whose jurisdiction the work is to be done.

C. Annual permit holders shall keep a record of all work done under the annual permit, and the appropriate trade bureau or its authorized employees shall have access to the record.

D. A reasonable fee established by the division shall be paid for each annual permit at the time of issuance. Inspection fees shall be collected at the time of each regular inspection of installations, alterations or repairs made under the annual permit. Fees received by a bureau under this subsection shall be remitted to the division.

E. Annual permits expire one year from their date of issuance.

60-13-47. Trade bureaus; connection to installation.

A. Except where work is done under an annual permit, no public utility shall make a connection from a supply of water or gas to an installation for which a permit is required, or which has been disconnected or ordered to be disconnected by the trade bureau having jurisdiction, without the authorization of the trade bureau having jurisdiction.

B. The public utility may make a connection from a supply of water or gas to an installation under the following circumstances:

(1) if within seven days after notification to the appropriate trade bureau of the completion of any work or installation the bureau has failed to approve or disapprove the connection; or

(2) if an installation or work is not located in any territory where there is an authorized inspector; provided, however, before any such connection is made by the public utility, the public utility must have received a written statement from the licensee declaring that the installation or work conforms with the provisions of the Construction Industries Licensing Act [60-13-1 NMSA 1978] and the orders, rules and regulations, codes and minimum standards made pursuant to that act. The public utility shall immediately report to the proper trade bureau the receipt and contents of the statement. If it is discovered by the trade bureau that the declaration made in the statement is false, the trade bureau shall order the licensee making the statement to rectify the defects within five days after receipt of the written notice thereof from the bureau.

C. No public or municipally owned electric utility shall make a connection from a supply of electricity for which a permit is required without the approval of the electrical bureau or its authorized representative. In the event of an emergency, the electrical contractor shall issue a prefinal permit to the serving utility authorizing the service to be reconnected. The electrical contractor

shall report the emergency on the next working day to the electrical bureau or its authorized representative for inspection.

A. No applicant for a contractor's license or for renewal of a contractor's license shall be issued a license until the director determines that the applicant furnishes proof of responsibility pursuant to Subsection B of this section.

B. Proof of responsibility shall be a bond of ten thousand dollars (\$10,000) acceptable to the director and underwritten by a corporate surety authorized to transact business in New Mexico. Such bond shall meet the following conditions:

(1) payments from a bond required pursuant to this section shall only be used to cure code violations caused by a licensee, certified by the division and not corrected by the licensee. Claims against the bond shall be made within two years following final inspection by the governmental entity having jurisdiction over code enforcement or within two years of issuance of a certificate of occupancy for the construction project, whichever is earlier;

(2) the total aggregate liability of the surety for all claims shall be limited to the face amount of the bond;

(3) the bond carrier shall provide to the division and to the licensee thirty days' prior written notice of intent to cancel a bond required pursuant to this section. The surety for such a bond shall remain liable under the provisions of the bond for all obligations of the principal pertaining to bond terms that occur before the bond is canceled, expires or otherwise becomes ineffective;

(4) failure to maintain the bond for the period required by law is cause for revocation of the license; and

(5) if the bond is canceled, expires or otherwise becomes ineffective during the period of a license, the division shall notify the licensee that a new bond is required. If the licensee has not

provided proof of a new bond before the fortieth day after the date on which the bond was canceled, expired or otherwise became ineffective, the license shall be subject to revocation for failure of proof of responsibility.

Authority of committee. — Since the mobile home dealer and buyer had settled a dispute over return of a deposit through arbitration, the committee was estopped from ordering the dealer to return the deposit to the buyer based on the dealer's violation of a division regulation providing a time limit for return of deposits; the committee was only entitled to attach the dealer's consumer protection bond to the extent the buyer was damaged by delay in return of the deposit and require return of that amount; in addition, the committee could suspend the dealer's license for a violation of the regulation, but could not condition staying the suspension on return of the total deposit. *Rex,*

The 2017 amendment, effective June 16, 2017, replaced "hoisting" with "crane" throughout the section.

The 2013 amendment, effective July 1, 2013, provided for administrative, rather than civil and criminal, penalties; in the title, deleted, "Violations; criminal"; in Subsection A, between "A person who" and "engages in unlicensed", deleted language which provided that the operation of a crane without a license was a misdemeanor, and added the remainder of the sentence; in Subsection B, between "An employer" and "firm, partnership", deleted language which provided that knowingly allows an unlicensed person to operate hoisting equipment was a misdemeanor; and added the remainder of the sentence;

61-1-1. Short title.

Chapter 61, Article 1 NMSA 1978 may be cited as the "Uniform Licensing Act".

History: 1953 Comp., § 67-26-1, enacted by Laws 1957, ch. 247, § 1; 1971, ch. 54, § 1; 2021 (1st S.S.), ch. 3, § 7.

Compiler's notes. — Laws 2002, ch. 83, §§ 2 to 4 purported to enact new sections under the Uniform Licensing Act, but those sections were relocated to appear following the State Civil Emergency Preparedness Act, which is compiled as 12-10-1 to 12-10-10 NMSA 1978.

Cross references. — For State Rules Act, see 14-4-1 NMSA 1978 et seq.

For criminal offender employment, see 28-2-1 NMSA 1978.

For the Parental Responsibility Act, see 40-5A-1 NMSA 1978 et seq.

The 2021 (1st S.S.) amendment, effective June 29, 2021, changed "Sections 67-26-1 through 67-26-31 NMSA 1953" to "Chapter 61, Article 1 NMSA 1978".

ANNOTATIONS

Due process. — A regulation of the New Mexico board of psychologist examiners requiring an oral examination for reinstatement of a retiree's license was rationally related to a legitimate governmental purpose; however, the examination might not comply with due process, and, thus, an applicant for reinstatement was entitled to a hearing on the rational justification for the oral examination requirement. *Mills v. N.M. State Bd. of Psychologist Exam'rs*, 1997-NMSC-028, 123 N.M. 421, 941 P.2d 502.

Appeals. — Because the Uniform Licensing Act did not provide a retired psychologist with a basis for appealing a decision of the New Mexico board of psychologist examiners to require an oral examination for reinstatement of her license, she could request a writ of certiorari to obtain review of the board's alleged due process violations. *Mills v. N.M. State Bd. of Psychologist Exam'rs*, 1997-NMSC-028, 123 N.M. 421, 941 P.2d 502.

Revocation must be based on substantial evidence. — In administrative adjudications where a person's livelihood (a property right) is at stake, any action depriving a person of that property must be based upon such substantial evidence as would support a verdict in a court of law. *Young v. Board of Pharmacy*, 1969-NMSC-168, 81 N.M. 5, 462 P.2d 139.

Naked hearsay insufficient. — In proceedings to revoke a license to conduct a business or profession, where, by law, the licensee is entitled to a hearing before the licensing authority, revocation based solely upon hearsay evidence is unwarranted. *Young v. Board of Pharmacy*, 1969-NMSC-168, 81 N.M. 5, 462 P.2d 139.

License not revocable on grounds for original denial. — An administrative agency, having once issued a license to an applicant who has made full disclosure of all pertinent facts, may not revoke that same license for reasons that would not have permitted issuance of the license in the first instance. *Roberts v. State Bd. of Embalmers & Funeral Dirs.*, 1967-NMSC-257, 78 N.M. 536, 434 P.2d 61.

Barring fraud and misrepresentation and the existence of statutory authority, state may not revoke the license issued previously to party for the reason that party did not have two years of college training required by the statute when, in fact, at the time appellant granted the license to party, state knew that appellee did not have said college work but, nevertheless, proceeded to grant the license under a policy which, in effect, eliminated the college requirement. *Roberts v. State Bd. of Embalmers & Funeral Dirs.*, 1967-NMSC-257, 78 N.M. 536, 434 P.2d 61.

Specification of "unprofessional conduct" not required. — A board may suspend or revoke a license to practice a profession for "unprofessional conduct" without its being required to first specify by regulation or rule exactly what acts may be so considered. *Young v. Board of Pharmacy*, 1969-NMSC-168, 81 N.M. 5, 462 P.2d 139.

Preexisting account not required to receive funds. — No law or regulation of the New Mexico real estate commission requires a custodial, trust or escrow account prior to the receipt of funds appropriate for deposit in such account. *McCaughtry v. N.M. Real Estate Comm'n*, 1970-NMSC-143, 82 N.M. 116, 477 P.2d 292.

ANNOTATIONS

Sufficiency of notice and hearing determined under due process standards. — Because there is no precise statutory guideline for a proceeding under this section and due process requires adequate notice and a hearing before the state can take action seeking remuneration against a licensee, the sufficiency of the notice and hearing must be determined under a constitutional due process analysis. *Rex, Inc. v. Manufactured Hous. Comm.*, 2003-NMCA-134, 134 N.M. 533, 80 P.3d 470.

A constitutional due process analysis under this section must consider and balance three factors: (1) the private interest affected, (2) the risk of an erroneous deprivation of the interest with the procedures used, and (3) the government's interest, including the fiscal and administrative burdens of providing additional procedures. *Rex, Inc. v. Manufactured Hous. Comm.*, 2003-NMCA-134, 134 N.M. 533, 80 P.3d 470.

Due process requirements were satisfied where the notice of contemplated action cited the statute and the rules the committee relied upon in contemplating the attachment of the consumer bond, contained information about the actual bond, and outlined the general nature of the evidence, and where the licensee had a full and fair opportunity to be heard on the issue of whether collateral estoppel applied on the issues of misrepresentation and loss by the consumers. *Rex, Inc. v. Manufactured Hous. Comm.*, 2003-NMCA-134, 134 N.M. 533, 80 P.3d 470.

Charging board not disqualified in hearing on charge. — The board of medical examiners has exclusive jurisdiction of the granting and revoking of certificates admitting physicians and surgeons to practice and, in view of the absence of a provision for disqualification of board members, proceedings before the board may not be restrained merely by reason of the fact that the board itself initiated the proceedings against a physician and was, therefore, an interested party. *Seidenberg v. Authority of pharmacy board. — Subsection L grants the board of pharmacy authority to fine pharmacist licensees up to \$1,000.00 for any violation of the Pharmacy Act, Section 61-11-1 NMSA 1978 et seq., or for a violation of provisions of the board's rules and regulations for which the Pharmacy Act authorizes disciplinary action. Additionally, Subsection L grants the board authority to impose fines of the same amounts upon non-pharmacist registrants and licensees over whom the board has the power to impose other forms of discipline including license or registration revocation and suspension. As to persons over whom the board lacks such disciplinary powers under the Pharmacy Act, the Uniform Licensing Act does not grant the power to impose fines. 1995 Op. Att'y Gen. No. 95-01.

61-1-3.1. Limitations.

A. An action that would have any of the effects specified in Subsections D through N of Section 61-1-3 NMSA 1978 or an action related to unlicensed activity shall not be initiated by a board later than two years after the discovery by the board of the conduct that would be the basis for the action, except as provided in Subsection C of this section.

B. The time limitation contained in Subsection A of this section shall be tolled by any civil or criminal litigation in which the licensee or applicant is a party arising from substantially the same facts, conduct or transactions that would be the basis for the board's action.

C. The New Mexico state board of psychologist examiners shall not initiate an action that would result in any of the actions specified in Subsections D through N of Section 61-1-3 NMSA 1978 later than five years after the conduct of the psychologist or psychologist associate that is the basis for the action. However, if the conduct that is the basis for the action involves a minor or a person adjudicated incompetent, the action shall be initiated, in the case of a minor, no later than one year after the minor's eighteenth birthday or five years after the conduct, whichever is last and, in the case of a person adjudicated incompetent, one year after the adjudication of incompetence is terminated or five years after the conduct, whichever is last.

D. The New Mexico public accountancy board shall not initiate an action under the 1999 Public Accountancy Act [Chapter 61, Article 28B NMSA 1978] that would result in any of the actions specified in Subsections D through N of Section 61-1-3 NMSA 1978 later than two years following the discovery by the board of a violation of that act.

History: 1978 Comp., § 61-1-3.1, enacted by Laws 1981, ch. 349, § 3; 1989, ch. 41, § 1; 1992, ch. 10, § 27; 1993, ch. 218, § 40; 1993, ch. 295, § 4; 2003, ch. 334, § 1.

The 2003 amendment, effective July 1, 2003, in Subsection A, inserted "or an action related to unlicensed activity", "by the board" and substituted "Subsection C" for "Subsections C and D"; in Subsection D, inserted "1999" preceding "Public Accountancy Act".

The 1993 amendment, effective June 18, 1993, substituted "Subsections D through N" for "Subsection D, E or F" in Subsection A and the first sentence of Subsection C; inserted "the discovery of" in Subsection A; substituted "result in any of the actions" for "have any of the effects" in the first sentence of Subsection C; and rewrote Subsection D. This section was also amended by Laws 1993, ch. 218, § 40. The section is set out as amended by Laws 1993, ch. 295, § 4. See 12-1-8 NMSA 1978.

The 1992 amendment, effective May 20, 1992, substituted "Subsections C and D" for "Subsection C" in Subsection A, added Subsection D and made minor stylistic changes throughout the section.

The 1989 amendment, effective June 16, 1989, in Subsection A, substituted "Subsection D" for "Subsections D" and added "except as provided in Subsection C of this section"; in Subsection B deleted ", transaction" following "conduct"; and added Subsection C.

ANNOTATIONS

When limitation period began to run under the 1993 version of the statute. — The 1993 version of the two-year limitations began to run when the licensing

board discovered the conduct giving rise to a disciplinary action against a licensee, not when someone else, such as a complaining party, discovered the conduct. *N.M. Real Estate Comm'n v. Barger*, 2012-NMCA-081, 284 P.3d 1112.

Where a complaint was filed with the New Mexico real estate commission in October 2008 against the licensed real estate broker which alleged that the broker was guilty of ethical violations in connection with a real estate contract executed by a seller of real estate and the broker as buyer; the commission investigated the matter and, in May 2010, filed a notice of contemplated action against the broker threatening to revoke the broker's license; the notice of contemplated action was filed more than two years after the complaining party discovered the broker's alleged unethical conduct, but less than two years after the commission discovered the conduct; the 1993 version of the statute did not specify whose discovery of unethical conduct triggered the limitations period; and the 2003 amendment specified that discovery of the unethical conduct by the commission triggered the limitations period, the limitations period began to run under the 1993 version of the statute when the commission discovered the broker's conduct, not when the complaining party discovered the conduct. *N.M. Real Estate Comm'n v. Barger*, 2012-NMCA-081, 284 P.3d 1112.

When limitation period begins to run. — The limitation period of this section begins to run from the date of the licensee's culpable conduct. *Varoz v. N.M. Bd. of Podiatry*, 1986-NMSC-051, 104 N.M. 454, 722 P.2d 1176.

Criminal prosecution tolls statute. — The criminal prosecution of culpable conduct serves only to toll the

statute if litigation is commenced during the two-year period following the criminal act. *Varoz v. N.M. Bd. of Podiatry*, 1986-NMSC-051, 104 N.M. 454, 722 P.2d 1176.

If tolling applies, the limitation period is tolled from the time of indictment or information until the judgment of conviction has been entered, but no longer. *Varoz v. N.M. Bd. of Podiatry*, 1986-NMSC-051, 104 N.M. 454, 722 P.2d 1176.

Conviction is not "conduct". — Although the fact of conviction may provide a separate and independent basis for revoking a professional license, a conviction is not "conduct" within the meaning of this section and, therefore, the two-year limitation period begins to run from the time of the conduct, transaction or occurrence that underlies the conviction rather than from the date of conviction.

A. A person licensed pursuant to provisions of Chapter 61 NMSA 1978 shall not provide conversion therapy to any person under eighteen years of age. B. As used in this section:

(1) "conversion therapy" means any practice or treatment that seeks to change a person's sexual orientation or gender identity, including any effort to change behaviors or gender expressions or to eliminate or reduce sexual or romantic attractions or feelings toward persons of the same sex. 61-1-3.4. Fingerprints not required for license renewal.

When a professional or occupational board requires submission of fingerprints as part of the initial license application, and a licensee has provided fingerprints and the license has been issued, the board shall not require a licensee to submit fingerprints again to renew the license, but a licensee shall submit to a background investigation if required.

61-1-4. Notice of contemplated board action; request for hearing; notice of hearing.

A. When investigating complaints against licensees, a board may issue investigative subpoenas prior to the issuance of a notice of contemplated action as provided in this section.

B. When a board contemplates taking an action of a type specified in Subsection A, B or C of Section 61-1-3 NMSA 1978, it shall serve upon the applicant a written notice containing a statement:

(1) that the applicant has failed to satisfy the board of the applicant's qualifications to be examined or to be issued a license, as the case may be;

(2) indicating in what respects the applicant has failed to satisfy the board;

(3) that the applicant may secure a hearing before the board by depositing in the mail within twenty days after service of the notice a certified return receipt requested letter addressed to the board and containing a request for a hearing; and

(4) calling the applicant's attention to the applicant's rights under Section 61-1-8 NMSA 1978.

C. In a board proceeding to take an action of a type specified in Subsection A, B or C of Section 61-1-3 NMSA 1978, the burden of satisfying the board of the applicant's qualifications shall be upon the applicant.

D. When a board contemplates taking an action of a type specified in Subsections D through N of Section 61-1-3 NMSA 1978, it shall serve upon the licensee a written notice containing a statement:

(1) that the board has sufficient evidence that, if not rebutted or explained, will justify the board in taking the contemplated action;

(2) indicating the general nature of the evidence;

(3) that unless the licensee within twenty days after service of the notice deposits in the mail a certified return receipt requested letter addressed to the board and containing a request for a hearing, the board shall take the contemplated action; and

E. Except as provided in Section 61-1-15 NMSA 1978, if the licensee or applicant does not mail a request for a hearing within the time and in the manner required by this section, the board may take the action contemplated in the notice and such action shall be final and not subject to judicial review.

F. If the licensee or applicant does mail a request for a hearing as required by this section, the board shall, within twenty days of receipt of the request, notify the licensee or applicant of the time and place of hearing, the name of the person who shall conduct the hearing for the board and the statutes and rules authorizing the board to take the contemplated action. The hearing shall be held not more than sixty nor less than fifteen days from the date of service of the notice of hearing.

G. Licensees shall bear all costs of disciplinary proceedings unless they are excused by the board from paying all or part of the fees or if they prevail at the hearing and an action specified in Section 61-1-3 NMSA 1978 is not taken by the board.

H. All fines collected by a board shall be deposited to the credit of the current school fund as provided in Article 12, Section 4 of the constitution of New Mexico.

ANNOTATIONS

Guide to assessment of costs. — Rule 1-054 NMRA and Section 61-32-24(F) NMSA 1978 provide guidance to the board when considering a cost assessment, but neither provision is an exhaustive list of the types of costs that are assessable to a disciplined licensee and any costs that are not included in either provision are to be reviewed to determine whether the board acted fraudulently, arbitrarily or capriciously; whether assessment of the cost is supported by substantial evidence; and whether the board acted in accordance with law. *N.M. Bd. of Veterinary Med. v. Riegger*, 2007-NMSC-044, 142 N.M. 248, 164 P.3d 949.

Assessable costs. — Transcription costs, and if the board is the prevailing party, the costs of at least one expert witness, are assessable to a disciplined licensee. *N.M. Bd. of Veterinary Med. v. Riegger*, 2007-NMSC-044, 142 N.M. 248, 164 P.3d 949.

Non-assessable costs. — The hearing officer's costs, the cost of a hearing room and board member's per diem and mileage costs are not assessable to a disciplined licensee. *N.M. Bd. of Veterinary Med. v. Riegger*, 2007-NMSC-044, 142 N.M. 248, 164 P.3d 949.

Charging board not disqualified in hearing on charge. — The board of medical examiners has exclusive jurisdiction regarding the granting and revoking of certificates, admitting physicians and surgeons to practice and, in view of the fact that the statutes do not provide for disqualification of board members, proceedings before

Content of notice. — The "evidence" to be set out in the notice of contemplated action under this statute is the evidence of the ground or grounds to be relied upon in taking the contemplated action under former Section 61-5-14 NMSA 1978, not the evidence to be adduced by way of explanation and determination of rehabilitation under the Criminal Offender Employment Act, Section 28-2-1 NMSA 1978 et seq. *Weiss v. Notice of contemplated action sufficient. — The notice of contemplated action in this case was sufficient to provide the licensee with notice, even though it did not state that the qualifying party certificate was in jeopardy; the licensee knew the general nature of the proceedings against him and that is all that notice pleading requires. Further, the licensee waived the lack of notice issue by appearing at the administrative hearing and defending on the merits. *Oden v. Psychologist was afforded adequate notice that she might be questioned regarding what means she had used to assess her former patient's needs and potential for exploitation; the relevant board rules, which were quoted in the notice of contemplated action, provided that personal relationships with former clients could only be entered with "caution and deliberateness", which should be reflected by the psychologist considering issues such as the need for future treatment and the potential for exploitation of the client. *N.M. The notice of contemplated action was adequate where it cited the statute and the rules the committee relied upon in contemplating the attachment of the consumer bond, contained information about the actual bond, and outlined the general nature of the evidence. *Rex, Inc. v. The manufacturer was not prejudiced by the omission of the right to subpoena witnesses in the notice of contemplated action because the hearing was based upon the judgment and findings of the district court in an Unfair Practices Act action, and the manufacturer did not have the right to relitigate them. *Rex, Inc. v. Requirement of actual notice to licensee. — The Uniform Licensing Act requires actual notice to be given

to an individual who may lose a license, pursuant to the hearing requirements contained in the law. In that case, a public policy-making body which convenes a hearing on a licensing matter and which is subject to the provisions of the act must follow the act's specific notice tenets. In these cases, mere posting of such notice is insufficient as it affects the individual licensee. 1990 Op. Att'y Gen. No. 90-29.

Any notice required to be served by Section 61-1-4 or 61-1-21 NMSA 1978 and any decision required to be served by Section 61-1-14 or 61-1-21 NMSA 1978, may be served either personally or by certified mail, return receipt requested, directed to the licensee or applicant at his last known [known] address as shown by the records of the board. If the notice or decision is served personally, service shall be made in the same manner as is provided for service by the Rules of Civil Procedure for the District Courts. Where the notice or decision is served by certified mail, it shall be deemed to have been served on the date borne by the return receipt showing delivery or the last attempted delivery of the notice or decision to the addressee or refusal of the addressee to accept delivery of the notice or decision.

61-1-6. Venue of hearing.

Board hearings held under the Uniform Licensing Act shall be conducted in the county in which the person whose license is involved maintains his residence, or at the election of the board, in any county in which the act or acts complained of occurred; except that, in cases involving initial licensing, hearings shall be held in the county where the board maintains its office. In any case, however, the person whose license is involved and the board may agree that the hearing is to be held in some other county.

History: 1953 Comp., § 67-26-6, enacted by Laws 1957, ch. 247, § 6.

61-1-7. Hearing officers; hearings; public; exception; excusal; protection of witness and information.

A. All hearings under the Uniform Licensing Act shall be conducted either by the board or, at the election of the board, by a hearing officer who may be a member or employee of the board or any other person designated by the board in its discretion. A hearing officer shall, within thirty days after any hearing, submit to the board a report setting forth his findings of fact.

B. All hearings under the Uniform Licensing Act shall be open to the public, provided that in cases in which any constitutional right of privacy of an applicant or licensee may be irreparably

damaged, a board or hearing officer may hold a closed hearing if the board or hearing officer so desires and states the reasons for this decision in the record. The applicant or licensee may, for good cause shown, request a board or hearing officer to hold either a public or a closed hearing.

C. Each party may peremptorily excuse one board member or a hearing officer by filing with the board a notice of peremptory excusal at least twenty days prior to the date of the hearing, but this privilege of peremptory excusal may not be exercised in any case in which its exercise would result in less than a quorum of the board being able to hear or decide the matter. Any party may request that the board excuse a board member or a hearing officer for good cause by filing with the board a motion of excusal for cause at least twenty days prior to the date of the hearing. In any case in which a combination of peremptory excusals and excusals for good cause would result in less than a quorum of the board being able to hear or decide the matter, the peremptory excusals that would result in removing the member or members of the board necessary for a quorum shall not be effective.

D. In any case in which excusals for cause result in less than a quorum of the board being able to hear or decide the matter, the governor shall, upon request by the board, appoint as many temporary board members as are necessary for a quorum to hear or decide the matter. These temporary members shall have all of the qualifications required for permanent members of the board.

E. In any case in which excusals result in less than a quorum of the board being able to hear or decide the matter, the board, including any board members who have been excused, may designate a hearing officer to conduct the entire hearing.

F. Each board shall have power where a proceeding has been dismissed, either on the merits or otherwise, to relieve the applicant or licensee from any possible odium that may attach by reason of the proceeding, by such public exoneration as it shall see fit to make, if requested by the applicant or licensee to do so.

G. There shall be no liability on the part of and no action for damages against a person who provides information to a board in good faith and without malice in the reasonable belief that such information is accurate. A licensee who directly or through an agent intimidates, threatens, injures or takes any adverse action against a person for providing information to a board shall be subject to disciplinary action.

History: 1953 Comp., § 67-26-7, enacted by Laws 1957, ch. 247, § 7; 1981, ch. 349, § 6; 1993, ch. 295, § 5.

The 1993 amendment, effective June 18, 1993, substituted "excusal; protection of witness and information" for "disqualification" in the catchline; substituted "any constitutional right of privacy" for "the reputation" in the first sentence of Subsection B; rewrote Subsection C; substituted "excusals for cause" for "disqualifications" in the first sentence of Subsection D; substituted "excusals" for "disqualifications" and "excused" for "disqualified" in Subsection E; and added Subsection G.

ANNOTATIONS

Charging board not disqualified in licensing on charge. — The board of medical examiners has exclusive jurisdiction regarding the granting and revoking of certificates admitting physicians and surgeons to practice and, in view of the fact that the statutes do not provide for disqualification of board members, proceedings before the board may not be restrained merely by reason of the fact that the board itself initiated the proceedings against a physician and is

therefore an interested party. *Seidenberg v. N.M. Bd. of Med. Exam'rs*, 1969-NMSC-028, 80 N.M. 135, 452 P.2d 469.

Due process violated where hearing conducted by prejudiced tribunal. — Any utilization of this section which has the effect of allowing an administrative hearing, punitive in nature, to be conducted by a patently prejudiced tribunal must necessarily violate the due process provisions of the fifth and fourteenth amendments of the United States constitution and N.M. Const., art. II, § 18. *Reid v. N.M. Bd. of Exam'rs in Optometry*, 1979-NMSC-005, 92 N.M. 414, 589 P.2d 198.

61-1-8. Rights of person entitled to hearing.

A. A person entitled to be heard under the Uniform Licensing Act shall have the right to be represented by counsel or by a licensed member of his own profession or occupation, or both; to present all relevant evidence by means of witnesses and books, papers, documents and other evidence; to examine all opposing witnesses who appear on any matter relevant to the issues; and to have subpoenas and subpoenas duces tecum issued as of right prior to the commencement of the

hearing to compel discovery and the attendance of witnesses and the production of relevant books, papers, documents and other evidence upon making written request therefor to the board or hearing officer. The issuance of such subpoenas after the commencement of the hearing rests in the discretion of the board or the hearing officer. All notices issued pursuant to Section 61-1-4 NMSA 1978 shall contain a statement of these rights.

B. Upon written request to another party, any party is entitled to:

(1) obtain the names and addresses of witnesses who will or may be called by the other party to testify at the hearing; and

(2) inspect and copy any documents or items which the other party will or may introduce in evidence at the hearing.

The party to whom such a request is made shall comply with it within ten days after the mailing or delivery of the request. No such request shall be made less than fifteen days before the hearing.

C. Any party may take depositions after service of notice in accordance with the Rules of Civil Procedure for the District Courts. Depositions may be used as in proceedings governed by those rules.

61-1-9. Powers of board or hearing officer in connection with hearings.

A. In connection with any hearing held under the Uniform Licensing Act, the board or hearing officer shall have power to have counsel to develop the case; to subpoena, for purposes of discovery and of the hearing, witnesses and relevant books, papers, documents and other evidence; to administer oaths or affirmations to witnesses called to testify; to take testimony; to examine witnesses; and to direct a continuance of any case. Boards or hearing officers may also hold conferences before or during the hearing for the settlement or simplification of the issues but such settlement or simplification shall only be with the consent of the applicant or licensee.

B. Geographical limits upon the subpoena power shall be the same as if the board or hearing officer were a district court sitting at the location at which the hearing or discovery proceeding is to take place. The method of service, including tendering of witness and mileage fees, shall be the same as that under the Rules of Civil Procedure for the District Courts, except that those rules requiring the tender of fees in advance shall not apply to the state.

C. The board or hearing officer may impose any appropriate evidentiary sanction against a party who fails to provide discovery or to comply with a subpoena.

61-1-10. Enforcement of board orders and contempt procedure.

In proceedings before a board or hearing officer under the Uniform Licensing Act, if any person refuses to respond to a subpoena, or refuses to take the oath or affirmation as a witness or thereafter refuses to be examined, or refuses to obey any lawful order of a board contained in its decision rendered after hearing, the secretary of the board may apply to the district court of the county

where the proceedings are being held for an order directing that person to take the requisite action. The court may issue such order in its discretion. Should any person willfully fail to comply with an order so issued, the court shall punish him as for contempt.

History: 1953 Comp., § 67-26-10, enacted by Laws 1957, ch. 247, § 10; 1981, ch. 349, § 9.

61-1-11. Rules of evidence.

A. In proceedings held under the Uniform Licensing Act, boards and hearing officers may admit any evidence and may give probative effect to evidence that is of a kind commonly relied on by reasonably prudent people in the conduct of serious affairs. Boards and hearing officers may in their discretion exclude incompetent, irrelevant, immaterial and unduly repetitious evidence. In proceedings involving the suspension or revocation of a license, rules of privilege shall be applicable to the same extent as in proceedings before the courts of this state. Documentary evidence may be received in the form of copies or excerpts.

B. Boards and hearing officers may take notice of judicially cognizable facts and in addition may take notice of general, technical or scientific facts within their specialized knowledge. When any board or hearing officer takes notice of a fact, the applicant or licensee shall be notified either before or during the hearing of the fact so noticed and its source and shall be afforded an opportunity to contest the fact so noticed.

C. Boards and hearing officers may utilize their experience, technical competence and specialized knowledge in the evaluation of evidence presented to them.

History: 1953 Comp., § 67-26-11, enacted by Laws 1957, ch. 247, § 11; 1981, ch. 349, § 10.

Reliable evidence given probative effect. — Evidence of a kind commonly relied on by reasonably prudent men in the conduct of serious affairs may be given probative effect under this section. *Young v. Board of Pharmacy*, 1969-NMSC-168, 81 N.M. 5, 462 P.2d 139.

Necessity of expert testimony. — Expert testimony is not required to establish negligence or a failure to comply with the standards of professional conduct. A board is required to rely on substantial evidence in reaching its decision; while the court will defer to the board's expert interpretation of evidence, the court will not allow the board to take disciplinary action without substantial evidence in the record to justify the application of the board's expertise. *Gonzales v. N.M. Bd. of Chiropractic Exam'rs*, 1998-NMSC-021, 125 N.M. 418, 962 P.2d 1253.

Expert testimony was not required to support charges that a dentist submitted a false claim for reimbursement and that the dentist was guilty of unprofessional conduct and failed to practice dentistry in a professionally competent manner. Where the agency conducting the hearing is itself composed of experts qualified to make a judgment as to the licensee's adherence to standards of professional conduct, there is no need for the kind of assistance an expert provides in the form of an opinion. *Weiss v. N.M. Bd. of Dentistry*, 1990-NMSC-077, 110 N.M. 574, 798 P.2d 175.

Hearsay admissible. — This section clearly contemplates that a board may admit and consider hearsay evidence, if it is of a kind commonly relied upon by reasonably prudent men in the conduct of serious affairs. *In re Willoughby*, 1971-NMSC-040, 82 N.M. 443, 483 P.2d 498.

Reference to indictment. — Because an agency has wide discretion in receiving and excluding evidence in proceedings under the Uniform Licensing Act, any error in allowing reference to an indictment against a dentist was harmless. *Weiss v. Substantial evidence must support revocation. — The revocation or suspension of a license to conduct a business or profession must not be based solely upon hearsay evidence, as other legally competent evidence, together with the hearsay evidence, must substantially support the findings upon which the revocation or suspension is based. *In re Willoughby*, 1971-NMSC-040, 82 N.M. 443, 483 P.2d 498.

Higher burden to prove fraud. — If fraud is charged in an administrative proceeding, the evidence in support of a finding of fraud is not deemed substantial "if it is not clear, strong and convincing." *Seidenberg v. N.M. Bd. of Med. Exam'rs*, 1969-NMSC-028, 80 N.M. 135, 452 P.2d 469.

Special weight given to technical findings. — Courts may properly give special weight and credence to findings concerning technical or scientific matters by administrative bodies whose members, by education, training or experience, are especially qualified and are functioning within the perimeters of their expertise since legislative approval of the treatment of the findings of these boards is implicit in this section. *McDaniel v. 61-1-13. Decision.

A. After a hearing has been completed, the members of the board shall proceed to consider the case and as soon as practicable shall render their decision, provided that the decision shall be rendered by a quorum of the board. In cases in which the hearing is conducted by a hearing officer, all members who were not present throughout the hearing shall familiarize themselves with the record, including the hearing officer's report, before participating in the decision. In cases in which the hearing is conducted by the board, all members who were not present throughout the hearing shall thoroughly familiarize themselves with the entire record, including all evidence taken at the hearing, before participating in the decision.

B. A decision based on the hearing shall be made by a quorum of the board and signed by the person designated by the board within sixty days after the completion of the preparation of the record or submission of a hearing officer's report, whichever is later. In any case, the decision must be rendered and signed within ninety days after the hearing.

The 1993 amendment, effective June 18, 1993, in Subsection A, substituted "a quorum of the board" for "the board at a meeting where a majority of the members are present and participating in the decision" at the end of the first sentence; and made stylistic changes in the second and third sentences.

ANNOTATIONS

Standard of proof for a hearing under this section is by a preponderance of the evidence. *Foster v. Board of Dentistry*, 1986-NMSC-009, 103 N.M. 776, 714 P.2d 580.

Section requires that decision be made by majority of the members of the board. *McCaughtry v. N.M. Real Estate Comm'n*, 1970-NMSC-143, 82 N.M. 116, 477 P.2d 292.

The board is not required to give deference to a hearing officer's report. — Where the hearing officer was appointed to take evidence on a complaint that the dentist engaged in unprofessional conduct, the hearing officer found that the dentist had not engaged in unprofessional conduct and recommended that no disciplinary action be taken; the board reviewed the hearing officer's report and the evidence, and concluded that the dentist had engaged in unprofessional conduct; and the Uniform Licensing Act only permits the hearing officer to make findings, but not to make conclusions of law or recommendations regarding disciplinary action and requires the board to use its knowledge and expertise to make its own findings and conclusions, and to determine what disciplinary action is appropriate, the district court erred by concluding that the board acted arbitrarily and capriciously when it failed to defer to the hearing officer's report. *N.M.*

Bd. of Dental Health Care v. Jaime, 2013-NMCA-040, 296 P.3d 1261.

The 90-day time limit imposed by this section is expressly jurisdictional. Where the board fails to take action within the required 90-day period, its decision is void and must be reversed. *Lopez v. N.M. Bd. of Med. Exam'rs*, 1988-NMSC-039, 107 N.M. 145, 754 P.2d 522.

If a person who has requested a hearing does not appear, and no continuance has been granted, the board or hearing officer may hear the evidence of such witnesses as may have appeared, and the board may proceed to consider the matter and dispose of it on the basis of the evidence before it in the manner required by Section 61-1-13 NMSA 1978. Where because of accident, sickness or other cause a person fails to request a hearing or fails to appear for a hearing which he has requested, the person may within a reasonable time apply to the board to reopen the proceeding, and the board upon finding such cause sufficient shall immediately fix a time and place for hearing and give the person notice as required by Sections 61-1-4 and 61-1-5 NMSA 1978. At the time and place fixed, a hearing shall be held in the same manner as would have been employed if the person had appeared in response to the original notice of hearing.

The request shall be in writing and signed by the patient, and shall be retained in the patient's file for at least five years. If, after examination, the patient's prescription has not changed since the last examination and there are no ocular concerns, a licensed optometrist shall, upon request of the patient, provide the patient's replacement contact lens prescription to the patient without cost to the patient and without requiring the patient to purchase contact lenses.

D. In responding to a patient's request pursuant to Subsection C of this section, a licensed optometrist shall transmit the replacement contact lens prescription by mail, telephone, facsimile, e-mail or any other means of communication that will, under normal circumstances, result in the patient receiving the information within a reasonable time.

G. When a patient's prescription is dispensed by a person other than a licensed optometrist or a person associated directly or indirectly with the licensed optometrist, the licensed optometrist is not liable for any injury to or condition of a patient caused solely by the negligence of the dispenser.

H. A licensed optometrist who releases a replacement contact lens prescription to a patient may provide the patient with a written statement that wearing improperly fitted contact lenses may cause harm to the patient's eyes and that the patient should have an eye examination if there are any changes in the patient's vision, including pain or vision loss.

I. A licensed optometrist who fills or provides a contact lens prescription shall maintain a record of that prescription in accordance with rules promulgated by the board.

(3) the prescribing licensed optometrist has orally or in writing verified the valid, unexpired prescription to a seller designated by the patient to act on his behalf.

(1) a request for a verification shall be made by the seller to the prescribing licensed optometrist by facsimile, mail or telephone;

(2) if received between 9:00 a.m. and 5:00 p.m. on a working day, the prescribing licensed optometrist shall provide verification to the seller within three working days of receipt;

(3) if not received between 9:00 a.m. and 5:00 p.m. on a working day, the prescribing licensed optometrist shall provide verification to the seller within three working days after 9:00 a.m. of the next working day following receipt;

(4) in any case where the existence of a valid designation by the patient of a seller to act on the patient's behalf is in question, the prescriber shall promptly contact the patient to determine if a designation is in effect. Under no circumstances shall a non-response to a verification request be deemed to authorize, validate or confirm any prescription; and

(5) as used in this subsection, "working day" means any Saturday or Sunday that the office of the prescribing licensed optometrist is open and Monday through Friday but does not include a holiday.

O. A person who knowingly violates the provisions of Subsection L of this section is guilty of a fourth degree felony and shall be sentenced pursuant to Section 31-18-15 NMSA 1978.

The board of pharmacy shall promulgate rules to establish the application procedures for obtaining registration and may include a requirement for payment of a fee by the applicant, but the amount of the fee shall not exceed the costs of implementing the registration requirement. The board of pharmacy shall maintain a current list of all registered sellers and dispensers of contact lenses. A person who is not registered pursuant to this subsection and knowingly sells or dispenses a contact lens to a resident of this state is guilty of a misdemeanor and shall be sentenced pursuant to Section 31-19-1 NMSA 1978.

ANNOTATIONS

Constitutional basis for prohibitions against advertising. — Laws prohibiting price advertising and similar advertising by professional persons have as their constitutional basis the rationale that the state has such an interest in the health of its citizens that it may prevent advertising or price promulgation by professional individuals engaged in treating the human body or any part thereof. 1963-64 Op. (4) duplicating or replacing an ophthalmic lens without a current prescription not more than two years old or without a written authorization from the patient if the prescription is not available;

(5) except for licensed optometrists, using any trial lenses, trial frames, graduated test cards or other appliances or instruments for the purpose of examining the eyes or rendering assistance to anyone who desires to have an examination of the eyes, but it is not the intent of this paragraph to prevent a school nurse, schoolteacher or employee in public service from ascertaining the possible need of vision services, if the person, clinic or program does not attempt to diagnose or prescribe ophthalmic lenses for the eyes or recommend any particular practitioner or system of practice;

The 2003 amendment, effective June 20, 2003, re-wrote the section to the extent that a detailed comparison is impracticable.

ANNOTATIONS

Constitutionality of advertising restraints.

Subsection (m) of 67-7-13, 1953 Comp., prohibiting price advertising of eyeglasses, lenses and the like, did not impose a constitutionally prohibited burden upon interstate commerce, and was not preempted by federal legislation; nor did it constitute a deprivation of property in violation of the due process clause or a violation of the privileges and immunities clause of the fourteenth amendment. *Head v. N.M. Bd. of Exam'rs*, 374 U.S. 424, 83 S. Ct. 1759, 10 L. Ed. 2d 983 (1963).

Freedom of speech issue not decided. — Argument that injunction against a newspaper and radio station, prohibiting the accepting or publishing within New Mexico of a Texas optometrist's advertisement, constituted an invalid restraint upon freedom of speech protected by the fourteenth amendment was neither made to the state courts nor reserved in notice of appeal, and would not be considered by the supreme court. *Head v. N.M. Bd. of Exam'rs*, 374 U.S. 424, 83 S. Ct. 1759, 10 L. Ed. 2d 983 (1963).

Cable television system not "advertising". — Cable television system which did not sell advertising space, nor receive any compensation whatsoever from advertisers or broadcasters for the electronic service it performed, and was supported entirely by the sale of subscriptions to viewers, in return for which it performed the service of increasing the viewer's capacity to receive television signals, was not "advertising" within meaning of statute forbidding advertising of optometry and optometry services; neither did operators share a "community of purpose" with out-of-state optometrists or broadcasters sufficient to render them liable as accessories. *Midwest Video v. Campbell*, 1969-NMSC-034, 80 N.M. 116, 452 P.2d 185.

Fact that one consequence of the cable television systems' activities was to expose a number of New Mexicans to price advertising inducements to which they might not otherwise have been exposed was merely an incidental effect of an otherwise lawful activity, and did not, of itself, absent intention or purpose, make the activity "advertising." *Midwest Video v. Campbell*, 1969-NMSC-034, 80 N.M. 116, 452 P.2d 185.

Stay of federal proceedings pending state construction. — Former 67-7-13(m), 1953 Comp., which

forbade the advertising of prices or terms on eyeglasses, spectacles, etc., should have been exposed to state construction as to its application to the plaintiffs or limiting action before the federal courts were asked to pass on its constitutionality; therefore, proceedings challenging its validity before a three-judge federal district court would be stayed for a reasonable time pending state court interpretation of the statute. *Midwest Video Corp. v. Campbell*, 250 F. Supp. 158 (D.N.M. 1965).

(6) a vision screening performed by another provider otherwise authorized pursuant to state law.

F. As used in this section:

- (1) "autorefractor" means any electronic computer or automated testing device used remotely, in person or through any other communication interface to provide an objective or subjective measurement of an individual's refractive error;
- (2) "contact lens" means any lens placed directly on the surface of the eye, regardless of whether or not it is intended to correct a visual defect, including any cosmetic, therapeutic or corrective lens;

 - (c) does not consist of solely objective or subjective refractive data or information generated by an automated testing device, including an autorefractor or kiosk, in order to establish a medical diagnosis or for the determination of refractive error; and
 - (d) is performed on an individual who is physically located in this state at the time of the assessment;
- (4) "kiosk" means any automatic or electronic equipment, application or computer software designed to be used on a telephone, teleconference device, computer, virtual reality device or internet-based device that can be used remotely, in person or through any other communication interface to conduct an eye examination or determine refractive error;
- (5) "prescription" means an optometrist's or ophthalmologist's handwritten or electronic order for spectacle lenses or contact lenses based on an eye examination that corrects refractive error; and

"Spectacles" does not mean:
 - (a) an optical instrument or device that is not intended to correct or enhance vision or that does not require consideration of the visual status of the individual who will use the optical instrument or device; or
 - (b) eyewear that is sold without a prescription.

61-3-2. Purpose.

The purpose of the Nursing Practice Act is to promote, preserve and protect the public health, safety and welfare by regulating the practice of nursing, schools of nursing, hemodialysis technicians and medication aides in the state.

History: 1953 Comp., § 67-2-2, enacted by Laws 1968, ch. 44, § 2; 1991, ch. 190, § 1; 2001, ch. 137, § 1.

The 2001 amendment, effective June 15, 2001, inserted "hemodialysis technicians and medication aides".

The 1991 amendment, effective June 14, 1991, substituted "promote, preserve and protect the public health, safety and welfare" for "safeguard life and health and to promote the public welfare" and made a minor stylistic change.

ANNOTATIONS

Requiring nurse to "float" not unlawful or serious misconduct. — A hospital's "floating" policy is not necessarily something that "public policy would condemn." Therefore, requiring a nurse to "float" is not the kind of unlawful or serious misconduct for which recognition of the tort of wrongful discharge was intended. *Francis v. Memorial Gen. Hosp.*, 1986-NMSC-072, 104 N.M. 698, 726 P.2d 852.

"Nurse Licensure Compact

ARTICLE 1 – Findings and Declaration of Purpose

A. The party states find that:

(1) the health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

(2) violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

(3) the expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

(4) new practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

(5) the current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and

(6) uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

B. The general purposes of this compact are to:

(1) facilitate the states' responsibility to protect the public's health and safety;

- (2) ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;
- (3) facilitate the exchange of information between party states in the areas of nurse regulation, investigation and adverse actions;

- (6) decrease redundancies in the consideration and issuance of nurse licenses; and
- (7) provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

ARTICLE 2 – Definitions

As used in this compact:

 - (2) investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond;
- F. "encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board;

P. "state" means a state, territory or possession of the United States and the District of Columbia; and

Q. "state practice laws" means a party state's laws, rules and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. "State practice laws" do not include requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

ARTICLE 3 – General Provisions and Jurisdiction

A. A multistate license to practice registered or licensed practical or vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical or vocational nurse, under a multistate licensure privilege, in each party state.

B. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.

C. For an applicant to obtain or retain a multistate license in the home state, each party state shall require that the applicant:

(1) meets the home state's qualifications for licensure or renewal of licensure as well as all other applicable state laws;

(2) has graduated:

(a) or is eligible to graduate from a licensing board-approved registered nurse or licensed practical or vocational nurse prelicensure education program; or

(b) from a foreign registered nurse or licensed practical or vocational nurse prelicensure education program that: 1) has been approved by the authorized accrediting body in the applicable country; and 2) has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program;

(3) has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the applicant's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing and listening;

(4) has successfully passed a national council licensure examination for registered nurses or a national council licensure examination for practical or vocational nurses given by the national council of state boards of nursing or an exam given by a recognized predecessor or successor organization, as applicable;

(5) is eligible for or holds an active, unencumbered license;

(6) has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records;

(7) has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law;

(8) has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;

(9) is not currently enrolled in an alternative program;

(10) is subject to self-disclosure requirements regarding current participation in an alternative program; and

(11) has a valid United States social security number.

D. All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation or any other action that affects a nurse's authorization to practice under a multistate

licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

E. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts and the laws of the party state in which the client is located at the time service is provided.

F. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this compact shall affect the requirements established by a party state for the issuance of a single-state license.

G. Any nurse holding a home state multistate license, on the effective date of this compact, may retain and renew the multistate license issued by the nurse's then-current home state, provided that a nurse who:

(1) changes primary state of residence after this compact's effective date must meet all applicable requirements of Subsection C of Article 3 of the Nurse Licensure Compact to obtain a multistate license from a new home state; or

(2) fails to satisfy the multistate licensure requirements in Subsection C of Article 3 of the Nurse Licensure Compact due to a disqualifying event occurring after this compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the commission.

ARTICLE 4 – Applications for Licensure in a Party State

A. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

B. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

C. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the commission.

(1) The nurse may apply for licensure in advance of a change in primary state of residence.

(2) A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

D. If a nurse changes primary state of residence by moving from a party state to a non-party state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

ARTICLE 5 – Additional Authorities Invested in Party State Licensing Boards

A. In addition to the other powers conferred by state law, a licensing board shall have the authority to:

(1) take adverse action against a nurse's multistate licensure privilege to practice within that party state; provided that:

(a) only the home state shall have the power to take adverse action against a nurse's license issued by the home state; and

(b) for purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action;

(2) issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state;

(3) complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions;

(4) issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence are located;

(5) obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the federal bureau of investigation for criminal background checks, receive the results of the federal bureau of investigation record search on criminal background checks and use the results in making licensure decisions;

(6) if otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse; and

(7) take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

B. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

C. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

ARTICLE 6 – Coordinated Licensure Information System and Exchange of Information

A. All party states shall participate in a coordinated licensure information system of all licensed registered nurses and licensed practical or vocational nurses. This system will include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

B. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection and exchange of information under this compact.

C. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications (with the reasons for such denials) and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

D. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

E. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with non-party states or disclosed to other entities or individuals without the express permission of the contributing state.

F. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with non-party states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

G. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

H. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which shall include, at a minimum:

- (1) identifying information;
- (2) licensure data;
- (3) information related to alternative program participation; and
- (4) other information that may facilitate the administration of this compact, as determined by commission rules.

I. The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

ARTICLE 7 – Establishment of the Interstate Commission of Nurse Licensure Compact Administrators

A. The party states hereby create and establish a joint public entity known as the Interstate Commission of Nurse Licensure Compact Administrators.

- (1) The commission is an instrumentality of the party states.
- (2) Venue is proper, and judicial proceedings by or against the commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.
- (3) Nothing in this compact shall be construed to be a waiver of sovereign immunity.

B. Membership, Voting and Meetings

(1) Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

(2) Each administrator shall be entitled to one vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

(3) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the commission.

(4) All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in Article 8 of the Nurse Licensure Compact.

(5) The commission may convene in a closed, nonpublic meeting if the commission must discuss:

- (a) noncompliance of a party state with its obligations under this compact;

(b) the employment, compensation, discipline or other personnel matters, practices or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(c) current, threatened or reasonably anticipated litigation;

(d) negotiation of contracts for the purchase or sale of goods, services or real estate;

(e) accusing any person of a crime or formally censuring any person;

(f) disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(g) disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(h) disclosure of investigatory records compiled for law enforcement purposes;

(i) disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact; or

(j) matters specifically exempted from disclosure by federal or state statute.

(6) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

C. The commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including but not limited to:

(1) establishing the fiscal year of the commission;

(2) providing reasonable standards and procedures:

(a) for the establishment and meetings of other committees; and

(b) governing any general or specific delegation of any authority or function of the commission;

(3) providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;

(4) establishing the titles, duties and authority and reasonable procedures for the election of the officers of the commission;

(5) providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the commission; and

(6) providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of this compact after the payment or reserving of all of its debts and obligations.

D. The commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the website of the commission.

E. The commission shall maintain its financial records in accordance with the bylaws.

F. The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

G. The commission shall have the following powers:

(1) to promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules shall have the force and effect of law and shall be binding in all party states;

(2) to bring and prosecute legal proceedings or actions in the name of the commission, provided that the standing of any licensing board to sue or be sued under applicable law shall not be affected;

(3) to purchase and maintain insurance and bonds;

(4) to borrow, accept or contract for services of personnel, including but not limited to employees of a party state or nonprofit organizations;

(5) to cooperate with other organizations that administer state compacts related to the regulation of nursing, including but not limited to sharing administrative or staff expenses, office space or other resources;

(6) to hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel and other related personnel matters;

(7) to accept any and all appropriate donations, grants and gifts of money, equipment, supplies, materials and services, and to receive, utilize and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest;

(8) to lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve or use, any property, whether real, personal or mixed; provided that at all times the commission shall avoid any appearance of impropriety;

(9) to sell, convey, mortgage, pledge, lease, exchange, abandon or otherwise dispose of any property, whether real, personal or mixed;

(10) to establish a budget and make expenditures;

(11) to borrow money;

(12) to appoint committees, including advisory committees comprised of administrators, state nursing regulators, state legislators or their representatives, consumer representatives, and other such interested persons;

(13) to provide and receive information from, and to cooperate with, law enforcement agencies;

(14) to adopt and use an official seal; and

(15) to perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.

H. Financing of the Commission

(1) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization and ongoing activities.

(2) The commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states.

(3) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the party states, except by, and with the authority of, such party state.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

I. Qualified Immunity, Defense and Indemnification

(1) The administrators, officers, executive director, employees and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error or omission that occurred, or that the person

against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury or liability caused by the intentional, willful or wanton misconduct of that person.

(2) The commission shall defend any administrator, officer, executive director, employee or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining his or her own counsel; and provided further that the actual or alleged act, error or omission did not result from that person's intentional, willful or wanton misconduct.

(3) The commission shall indemnify and hold harmless any administrator, officer, executive director, employee or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error or omission that occurred within the scope of commission employment, duties or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities, provided that the actual or alleged act, error or omission did not result from the intentional, willful or wanton misconduct of that person.

ARTICLE 8 – Rulemaking

A. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this compact.

B. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.

C. Prior to promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

(1) on the website of the commission; and

(2) on the website of each licensing board or the publication in which each state would otherwise publish proposed rules.

D. The notice of proposed rulemaking shall include:

(1) the proposed time, date and location of the meeting in which the rule will be considered and voted upon;

(2) the text of the proposed rule or amendment, and the reason for the proposed rule;

(3) a request for comments on the proposed rule from any interested person; and

(4) the manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

E. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions and arguments, which shall be made available to the public.

F. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

G. The commission shall publish the place, time and date of the scheduled public hearing.

(1) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

(2) Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

H. If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

I. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

J. The commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

K. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing, provided that the usual rulemaking procedures provided in this compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

- (1) meet an imminent threat to public health, safety or welfare;
- (2) prevent a loss of commission or party state funds; or
- (3) meet a deadline for the promulgation of an administrative rule that is required by

federal law or rule.

L. The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the commission, prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

ARTICLE 9 – Oversight, Dispute Resolution and Enforcement

A. Oversight

(1) Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.

(2) The commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities or actions of the commission, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the commission shall render a judgment or order void as to the commission, this compact or promulgated rules.

B. Default, Technical Assistance and Termination

(1) If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(a) provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default or any other action to be taken by the commission; and

(b) provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

(4) A state whose membership in this compact has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district in which the commission

has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

C. Dispute Resolution

(1) Upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and non-party states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

(3) In the event the commission cannot resolve disputes among party states arising under this compact:

(a) the party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute; and

(b) the decision of a majority of the arbitrators shall be final and binding.

D. Enforcement

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

ARTICLE 10 – Effective Date, Withdrawal and Amendment

A. This compact shall become effective and binding on the earlier of the date of legislative enactment of this compact into law by no less than twenty-six states or December 31, 2018. All party states to this compact that were parties to the prior compact shall be deemed to have withdrawn from the prior compact within six months after the effective date of this compact.

B. Each party state to this compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the prior compact until such party state has withdrawn from the prior compact.

C. Any party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six months after enactment of the repealing statute.

D. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

E. Nothing contained in this compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a non-party state that is made in accordance with the other provisions of this compact.

F. This compact may be amended by the party states. No amendment to this compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

G. Representatives of non-party states to this compact shall be invited to participate in the activities of the commission, on a nonvoting basis, prior to the adoption of this compact by all states.

ARTICLE 11 – Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision of this

61-3-29.1. Diversion program created; advisory committee; renewal fee; requirements; immunity from civil actions.

A. The board shall establish a diversion program to rehabilitate nurses whose competencies may be impaired because of the abuse of drugs or alcohol so that nurses can be treated and returned to or continue the practice of nursing in a manner that will benefit the public. The intent of the diversion program is to develop a voluntary alternative to traditional disciplinary actions and an alternative to lengthy and costly investigations and administrative proceedings against such nurses, at the same time providing adequate safeguards for the public.

B. The board shall appoint one or more evaluation committees, hereinafter called "regional advisory committees", each of which shall be composed of members with expertise in chemical dependency. At least one member shall be a registered nurse. No current member of the board shall be appointed to a regional advisory committee. The executive officer of the board or the executive officer's designee shall be the liaison between each regional advisory committee and the board.

C. Each regional advisory committee shall function under the direction of the board and in accordance with regulations of the board. The regulations shall include directions to a regional advisory committee to:

- (1) establish criteria for continuance in the program;
- (2) develop a written diversion program contract to be approved by the board that sets forth the requirements that shall be met by the nurse and the conditions under which the diversion program may be successfully completed or terminated;

- (6) submit an annual report to the board; and
- (7) coordinate educational programs and research related to chemically dependent nurses.

D. The board may increase the renewal fee for each nurse in the state not to exceed twenty dollars (\$20.00) for the purpose of implementing and maintaining the diversion program.

E. Files of nurses in the diversion program shall be maintained in the board office and shall be confidential except as required to be disclosed pursuant to the Nurse Licensure Compact, when used to make a report to the board concerning a nurse who is not cooperating and complying with the diversion program contract or, with written consent of a nurse, when used for research purposes as long as the nurse is not specifically identified. However, the files shall be subject to discovery or subpoena. The confidential provisions of this subsection are of no effect if the nurse admitted to the diversion program leaves the state prior to the completion of the program.

F. A person making a report to the board or to a regional advisory committee regarding a nurse suspected of practicing nursing while habitually intemperate or addicted to the use of habit-forming drugs or making a report of a nurse's progress or lack of progress in rehabilitation shall be immune from civil action for defamation or other cause of action resulting from such reports if the reports are made in good faith and with some reasonable basis in fact.

G. A person admitted to the diversion program for chemically dependent nurses who fails to comply with the provisions of this section or with the rules and regulations adopted by the board pursuant to this section or with the written diversion program contract or with any amendments to the written diversion program contract may be subject to disciplinary action in accordance with Section 61-3-28 NMSA 1978.

A. "assignment" means the designated responsibility for the provision or supervision of nursing care for a defined work period in a defined work setting, including the specified functions, duties, practitioner orders, supervisory directives and amount of work designated as an individual nurse's responsibility; provided that changes in a nurse's assignment may occur at any time during the work period;

B. "good faith" means taking action supported by a sincere belief with a reasonable factual or legal basis other than the nurse's moral, religious or personal beliefs;

C. "health care facility" means an entity licensed by the department of health that provides health care on its premises and has three or more nurses;

D. "nurse" means a nurse licensed pursuant to the Nursing Practice Act [Chapter 61, Article 3 NMSA 1978] as a registered nurse or a licensed practical nurse; and

E. "safe harbor" means a process that:

(1) protects a registered nurse or a licensed practical nurse from adverse action by the health care facility where the nurse is working when the nurse makes a good faith request to be allowed to reject an assignment, which request is based on the nurse's:

(a) assessment of the nurse's own education, knowledge, competence or experience;

and

(b) immediate assessment of the risk for patient safety or potential violation of the Nursing Practice Act or board of nursing rules; and

(2) provides for further assessment of the situation.

IV, § 23, was effective June 14, 2019, 90 days after the adjournment of the legislature.

61-3A-3. Safe harbor; health care facility responsibility.

A. A nurse may invoke safe harbor when:

(1) in the nurse's good faith judgment, the nurse lacks the basic knowledge, skills or abilities necessary to deliver nursing care that is safe and that meets the minimum standards of care to such an extent that accepting the assignment would expose one or more patients to an unjustifiable risk of harm or would constitute a violation of the Nursing Practice Act [Chapter 61, Article 3 NMSA 1978] or board of nursing rules; or

(2) the nurse questions the medical reasonableness of another health care provider's order that the nurse is required to execute.

B. A nurse who intends to invoke safe harbor shall invoke it before the nurse engages in conduct or an assignment giving rise to the nurse's request for safe harbor. A nurse may also invoke safe harbor at any time during the work period, when an initial assignment changes and, in the nurse's good faith judgment, the change creates a situation that comports with the requirements for invoking safe harbor pursuant to Subsection A of this section. A health care facility shall develop a process by which a nurse employed or contracted by that facility may invoke safe harbor.

C. A safe harbor process shall include:

(1) notification to all nurses on staff as to how safe harbor may be invoked;

(2) notification by the nurse to the nurse's supervisor that the nurse is invoking safe harbor;

(3) written documentation with the date, time and location of the invocation of safe harbor and the reason for invocation, signed by the supervisor and the nurse;

(4) a post-occurrence review of the situation that:

(a) includes at least one other staff nurse and nurse manager, as the health care facility defines those roles; and

(b) is used to determine whether additional action is required to minimize the likelihood of similar situations in the future; and

(5) documentation of the resolution and review of the matter in which safe harbor was invoked.

D. A health care facility shall not retaliate against, demote, suspend, terminate, discipline, discriminate against or report any action to the board of nursing when a nurse makes a good faith request for safe harbor.

J. The board may recover the costs associated with the investigation and disposition of a disciplinary proceeding from the person who is the subject of the proceeding.

B. Applicants for a general license to practice dentistry by examination shall be required, in addition to the requirements set forth in Subsection A of this section, to pass a test covering the laws and rules for the practice of dentistry in New Mexico. These examinations shall include examinations offered by the central regional dental testing service, northeast regional board of dental examiners, southern regional testing agency or western regional examining board or any other comparable practical clinical examination the board approves; provided, however, that the board may disapprove any examination after it considers compelling evidence to support disapproval. The applicant shall have a postgraduate degree or certificate from an accredited dental college, school of dentistry of a university or other residency program that is accredited by the commission on dental accreditation in one of the specialty areas of dentistry recognized by the American dental association. The applicant shall also meet all other requirements as established by rules of the board, which shall include an examination covering the laws and rules of the practice of dentistry in New Mexico. A specialty license limits the licensee to practice only in that specialty area.

F. The board may issue a specialty license, by credentials, without a practical or clinical examination to an applicant who is duly licensed by a clinical examination as a dentist under the laws of another state or territory of the United States and who has a postgraduate degree or certificate from an accredited dental college, school of dentistry of a university or other residency program that

is accredited by the commission on dental accreditation in one of the specialty areas of dentistry recognized by the American dental association; provided that license is active and that all dental licenses that individual possesses have been in good standing for five years prior to application. ANNOTATIONS

Burden of proof for suspension of license. — The standard of proof utilized by the former board of dentistry in determining that a dentist's license should be suspended was a preponderance of the evidence. *Foster v. Board of Dentistry*, 1986-NMSC-009, 103 N.M. 776, 714 P.2d 580.

Conviction as sufficient basis for revocation. — Since a dentist was convicted of four counts of making or permitting a false claim for reimbursement for public assistance services, a conviction itself, as distinguished from the underlying conduct, is a sufficient basis for revoking a dental license. *Weiss v. Standard for use of conviction to revoke license. — In order for a conviction to be used as a basis for a license revocation, the licensing agency must explicitly state its reasons for a decision prohibiting the licensee from engaging in his or her employment or profession, and the agency must find that the licensee has not been sufficiently rehabilitated to warrant the public trust and must give reasons for this finding. *Weiss v. 61-5B-8. Proceedings. (Repealed effective July 1, 2024.)

A. The board may formally proceed against a licensee under the Impaired Dentists and Dental Hygienists Act in accordance with the procedures contained in the Uniform Licensing Act [61-1-1 through 61-1-31 NMSA 1978].

B. When the licensee being considered for action is a dental hygienist, the board shall act upon recommendation of the dental hygienists committee on all aspects of procedures in the Impaired Dentists and Dental Hygienists Act.

C. At the conclusion of the hearing, the board or the dental hygienists committee shall make the following findings:

- (1) whether or not the licensee is impaired by one of the grounds for restriction, suspension or revocation listed herein;
- (2) whether or not such impairment does in fact limit the ability of the licensee to practice dentistry or dental hygiene skillfully and safely;
- (3) to what extent such impairment limits the ability of the licensee to practice dentistry or dental hygiene skillfully and safely and whether the board or dental hygienists committee finds that such impairment is such that the license should be suspended, revoked or restricted in the licensee's practice of dentistry or dental hygiene; and
- (4) if the finding recommends suspension or restriction of the ability of the licensee to practice dentistry or dental hygiene, then the board shall make specific recommendations as to the length and nature of the suspension or restriction and shall recommend how such suspension or restriction shall be carried out and supervised.

D. At the conclusion of the hearing, the board or the dental hygienists committee shall make a determination of the merits and may order one or more of the following:

- (1) placement of the licensee on probation on such terms and conditions as it deems proper for the protection of the public;
- (2) suspension or restriction of the license of the licensee to practice dentistry or dental hygiene for the duration of the licensee's impairment;
- (3) revocation of the license of the licensee to practice dentistry or dental hygiene; or
- (4) reinstatement of the license of the licensee to practice dentistry or dental hygiene without restriction.

E. The board may temporarily suspend the license of any licensee without a hearing, simultaneously with the institution of proceedings under the Uniform Licensing Act, if it finds that the evidence in support of the determination of the examining committee is clear and convincing and that continuation in practice would constitute an imminent danger to public health and safety.

F. Neither the record of the proceeding nor any order entered against a licensee may be used against the licensee in any other legal proceeding except upon judicial review.

History: Laws 1994, ch. 55, § 37.

B. The petition shall be made in writing. If the licensee is a dental hygienist, the dental hygienists committee shall be advised and given all information so that their recommendation can be given to the board.

C. Action of the board on the petition shall be initiated by referral to and examination by the examining committee.

B. The fund shall be initially established by an assessment to all licensees as determined by the board and the dental hygienists committee.

C. All funds received by the board for an impaired assessment, either special or at time of relicensure, shall be deposited with the state treasurer. The state treasurer shall credit this money to the impaired dentists and dental hygienists fund.

D. Payments out of the fund shall be on vouchers issued and signed by the secretary-treasurer of the board upon warrants drawn by the department of finance and administration in accordance with the responsibilities of the board as approved by that department.

All money unused at the end of any fiscal year shall remain in the fund for use in accordance with provisions of the Impaired Dentists and Dental Hygienists Act.

F. Licensees shall be assessed an impaired fee at the time of renewal. The amount of the fee shall be determined by the board and the committee and shall be established to meet the need for enforcing the Impaired Dentists and Dental Hygienists Act.

G. The fund shall be used for the purpose of administration, testing, monitoring, hearings and consultation fees by the board or dental hygienists committee or their agent, which are necessary to enforce the Impaired Dentists and Dental Hygienists Act. 61-6-1. Short title; purpose.

- A. Chapter 61, Article 6 NMSA 1978 may be cited as the "Medical Practice Act".

B. In the interest of the public health, safety and welfare and to protect the public from the improper, unprofessional, incompetent and unlawful practice of medicine, it is necessary to provide laws and rules controlling the granting and use of the privilege to practice medicine and to establish a medical board to implement and enforce the laws and rules.

C. The primary duties and obligations of the medical board are to issue licenses to qualified health care practitioners, including physicians, physician assistants and anesthesiologist assistants, to discipline incompetent or unprofessional physicians, physician assistants or anesthesiologist assistants and to aid in the rehabilitation of impaired physicians, physician assistants and anesthesiologist assistants for the purpose of protecting the public.

History: 1978 Comp., § 61-6-1, enacted by Laws 1989, ch. 269, § 1; 2003, ch. 19, § 1; 2021, ch. 54, § 16.

Recompilations. — Laws 1989, ch. 269, § 2 recompiled former 61-6-1 NMSA 1978, relating to appointment, qualifications and terms of board of medical examiners, as 61-6-2 NMSA 1978, effective July 1, 1989.

Cross references. — For Sexual Assault Survivors Emergency Care Act, see 24-10D-1 NMSA 1978 et seq.

The 2021 amendment, effective June 18, 2021, in Subsection C, after "qualified", added "health care practitioners, including".

The 2003 amendment, effective June 20, 2003, substituted "medical board" for "board of medical examiners" in Subsections B and C; in Subsection C, inserted "anesthesiologist assistants" three times and deleted "to register qualified" preceding "physician assistants".

ANNOTATIONS

License requirement does not violate first amendment rights. — The Medical Practice Act does not purport to regulate the expression of ideas or opinions concerning effective treatments or other issues of public concern, nor does it require all speakers at seminars held in New Mexico to be licensed to practice in New Mexico. The act simply

requires those who engage in conduct in New Mexico that amounts to the practice of medicine to obtain a New Mexico license. Thus, any burden on the exercise of first amendment rights is at best minimal and incidental, and the act leaves open alternative channels of communication through which ideas and opinions can be expressed. *State v. Ongley*, 1994-NMCA-073, 118 N.M. 431, 882 P.2d 22.

61-6-2. New Mexico medical board; appointment; terms; qualifications.

A. There is created the "New Mexico medical board", consisting of eleven members. The board shall be composed of two public members, one physician assistant and eight reputable physicians, at least two of whom shall be osteopathic physicians and at least two of whom shall be medical physicians. The osteopathic physicians and the medical physicians shall be of known ability, shall be graduates of medical colleges or schools in good standing and shall have been licensed physicians in and bona fide residents of New Mexico for a period of five years immediately preceding the date of their appointment. The physician assistant shall have been a licensed physician assistant and a resident of New Mexico for at least five years immediately preceding the date of appointment. Public members of the board shall be residents of New Mexico, shall not have been licensed by the board as a health care practitioner over which the board has licensure authority and shall have no significant financial interest, direct or indirect, in the occupation regulated.

B. The governor shall appoint the medical physician members from a list of names submitted to the governor by the New Mexico medical society or its authorized governing body or council. The list shall contain five names of qualified medical physicians for each medical physician member to be appointed. Medical physician member vacancies shall be filled in the same manner.

C. D. The governor shall appoint the physician assistant member from a list of names submitted to the governor by the New Mexico academy of physician assistants or its authorized governing body or council. The list shall contain five names of qualified physician assistants.

E. Members shall be appointed to four-year terms, staggered so that not more than three terms expire in a year. All board members shall hold office until their successors are appointed.

Compiler's notes. — Laws 1989, ch. 269, § 32 repealed former 61-6-2 NMSA 1978, as amended by Laws 1955, ch. 44, § 1, relating to meetings and quorums of the board, effective July 1, 1989. For present comparable provisions, see 61-6-3 NMSA 1978.

Cross references. — For Uniform Licensing Act, see 61-1-1 NMSA 1978 et seq.

The 2021 amendment, effective June 18, 2021, increased the number of members of the New Mexico medical board from nine members to eleven members, increased the number of physicians to be appointed to the board, required that at least two of the members be osteopathic physicians and two of the members be medical physicians, and prohibited health care practitioners over which the board has licensure authority from being public members of the board; in Subsection A, after "consisting of", changed "nine" to "eleven", after "physician assistant and", changed "six" to "eight", after "reputable physicians", added "at least two of whom shall be osteopathic physicians and at least two of whom shall be medical physicians. The osteopathic physicians and the medical physicians shall be"; and after "shall not have been licensed by the board", deleted "or have practiced as a physician" and added "as a health care provider over which the board has licensure authority"; and added a new Subsection C and redesignated former Subsections C through E as Subsections D through F, respectively.

Temporary provisions. — Laws 2021, ch. 54, § 48 provided:

A. On June 18, 2021, all functions, personnel, money, appropriations, records, furniture, equipment, supplies and other property of the board of osteopathic medicine are transferred to the New Mexico medical board.

B. On June 18, 2021, all contractual obligations of the board of osteopathic medicine are binding on the New Mexico medical board.

C. On June 18, 2021, all references in law to the board of osteopathic medicine shall be deemed to be references to the New Mexico medical board.

The 2003 amendment, effective June 20, 2003, substituted "New Mexico medical board" for "Board of medical examiners" in the section heading; in Subsection A, substituted "New Mexico medical board, consisting of nine members" for "board of medical examiners, consisting of eight members" in the first sentence, inserted "one physician assistant" preceding "and six reputable", deleted "as defined in Section 61-6-6 NMSA 1978" in the second sentence, inserted the present third sentence, and inserted "by the board" in the last sentence; added present Subsection C and redesignated former Subsections C and D as Subsections D and E, and rewrote present Subsection D.

Temporary provisions. — Laws 2003, ch. 19, § 28, effective June 20, 2003, provided that all functions, personnel, appropriations, money, records, equipment, supplies and other property of the New Mexico board of medical examiners shall be transferred to the New Mexico medical board; all contracts of the New Mexico board of medical examiners shall be binding and effective on the New Mexico medical board; and all references in law to the New

Mexico board of medical examiners shall be deemed to be references to the New Mexico medical board.

The 1991 amendment, effective June 14, 1991, in Subsection A, increased the membership of the board from six members to eight members and, in the second sentence, substituted "two public members and six reputable physicians" for "one public member and five reputable physicians" and "licensed physicians" for "registered practitioners"; deleted former Subsection C which read "Two of the physician members of the board first appointed shall hold their offices for a period of two years, and the remaining three physician members shall hold their offices for a period of four years. Thereafter, the physician members shall hold their offices for a period of four years. All board members shall hold office until their successors are appointed and qualified"; designated former Subsections D and E as Subsections C and D, rewriting present Subsection C which read "The public member shall be appointed to a four-year term"; and made related and minor stylistic changes in Subsections A and B.

The 1989 amendment, effective July 1, 1989, renumbered this section, which formerly was 61-6-1 NMSA 1978; inserted "or schools" near the middle of the second sentence of Subsection A; substituted the present provisions of Subsection D for "The public member, upon the effective date of this act, shall be appointed to a term expiring January 1, 1982. Thereafter the public member shall be appointed to a four-year term"; substituted all of the present language of Subsection E following "removed" for "as a member of this board"; and made minor stylistic changes throughout the section.

ANNOTATIONS

Governor's power not usurped. — Requirement that the governor appoint to the board of medical examiner's nominees who were submitted by the New Mexico medical society, where only the governor has this prerogative, would not unconstitutionally usurp the governor's power. *Seidenberg v. N.M. Bd. of Med. Exam'rs*, 1969-NMSC-028, 80 N.M. 135, 452 P.2d 469.

Review of board's proceedings. — On review of proceedings of board of medical examiners, court is limited to a determination of whether the board's order was reasonable, lawful and had substantial evidence to support it. *Seidenberg v. N.M. Bd. of Med. Exam'rs*, 1969-NMSC-028, 80 N.M. 135, 452 P.2d 469.

Corporation to perform medical services. — Because the legislature chose to expressly prohibit the corporate practice, apart from professional corporations, in the case of dentists and podiatrists, and chose to expressly permit, with limitation, other forms of corporate practice in the case of psychologists and engineers, it may be inferred from the legislature's silence in the case of medical doctors that a corporation may be formed to provide medical services. 1987 Op. ANNOTATIONS

License requirement does not violate first amendment rights. — The Medical Practice Act does not purport to regulate the expression of ideas or opinions concerning effective treatments or other issues of public concern, nor does it require all speakers at seminars held in New Mexico to be licensed to practice in New Mexico. The act simply requires those who engage in conduct in New Mexico that amounts to the practice of medicine to obtain a New Mexico license. Thus, any burden on the exercise of first amendment rights is at best minimal and incidental, and the act leaves open alternative channels of communication through which ideas and opinions can be expressed. *State v. "medical specialties", added "the American osteopathic association or other boards as approved by the board".

Laws 2021, ch. 70, § 8, effective June 18, 2021, removed a provision that an applicant for licensure by endorsement must be in compliance with United States immigration laws; and in Subsection B, deleted Paragraph B(3) and redesignated former Paragraphs B(4) through B(7) as Paragraphs B(3) through B(6), respectively.

B. The board may, in its discretion and for good cause shown, place the licensee on probation on the terms and conditions it deems proper for protection of the public, for the purpose of rehabilitation of the probationer or both. Upon expiration of the term of probation, if a term is set, further proceedings may be abated by the board if the holder of the license furnishes the board with evidence that the licensee is competent to practice, is of good moral character and has complied with the terms of probation.

C. If evidence fails to establish to the satisfaction of the board that the licensee is competent and is of good moral character or if evidence shows that the licensee has not complied with the terms of probation, the board may revoke or suspend the license. If a license to practice in this state is suspended, the holder of the license may not practice during the term of suspension. A person whose license has been revoked or suspended by the board and who thereafter practices or attempts or offers to practice in New Mexico, unless the period of suspension has expired or been modified by the board or the license reinstated, is guilty of a felony and shall be punished as provided in Section 61-6-20 NMSA 1978.

(1) "conversion therapy" means any practice or treatment that seeks to change a person's sexual orientation or gender identity, including any effort to change behaviors or gender expressions or to eliminate or reduce sexual or romantic attractions or feelings toward persons of the same sex. "Conversion therapy" does not mean:

(5) "sexual orientation" means heterosexuality, homosexuality or bisexuality, whether actual or perceived.

ANNOTATIONS

Due process. — Former Subsection D(27) (now Subsection D(29)) of this section, defining "unprofessional or dishonorable conduct" to include conduct unbecoming in one licensed to practice medicine or detrimental to the best interests of the public, is not void for vagueness. *McDaniel v. N.M. Bd. of Med. Exam'rs*, 1974-NMSC-062, 86 N.M. 447, 525 P.2d 374.

Terms of probation not unconstitutionally vague. — Where one of the terms of probation imposed by the board on a physician found guilty of unprofessional conduct for falsely prescribing demerol for the alleged use of another when in fact the drug was for personal use was that the doctor not take or have in the doctor's possession "any dangerous drugs" without the consent of a psychiatrist, and the physician thereafter prescribed the drug ritalin for a patient and diverted some of it for personal use, revocation of the physician's license for violating probation was justified, as under the facts the terms thereof were not unconstitutionally vague. *McDaniel v. N.M. Bd. of Med. Exam'rs*, 1974-NMSC-062, 86 N.M. 447, 525 P.2d 374.

Prior judicial determination unnecessary. — An administrative determination of "unlawful, illegal or unauthorized" conduct sufficient to support a conclusion of "unprofessional conduct," as provided in this section, is not dependent upon a prior judicial determination of criminal guilt. *Strance v. N.M. Bd. of Med. Exam'rs*, 1971-NMSC-081, 83 N.M. 15, 487 P.2d 1085.

Restraint of proceedings. — Board of medical examiners has exclusive jurisdiction regarding the granting and revoking of certificates admitting physicians and surgeons to practice, and as statutes do not provide for disqualification of board members, proceedings before the board may not be restrained merely by reason of the fact that the board itself initiated the proceedings against a physician and was, therefore, an interested party. *Seidenberg v. N.M. Bd. of Med. Exam'rs*, 1969-NMSC-028, 80 N.M. 135, 452 P.2d 469.

Subsection D(5) does not create privilege; it only describes ethical constraints placed upon a physician. *Trujillo v. Puro*, 1984-NMCA-050, 101 N.M. 408, 683 P.2d 963, cert. denied, 101 N.M. 362, 683 P.2d 44.

Reinstatement after revocation. — Board of medical examiners has the power to suspend a license inherent in its power to revoke, but when revocation is accomplished, the only method of reinstating revoked licensee to full privileges is by the means of reapplication. 1953-54 Op. Att'y Gen. No. 53-5839.

Under former law, the legislature did not define unprofessional conduct, nor prohibit advertising by physicians; former statute did not go far enough to give power to the board of medical examiners to revoke the license of a physician for advertising unless said advertising was false, immoral and against the public welfare. 1939-40 Op. Att'y Gen. No. 39-3048.

No lay control of professional medical judgments. — An entity, such as a clinic, hospital or other similar corporate entity employing physicians, may not engage in conduct amounting to the practice of medicine by exerting lay control of professional medical judgments. 1987 Op. Att'y Gen. No. 87-39.

- (2) has been adjudged mentally incompetent by a final order or adjudication by a court of competent jurisdiction; or
- (3) has pled guilty to or been found guilty of any offense related to the practice of medicine or for any violent criminal offense in this state or a substantially equivalent criminal offense in another jurisdiction.

This has created a need for qualified professional genetic counselors to coordinate assessments, to deliver accurate information to families, to assist families in adjusting to the implications of their diagnoses and to help ensure that genetic information is used appropriately in the delivery of medical care.

B. The purpose of the Genetic Counseling Act is to protect the public from the unprofessional, improper, incompetent and unlawful practice of genetic counseling.

History: Laws 2008, ch. 53, § 2.
